An Extraordinary Chinese New Year

Chinese New Year is one of the biggest celebrations in Hong Kong. In the previous years, we had seen street decorations and dragon and lion dances on the street. We also shared delicious meals with family and friends.

Due to COVID-19, we couldn't have large gatherings and outdoor festivities in this year. However I still received a lot of red packets from my relatives. I also made a virtual celebration by zoom with my cousins. We played catch-phrase game and had so much fun.

Year 2021 is the year of Ox. I hope this year will be full of blessing and bring us to a positive destination.

My Chinese New Year Holiday

On 14th February, 2021, the third day of Chinese New Year, my father took my family and I on a day trip. He was the leader of the trip. The place we had the trip was Tin Shui Wai.

First, we went to a market to buy a turtle. Second, we went to visit the second largest library in Hong Kong, Tin Shui Wai Library. Unfortunately, it was closed. After that, we went to Tin Shi Wai Station to get a station information leaflet. Then, we visited Tsui Sing Lau. It is a declared monument in Hong Kong. At last, we went to a handicraft shop. I made a leather keychain.

At six o'clock in the afternoon, we bought some packaged dinner, and then we left Tin Shui Wai. I like this trip very much. I give four and a half stars for this trip.

Chinese New Year

I love Chinese New Year very much. We can get red packets, watch the lion dance, and eat melon seeds.

This year, I went to my friend's grandpa's house to eat reunion dinner. The sticky rice and the abalone were delicious. I love them.

My cousin went to my house. We prepared a lot of games about Chinese New Year. We ate a lot of yummy food too. I made the New Year cake with my mum. At last, we played riddles. My aunt couldn't guess the answer all the time. It was fun! We wrote Fai Chun, and I wrote the message "Get all you want" on it.

I enjoy Chinese New Year very much. I hope I can write more Fai Chun and watch the lion dance next year.

Chinese New Year Holiday

Due to COVID-19, we went to grandparents' home to have dinner on the first day. We didn't visit any relatives, so I got fewer red packets.

On one day, we went to Yau Tong quarry to take photos. It is a beautiful place. I saw some people climb on the cliff at the quarry. My sister climbed up to the lighthouse. When the tide was coming, she almost needed to swim back. Luckily she ran back just in time. I felt so excited.

On the next day, we had a nice lunch in a hotel. Then, we went hiking to Reservoir Islands Viewpoint. We spent two hours to reach there. There are a lot of steps and the road is rugged. When we reached the viewpoint. The view was wonderful. There are many islands in the reservoir. We took many photos. Then we went home. I felt so tired after three hours of walking.

I am going to prepare for my examination in the rest of my holiday. I will do my best to get good results.

My preparation for the examination at Chinese New Year

My first term final examination will start from the second to the fifth of March, 2021. It was originally scheduled to begin in early January but it was finally postponed to March. Therefore, I have to study hard during the Chinese New Year Holiday.

First, I plan to study the core subjects: Chinese, English and Maths. I think I need to improve my Chinese and English writing skills. Then I will study Science and Humanities. After that, I will spend some time on other subjects such as Music and PE. I will do some skipping training.

At last, I hope I can finish the examination soon and get high marks. It will be a bonus if I can get the academic awards.
