## A trip to Australia

When we arrived at Australia, my uncle drove us to his home. I saw my two younger cousins. They were playing Beyblades that was made with Lego. We caught some crabs and we ate ramen for dinner.

On day two, we went to a mountain. We had a lot of fun there!

In the following days, we also went to a lot of different places, such as Paradise Country Movie World and Sea World. I like Movie World the most, especially the games “Hall of Justice” and “Driving School”. I like the Hall of Justice most because the Justice League had to fight those monster stars. My best score is 79063.

The best supermarket I think is “Woolworths” because there were some exclusive Lion King Ooshies.

After that, we went to Sydney. I don't think there were things to play except for the sushi and the Nintendo Switch.

We went to Tangalooma Island for two days. There was pizza to eat and a beach.

On day two, I got lost on the island and the security guard helped me. I was scared!

On the last few days, we went to the museum and we went mining. We ate a good dish on the last day.

Overall, I think it is a good trip.

## **A trip to Dubai**

During the summer holiday, I had a lot of first time of my life. All of the first time were happened in Dubai. I am going to share two of them to you. They are skiing and my desert trip.

Firstly, I will talk about skiing. This is my first time to learn skiing and touch the real snow. Is it amazing that I could play snow at the desert? In fact, I skied at the in-house snow field. It was very cold, so I wore some thick clothes. There was a teacher to teach me how to ski. I was the worst student in the class, even my younger sister was better than me. She is only 7 years old!

The second special moment was my desert trip. This was the first time I stood on a desert. The sand was very fine and smooth. In the desert, I could drive a desert buggy. It was a four-wheel motor bike and I could drive it by myself. But finally I crashed to the fence. It was lucky that I didn't get hurt. Next, I got on a four-wheel drive with my family and speeded in the desert. It was very exciting. At last, I went to a campsite to eat some BBQ food and there were some people performing dancing and playing with fire.

This trip was very amazing and unforgettable. I earned a lot of life experience. I have learnt how to ski and how to get along well with other people.

### **My summer camping trip**

On 20<sup>th</sup> July 2019, I went to a 4-day camping trip with my friends, Cherry, Natalie and Anki.

We met early at the bus station near Po Lam MTR station. We were so happy to see each other and kept on chatting excitedly. We were also so surprised that most of the other participants of the camp were our schoolmates!

After half an hour of travelling, we arrived at the campsite in Sai Kung. Unluckily, because of the bad weather, we had to stay in our rooms until lunchtime. However, we were still in good mood because we could stay with each other. After lunch, we got changed into our swimsuits. We went to the beach and learnt how to row the dragon boat. It was fun! The coach divided us into two teams for competition. Even though the members of my team were younger, we still won the race! I had a sweet dream that night.

On the next day, we went snorkeling and canoeing. It was such a challenge! However, after several practices, we all could move freely and swam underwater with our heads. It was unforgettable that a fish bumped on my canoe. Luckily, it jumped back to the sea at last. Otherwise, it might not be able to breathe.

On the third day, we had to attend an exam on our canoeing techniques. I got the “Starfish Badge” at last! I was so proud of myself. I really never thought I would be able to get a badge of canoeing because I had to use my whole body’s energy to make the boat move! After we got back to our campsite and finished dinner, we kept on laughing, chatting and playing games together. We all cherished the last night together at the camp.

On the last day of the camp, we played zipline. It was exciting. However, it was only 25 cm long. I think it’s too short... If I can have a second chance, I want to play zipline over the ocean one day. It must be one of the wonderful activities in the world.

I can’t wait for the next summer and going to the camp again with the amazing people around me. Do you want to go camping with us next time?

### **My family trip to Singapore**

I had a trip to Singapore with my family in July. We stayed there for 7 days and 6 nights. We arrived at the hotel at nine thirty at night on the first day of the trip.

On the second day, we took a coach and went to Legoland in Malaysia. We played different rides, watched a 4D movie and went on the Observation Tower there. They were very funny.

On the third day, we went to Universal Studios Singapore. We played exciting rides, watched a 5D movie and watched the night parade there. They were enjoyable.

On the fourth day, we visited Chinatown. We ate a lot of local food there. They were yummy. Besides, we bought gifts there for our friends and relatives. After that, we visited the Merlion.

On the fifth day, we went to the Adventure Cove Waterpark in Sentosa. The water slide and the wave pool were exciting. We visited Gardens by the Bay at night. The light show was fantastic.

On the sixth day, we visited the S.E.A. Aquarium, Madame Tussauds Singapore and Butterfly Park. They were interesting. Besides, we played the Skyline Luge. It was very exciting.

On the last day, we checked out the hotel at ten in the morning and left Singapore at one in the afternoon.

I enjoyed Universal Studios Singapore the best during my trip because it was the most exciting place I had in Singapore. I hope I can go there again.

## Sleepover in Ma Wan

The long expected summer holiday finally approached. On the first day of summer, I decided to have sleepover at my friend's home in Ma Wan.

Ma Wan is a special place for me as I had lived there for seven years. It is small but there are many trees there and it is close to nature. Every day you can see the blue sea through the windows.

When I arrived there, I was really surprised. There are many series of stories and detective books that I like the most in their house. After reading books, we played chess, for instance Monopoly and portrait picture card game with Uncle Ryan, my friends' father. He often played them in the past. On the second day, we strolled at a park and played monkey bars and swing. After we played video games, I met their pet tortoises and took care of them. Uncle Ryan gave me a flying robot for present! Time flew away in the morning, we visited the Science Museum and had a lunch with my parents before we dismissed.

Although I was reluctant to leave, I believe that I can go to my friend's home again and play chess, meet their tortoises and go to the park with them very soon!

## **A trip to Japan**

I had a wonderful summer holiday this year because I had a trip to Japan with my family.

I had visited Japan for several times. This year I visited Kyoto which was an old city in Japan. I spent my holiday in different attractions. I like Hanamikoji where we lived in a two-storey house. I lived on the second floor.

I visited Biwakyu which was a lake near Kyoto. It was the biggest lake in Japan. I rode on a cable car. I could see the beautiful scenery of the lake. The air was fresh and I felt cool on the peak. I also went to Hatahama Castle. I could see Shirakaua. It was near the sea. Suddenly a big wave came, a girl dropped her sandals in the lake. How poor she was!

The most unforgettable memory in my trip was playing fireworks. It was prohibited in Hong Kong. But in Japan you can play fireworks, so my dad bought some and played with me. At first, I was scared but when I saw it sparkled, I felt excited and I enjoyed it very much.

On the last day of our trip, I went shopping with my mum. We bought a lot of clothes. I enjoyed my holiday very much and I hope I can visit Japan again very soon.

### **My Summer Trip to Thailand**

From 20<sup>th</sup> July to 3<sup>rd</sup> August, I went to Pattaya and Bangkok. I went there with my family and friends. We had a great time there.

Unluckily, I got a fever before the day we travelled to Thailand. It was amazing. I was recovered when I arrived Thailand. First, we landed on Bangkok airport. Then we travelled to Pattaya by van for around 3 hours. This time we were staying in a villa instead of a hotel. We were excited because it was our first time to stay in villas.

We tried a very special meal which is Japanese teppanyaki. The chef cooked in funny ways. He threw food into our mouth but I found that it was difficult to catch. When he was cooking onions, he added a lot of oil and make a huge fire in front of us. We were scared. We tried the local bus. There was no air-conditioner or door and it was fast. I felt a bit scared. I went to the biggest play-house in Pattaya. There were not many people so we didn't have to line up. Those slides were fast, long and exciting. I like this playhouse.

We went to Bangkok in the second week. Although we travelled there many times, we still found some new places to visit. We went to Children Discovery museum. We built a big house out of extra big Lego bricks and made towns out of different facilities there. It was interesting. We tried on a racing car. It was very fast and the racing road was curved. It was hard to control the car.

It was an amazing trip. We tried on different transportation and many special food. I like this trip very much! We are planning to go to Japan next year. I am looking forward to the next trip.
