I was thrilled yesterday night because I was lucky to join a wonderful Halloween party. We were gathering in my friend's house.

The Halloween party was held inside a building where my friend live. Before the party started, we first prepared a lot of candy and decorated the house. After that, we changed into our costume and went to play trick-or-treating. We started from the top floor of the building, screening out every apartment that had Halloween decorations. We rang the bell, did the trick-or-treating and got candy. We kept searching all the way down to the ground floor.

We successfully filled up two bags with candy. It was great. I saw a lot of children dressed up weirdly but some of them were lovely. If I could join it again, I would like to dress up as Ironman.

Yesterday was my worst day ever. It was the Math Exam Day. I am good at Math. So I didn't worry about the examination at first.

"Come on! The examination should be easy. I don't need to study. Let's play!" I said to myself. So I just played and drew pictures on the day before the exam. I only studied for thirty minutes.

However, when I got the exam paper, all the questions were super hard. It was like my brain went boom! I didn't even have time to check my answers. I thought my marks were going to be very low.

This lesson teaches me to study harder, otherwise I will get low marks.

There was a Halloween party at my school on 30 October. We celebrated it in our classroom. The Halloween party was so boring this year because of the COVID-19.

We had some fun in the party! First we took photos with a lot of different Halloween backdrops. Many of us dressed up like Harry Potter, skeleton and mummy. At last, nine of our classmates who wore costumes got some candy as the prizes from our English teacher.

It was so surprised that my teacher let us watch a video about a cartoon character, Snoopy. I loved Snoopy very much. When I was small, I went to a theme park in Shatin. Over there, I could find a lot of Snoopy things and I liked the school bus the most.

Although we could not play trick-or-treating with my friends and teachers, I could recall my memory when Snoopy was playing trick-or-treating in the cartoon. It was so joyful!

Last week, my teacher gave us back the Chinese mid-term examination paper. I expected that I wouldn't get a high mark in the examination, but I was really surprised when I knew it was the opposite.

That day, the teacher came into the classroom and announced, "Today, I'm going to give out your exam paper. Don't worry if you got a low mark. Work hard and improvement is the point." I was anxious about that because I really cared about the mark and I knew if my mark was lower than ninety, my mum and dad will be disappointed. It was the worst moment waiting for my paper.

Counting the student numbers...eight, nine...and twelve, it was my turn to get the paper! I felt my steps getting slower towards the teacher. I comforted myself, "It isn't too bad to know the result." I took the paper and went back to my seat without looking at the mark. Then, I folded the corner to cover the mark.

It was time to check my paper. After the teacher had explained all the questions and answers, I finally decided to peer into my mark. "Ninety-nine!" I murmured in disbelief. I kept pinching my cheeks. "It wasn't real. I...no way...can't believe it..." I stammered quietly. A second later, the happiness came to my mind - it's real! This is unbelievable! Then, I was almost fainted by the joy.

I dashed to my mum after school. I told her the wonderful news and she was shocked. She couldn't calm down for quite a while. It was the first time I've seen her being like that. After all, that was the best day in my life. So, I wrote it down.

Today, we had a Halloween party without trick-or-treating. Fortunately, we had a great time with Snoopy and Garfield cartoons. They made us smile and laugh loudly under the masks in this terrible COVID-19 pandemic.

We shared our happiness and enjoyed our Halloween party very much although we could not have trick-or-treating. Also, I went out to take some photos with my friends. We were playing and chatting around the classroom. We enjoyed being together a lot.

I hope that COVID-19 will go away as soon as possible.
DON'T COME BACK AGAIN!
