My Birthday

My birthday is on the twenty-fourth of October. This eleven-year-old birthday was an unforgettable one because I got my child's identity card. Also, my family gave me a big surprise on that day.

In the morning, my mum suddenly said to me, "We are going to the party room to celebrate your birthday now." I was so glad and surprised because I wanted to go to the party room for a long time. When I entered the party room, I saw my cousin and my family there. There were many facilities inside, such as poker, mahjong, board games, Switch and table tennis. We had a lot of fun there.

After we finished dinner, the light were suddenly turned off. My dad held a cake and my family sang me a birthday song. I made a wish and blew the candles. All the people clapped their hands and celebrated with me. Most importantly, I found that the cake was my favourite ice-cream cake!

After we ate the cake, my cousin gave me a gift. It was a beautiful bag. I was so touched that my family gave me a big surprise on my birthday. I hope that I can have a surprised birthday like this one next year! What a wonderful day!

A Day to Little Hawaii Trail

It was full of happiness when I was on the way to Little Hawaii Trail which is close to my home, Yau Yue Wan.

My family and I started hiking to the trail. On the way to the hill, we saw a lizard. Its body was green and its tail was red. Mum was scared but I took a photo of the lizard. Then we walked for almost ten minutes. We saw a river and a beautiful waterfall, as well as many species of fish and shrimps. I decided to catch them so I took my fish net. A few minutes later, I caught six fish with zebra stripes and ten shrimps. Then we went home.

At home, I put the fish and shrimps into a fish tank. Soon, the fish were chasing each other started breeding babies. I hope they can grow faster. After all, it was amazing to go there because the stream and the waterfall are beautiful and there are a lot of beautiful little creatures in them.

An unexpected event in the summer

Last weekend, my dad was off from work, so he suggested that we could go hiking. After packing some things, we went to the hill that was near our house. It was Duckling Hill.

First, we went on the stairs and walked towards the entrance of the Duckling Hill. We started walking up the stairs. The view was beautiful! The view was very wide that we could take a look of the island that was "floating" in the sea. We could watch the full view of Sai Kung there. After walking for 30 minutes, we took a rest at a kiosk. We ate something and drank some water. At the moment we left, a man called us. He told us to clean up the waste and took it away. We apologize to the man and took the trash away.

I learned a very important lesson today. I thought that protecting our environment is very important because the Earth is our living planet. It was an unexpected but the best lesson in my life.

Who took my summer holiday?

COVID-19 is a very strong virus. If we catch this virus, we will get very sick, such as having sore throat, cough and fever. This COVID-19 happened since February in Hong Kong and it hasn't stopped, so we need to wear surgical masks and we cannot go out in this summer holiday.

In last summer holiday, my elder brother, parents and I went to Japan to have a trip for ten days. We visited the parks and ate many yummy food. But now we cannot go out of our home. We cannot go the church, too. We need to stay at our home and fight with the virus.

I feel very bored to stay at home. I hope that the COVID-19 pandemic will stop soon and will not happen again. I also hope that the coming summer holiday in 2021 will be fun and interesting. COVID-19 is like a stealer that took my summer holiday away.

An unforgettable event in the summer

I have an unforgettable holiday in this summer. In this summer holiday, we must stay at home. I couldn't go shopping, travel, meet up with friends and play with them. I also couldn't have BBQ with my best friend. I miss him very much. Staying at home all day makes me feel very bored.

I did my homework and read books every day. Sometimes, I played a mobile phone game "Brawl stars" with my brother. I have learnt some new things in this summer holiday, such as cooking, wash dishes and mop the floor. My mum taught me how to cook. Now I can fry eggs, cook noodles and make cakes by myself.

This summer holiday is the best for me as I can learn some new skills. However, it is also the worst summer holiday I ever had because I can't go elsewhere.

A large, colorful rainbow arches across the bottom right of the page. To its right, there are several balloons in shades of yellow, orange, and red. The bottom of the page is decorated with green flowers and yellow stars.
