Summer vacation life

In the summer vacation, I did a lot! I took part in golf, judo and squash courses, went swimming...

On July 15, my mother and I boarded Costa Cruise ship at Shekou Pier in Shenzhen. The Cruise ship had duty-free shops, cinemas, swimming pools and playgrounds. I took part in dancing, interactive games. There were many different wonderful activities every day.

We went to the Japanese Island of Okinawa by taxi. I tasted some local specialties. I also shopped and visited many attractions. The whole summer vacation was very enjoyable!

Going to the book fair

On 19th July, my family and I went to the Hong Kong Book Fair.

First, we went to the first floor. There were a lot of books. My mother bought some exercise books for my coming year. After that, she bought some “My Little Pony” books and comics. They were fantastic!

At the end of the day, we went to the fifth floor to have some refreshments. I ate some spaghetti. It was delicious!

A trip to Osaka

I went to Osaka with my family from 23rd August, 2019 to 30th August, 2019. We visited many places, such as Legoland, Nara Park, Kaiyuukan Aquarium and Kids Plaza Osaka. We also had meal in many different restaurants.

I like to play in Legoland because it has a small playground where I can play with a slide. I built a Lego dragon in a workshop. I bought a Lego lunchbox too. It was yummy!

We had a lot of fun! I hope we can go to Osaka again!

A Trip to Shenzhen

Do you know what I did during this summer holiday? I went to Shenzhen with my grandfather and grandmother.

The trip started out badly because I was sick. On the way to Shenzhen, I needed to take medicine. After that, I took a bath because I broke into a cold sweat! However, things got better. I was not sick anymore. We could have a nice trip. I was overjoyed!

After one hour, we finally got to Shenzhen! First, we arrived at the hotel that we were staying at during the trip. Then, it was lunchtime! We got to a place full of flies and my dad performed a show — “How to Catch a Fly”! It was marvelous!

I think Hong Kong and Shenzhen are not the same. Shenzhen will get more modern in the future!

A Happy Day

At the beginning of the summer holiday, I joined a fun event with my family and friends at Asia World-Expo.

I joined many different activities there. It had a lot of inflatable games and a drama, called “Environmental Play”. I tried rock-climbing. It was very challenging! I also built a ‘house’ with my friends with some waste. It was so fun!

That day I played a lot of games. I was very tired but happy!
