Noah's Ark

I went to Noah's ark with my dad, mum and little sister. First, we went to the Nature Garden. It was full of beautiful plants. Then, we went to the Ark Garden. It was full of fake animals. After that, we went to Fun Fun Play Land. It was a playground shaped like a rocket. Later, we went to the e-planet. We could create some toy vehicles there. After that, we were hungry so we went to a restaurant to eat yummy food.

In the afternoon, we went to Noah's Stadium to ride bicycles. After riding the bicycles, we went to Treasure House. It taught us about the Earth. At last, we went to Ark Expo. It taught us about animals. I love Noah's Ark very much.

My Summer Holiday

In the summer holiday, I go to the beach with my mum and dad. We play in the water and waves. We also play with sand and build a sandcastle. For lunch, we eat French fries and a grilled fish. We catch a lot of fishes and crabs. We catch shrimps and lobsters too.

The next day, we go to Ocean Park. We see fishes in the aquarium. They are beautiful and elegant. Later that day, I play on a slide, swing and roundabout. After having fun in the park, we go to a toy shop. I buy a toy train and a toy car. My sister buys a doll and a doctor cosplay costume.

I have a super wonderful and happy summer holiday!

The lantern

I read books and visit my grandmother in the summer holiday. My parents give me a gift after we leave grandmother's home. It is a lantern. I am happy.

The lantern has my favorite cartoon character on it. Her name is Elsa. She is a queen. She is brave and kind. Her face is round. She has long, straight hair. Her face is round. She has blue eyes and a small mouth. She wears a blue dress. She is beautiful. I love her and the lantern so much!

My Lego

In my summer holiday, my mum and I built a Lego bus in two days. It is a very nice bus and I like it very much. I always play with the bus with my mum. A few weeks after that, I also built a Lego Batman car and a clown car. It was so fun! I built them with my daddy within one day only.

We love to play with Lego so much. We spent two hours to build the cars I made with my daddy. We were fast and we had a lot of fun! Lego time is the most exciting thing in my summer holiday!

My eye hurts

Today, I do my homework and then play. I go to my grandmother's room. I hold onto the handle of the wardrobe and dance. Suddenly, the handle comes off. Some tiny parts go into my left eye. It is very painful! Later, I go to my grandmother to let her know. Then, she brings me to see a doctor. The doctor says it is not serious and he gives me eye drops to use. It still hurts a lot, though.

I hope I can recover soon!
