My favourite cartoon

Do you like watching YouTube? Well, I do. I discovered an interesting cartoon there. Its name is "Weegiepie".

This cartoon is so funny. Weegie will play games, such as Super Mariod Maker Z, Among Us and many more. Weegie is mainly Luigi but the channel calls it Weegie, so that it doesn't make sense at all. I think it should be called "Luigi Gaming" instead of "Weegiepie".

I usually watch it with my little brother. I recommend you to enjoy this cartoon while eating fruit. It is relaxing.

My favourite TV program

My favourite TV program is "Good Cheap Eats 9". It is shown on TVB Jade. The program is about how to save money when you cook. Maria Cordero and Luk Ho Ming are the hosts of the program.

I love this program because it is funny and informative. It teaches us how to be eco-friendly. For example, in order to reduce food waste, Maria teaches us to use fish bones to make soup and steam the other parts of the fish to make two dishes.

I always watch this program. I like to watch it with my aunts and my mother because we can discuss together.

3L Lau Shun Yat, James

My favourite TV program

My favourite TV program is "Emily's Wonder Lab". It is broadcasted by Netflix. It is about Science. Emily is the host. She does experiments in the program.

I like the episode of oobleck the most. Oobleck is made by corn starch, water and food colouring. Emily asks the children to run in the sticky oobleck pool.

I love the program because it is funny and interesting. I usually watch it. I watch it with my mum. We like it very much!

3L Mok Yuen Yu, Natalie

My favourite TV program

My favourite TV show is "America's Got Talent". I watch it in Pearl. Many contestants from the United States and around the world take parts in the show. They perform their talents to the judges, for example, singing, dancing, doing comedies, doing magic shows... The judges are Cowell, Howie, Mandel, Hedi Klum and Sofia Vergara.

I love this program because the show is funny and interesting. I watch it once a week. I usually watch it with my elder sister. I would like to share this funny program to my classmates. I know that they are going to like it, too!
