Dear Mum,

I want to say thanks to you, because you always take care of me.

I want to thank you for helping me with my homework, especially Chinese. When I feel sick, you look after me carefully. You always take care of my health. I drink six to eight cups of water every day. When it is cold, you tell me to wear enough warm clothes.

Thank you so much!

Love,

Cyrus

My Wonder Woman Mum

Last Sunday was Mother's Day. I want to write something about my mum.

My mum is thin and short with long curly hair. She is a kind person. She had to work before. But she quit her job when I promoted to primary school. She contributes all her time in our family.

My mum always helps me solve my problems on schoolwork. She also listens to me patiently when I am unhappy. She always encourages me and guides me to be a good person. She even can cook delicious food for our family. My mum is my Wonder Woman.

I feel being blessed with a wonderful mum. I love her forever.

Dear Tim,

How are you? How is your live in London? I had a wonder
Easter holiday with my family.

We took Peak tram to the Peak. It was the first time my
little brother took the Peak tram. He was very excited! Then, we
visited the Madame Tussauds Hong Kong. All the wax figures
there were very real. I was so happy that I could meet my
favourite basketball star - Stephen Curry there. I took a photo
with 'him'.

What did you do during Easter holiday? I hope you also have
a great time with your family.

Love,

Adriel

A Special Gift for A Special Person on A Special Day

A week before Mother's Day, my parents and I stayed at home. We discussed a celebration plan. Dad suggested a bundle of flowers and a cake as usual. I suggested to dine out at night as usual. Mum sighed. She wanted a special Mother's Day with a special gift.

Dad and I had no idea of the special gift. First, Dad asked, "Does mum want a new dress?" I replied "No." Dad asked, "Does mum need a day off?" I yelled, "No, I need mum." Then, I wondered if mum even mentioned it. Dad thought for "a while". Dad said, "I got it."

At last, Dad bought mum a gift on Mother's Day. Mum opened the gift box slowly. She smiled. It was a smart floor cleaning robot. Mum said sweetly, "Dad, you are really a good listener. Thank you." Dad and I were happy. We shouted, "Hooray! Happy Mother's Day!" I learn that we should take care of mum more, I want to thank mum on taking care of us. I promise that I will be a good listen too.

My Special Day

Today, I want to share my special day. My dad and mum took me to LEGOLAND Malaysia last year.

We went to the Driving School in "LEGO® CITY" when we arrived. I need to take a lesson before I drove the car. I drove fast, but I followed the safety rules.

Next, we attended the Build & Test in "Imagination". While playing "down the slope", my lego car crashed and broke into bricks so many times. I felt very unhappy. We ordered pizza at Plaza Mania for lunch.

In the end, my mum and I went to ride Dino Island in "Land of Adventure", it was interesting. It was an amazing boat ride and we both got very wet at last.

This trip was special because it was our last trip before Covid-19 had a huge impact. We were very lucky that we could visit Malaysia before they stopped us from travelling.

A Special Day

Our school Prize Giving Ceremony was on 13th April, 2021. It was my first time to go onto the stage in the hall to get a prize. This prize was to praise my improvement in mathematics. I was excited when a teacher called my name and presented the prize to me. Then, I took photos with principal. Unfortunately, because of the COVID-19, my family couldn't come to the ceremony and see me on the stage. I was disappointed. But after I got back home, I showed my prize to my mum, she was joyful and said 'Oh! Good girl! At last my family were very happy.'
