An unforgettable trip

In the summer holiday, my whole family went to Beijing. My grandparents also joined the trip with us. I thought it was the most unforgettable trip.

We visited the Palace Museum. The Palace Museum is also known as 'Forbidden City'. In ancient times, the Forbidden City was the palace where the emperor lived. The buildings of the Forbidden City are very magnificent. Besides, the view from the Jingshan Park overlooking the Forbidden City is very beautiful. We took many photos.

During the trip, we had a lot of chances to eat a lot of famous dishes in Beijing, such as Beijing roast duck, noodles with soybean paste and Chinese dumplings. The food was so delicious.

I was very satisfied with this summer vacation. It was relaxing!

I was so eager to drive the car to the petrol station and clean the car.

The next day, we went to the Universal studios Japan. We visited the Minion Park and saw a 4D mini movie at Minion's House. The mini movie was unforgettable because the journey was dangerous and exciting. Finally, we took some cute photos with the Minions.

A Visit to Smart Power Gallery

I visited to Smart Power Gallery in November. It is about some Hong Kong electricity knowledge and Smart Power Gallery's history.

First, we followed a guide to different rooms. The first room is the introduction of Hong Kong's electricity. The next room is about Smart Power Gallery's history. The third room is dissimilar removable energy source, such as tidal power, solar power, wind power, etc. The last room shows some exhibits of solar panels.

Finally, the guide taught us to make a windmill model. However, the robot was very hard to make. On the other hand, the windmill model was relatively easy, most of us chose the windmill model.

After that, it was time to leave the gallery. Happy time flies as fast as second! From this visit, I have learnt more about Smart Power Gallery and Hong Kong electricity.

My sister

I have a sister, she is three years old. She is the youngest person in our family. My sister was born in year 2016, her birthday is on the sixth of November. Her name is Jazzy and she is studying in kindergarten now.

On the day that my sister was born, my grandfather and grandmother brought me to their house. They said that my mother was at the hospital. Later, my grandparents brought me back home. At that moment, I saw a little baby sleeping in its small bed. She was my sister. Her eyes were as bright as stars. She was so pretty! I couldn't forget the day. It was remarkable! After three years, I can still remember that scene!

Now, I always help my sister with her homework. I think it is very easy but I know it's difficult for her. I like my sister very much.

This is the first time for me to write a passage about my little sister. I think this is unforgettable!

My summer vacation in Taipei

I went to Taipei with my family from the twenty-third to the twenty-sixth of August. We went to different spots. Throughout the trip, one of the memorable experiences was our flight and the B&B.

It was my first time to have a window seat. Although it was a sunny day, the view was so pretty and I watched a movie named The Secret Life of Pets.

Moreover, the most exciting part was the B&B we were living. There was a staircase for us to reach the attic. My sister and I stayed there. Unfortunately, there were a lot of ants with made me feel uncomfortable.

It was an unforgettable event for me in my summer holiday because our family can rarely go on a destination together.

An unforgettable event in the summer holiday

This summer, I went to Nagoya for seven days. I went to Nagoya with Grandma and my parents. We stayed in Nagoya JR Gate Tower Hotel. I could see the railways at the windows from the hotel.

We visited three amusement parks. Legoland is about Lego. There are many kinds of the thrill rides, and they are more suitable for children. Legoland is very attractive to me because I really like Lego.

Nagashima Spaland is a cool amusement park. I love the Looping Star the most. It is a roller coaster which contains a loop. There is a water park nearby. There are 33 water slides in the park. All the slides are exciting. The most special thing is there are mini-sized hot springs.

Suzuka Circuit is a theme park which I can drive cars and it contains a formal racing track. Dream R is a mini racing car game. I played it three times and I got two A License! Ene-1 is a game which you need to drive 400 meters with limited fuel.

There are various kinds of yummy food in Nagaya such as eel and chicken wings. I ate them almost every day.

The trip was unforgettable because I played a lot of games and ate a lot of delicious food. The trip was wonderful. I want to visit Nagata again.
