Back to school again

There is a terrible virus in Hong Kong now, but it is subsiding now. After a long school suspension, our school let P5 student come back. I am excited that I can go back to school and learn.

Firstly, when I learn at school, I am more attentive to the lessons. However, in Zoom lessons, I move a lot and miss parts of what my teachers have taught. So, I think learning at school is better.

Secondly, I can talk with my friends when I am at school with classmates. In Zoom, I can't talk with them. We can't meet each other. I like talking to my friends so I like to go back school.

However, I need to wake up early and I will be tired. During Zoom lesson period, I can wake up at 8:10am, but I have to wake up at 7:00am when I go back school. This is the only reason that I don't like going back to school.

I love studying at school rather than on Zoom. I can pay attention to lessons and talk to my friends. Going back to school after a long school suspension is a wonderful event for me.

Back to school again

We needed to stay at home to have Zoom lessons because of the corona virus. I was very excited after I heard from my mum that the school principal announced that we could go back school again.

After I went back to school, I noticed that a lot of classmates were fatter and so was I. I don't like Zoom lessons. During PE lessons, we could just do some easy exercise but I like to do some tiring exercises such as running, playing basketball and jumping rope.

When we are having visual art lessons at school, we can draw safely because we have the art teacher to look after us.

We can only go back to school for one week, I hope we can pass through this difficult period as soon as possible so that we can get back to normal life.

Back to school again

It's Monday, finally! All the P5 students have to go back to school again.

I am happy about this news because I hate staying at home because of the coronavirus, it is so boring! I can only go out at weekends.

On the first day at school, I had to adapt to waking up earlier than my "norm". I met my classmates and friends so I was happy.

After a few days, I am more accustomed to going back to school now. I hope the coronavirus will disappear completely soon.

Back to school again

I have to go back to school this week after a long COVID-19 school break. I feel extremely excited because I can meet my friends as normal before I hope I can go back to school every day.

Actually, the reason why I want to go to school is that I can be more attentive in the lessons. Sometimes when I am having online lessons, I can't concentrate as it is noisy at home. Also, the disadvantage of using zoom is that the network is unstable without WIFI. It affects my learning progress.

Besides, something can only be done at school such as face-to-face discussion, presentation and competitions. Additionally, some students are lazy and don't do their homework or even playing video games when they are having online lessons.

In conclusion, it is much beneficial to attend the classes at school. I prefer going to school every day, and I hope that the virus will go away soon!

Back to school again

After a long Zoom lesson period, we were finally permitted to go back school. I was so happy to go back school because I could meet all my friends instead of just looking at them on the screen.

During Zoom lessons, some naughty students were playing video games, watching YouTube videos and even skipping lessons. But now they don't stand a chance.

Furthermore, if you look at the screen for a long time, you may need to wear glasses, and if you sit at your seat for too long, your legs will be very numb. These are not good for our health.

At last, I hope that COVID-19 will go away as fast as a lightning and we can get back to our normal life.
