My Summer Holiday

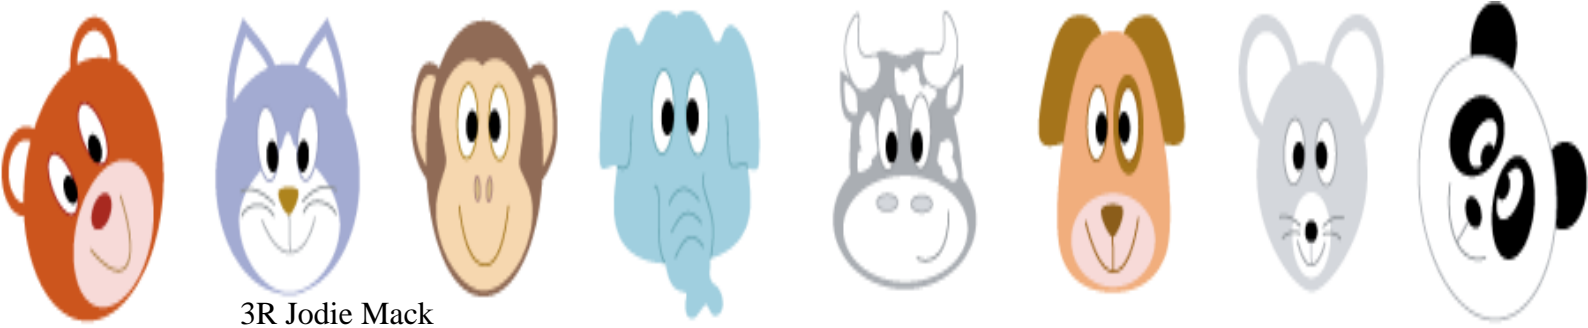

This summer holiday, I went to Bangkok and Pattaya in Thailand with my parents. We stayed there for five days and four nights. We were very happy and enjoyed the trip very much.

First, we went to the airport early in the morning. But we were unlucky that our flight delayed for two hours. Then, I watched a movie and played games on the flight. After arriving Bangkok airport, we took a taxi to Pattaya.

The hotel was very big. There was a balcony in our room. I liked the slides in the swimming pool most. I played the slides for about hundred times.

On the second day, we went to Cartoon Network Waterpark and played for the whole day. We all got burnt on that sunny day.

In this trip, I ate many mangoes in Thailand. I also love eating mango sticky rice. They're really yummy and great.

A trip to Seoul

My family and I visited Seoul in the end of July this year. I was really excited because there was a lot of delicious food there. First, we arrived to the hotel at Myeongdong and we had dinner at a local street food night market. I liked the rose-shaped scoops of gelato most. It was very beautiful and cool!

Next day, we went to the Seoul Grand Park. The Seoul Grand Park is the first and largest theme park in Korea with a zoo and botanical garden. Luckily, it was not crowded on that day. We went to the zoo by the Elephant Train and I saw many amazing animals in the zoo such as lions, giraffes and birds. We enjoyed the place very much.

On the last day of the trip, we had a traditional Korean style for lunch. After lunch, we went shopping. My mom bought a lot of clothes for my brother and me. I like South Korea because Korean people are friendly, kind and willing to help others.

My family and I had so much fun and we definitely will go there again.

My Summer Holiday

One Saturday morning, at five in the early morning, my mom woke Hayden and me up. I snapped to attention. Then I hurried to change my clothes. However, my little brother, Hayden, was not in a hurry because mom always helped him do everything. Then we hurried off to the airport. After that, we flew from Hong Kong to Kaosiung.

On the first day of my holiday, we went swimming. We bought the Easycards. Therefore, we took the KMRT to Sicihwan. We played happily and crazily.

Before we took a plane back to Hong Kong, we bought a KMRT Model. It really looks real. I am looking forward to going back to Kaosiung again.

My Summer Holiday

On the eighth of August, I go to the Solar Museum. In the museum, it has many scientific things. I like the games in the museum. They are fun and interesting.

During lunch time, my mom prepares sushi for me. It is delicious. I eat a lot. After some rest, we go to a beach near the museum. We make sandcastles and swim in the sea. We even buy ice cream. I choose vanilla flavor.

Around six thirty, it is getting dark. We need to get back home. This is a wonderful day. I hope I can go to the museum again.

My Summer Holiday

From 16 to 17 July, 2019, mum, dad, my baby little brother and I went to Gold Coast Hotel for vacation during summer holiday.

First, we checked in for the room. Then we went to the playhouse in the afternoon. We stayed there for many hours. Afterwards, we had a luxury buffet dinner at night. The food was great.

In the next morning, I went to a big swimming pool. I swam and played the water slide. Suddenly, I saw three big crocodiles in the pool. But all of them were occupied. A nice lady asked, "Do you want the toy crocodile?" I said, "Yes, please!" After that, I could play and slide the toy crocodile. I felt amazed.

In the end, I felt so delighted because the lady gave the toy crocodile to me. I was speechless.

My Summer Holiday

I have a memorable trip to Fukuoka from 26 to 31 August. In this summer holiday, it is my first time travel with my cousin Hazel Wong and her family. I stay with her without my parents' guidance in the first three days in Beppu. Then I join my parents in Kakata.

I visit a safari park near Beppu. There are many different kinds of wild animals. We take a special tour bus. The staff lets us feed the wild animals like lions, elephants and zebras with a long pair of pliers. I feel a bit scared when several lions come closer to our bus.

On the next day, we go to a big park to play a roller slide. Afterwards, we need a special mat to play this slide. I go through a mini jungle which I slide down. It is really exciting and amazing.

On the fifth day, we go to a big water park called "Sunshine Pool". Firstly, I jump into the "Lazy River". The wave makes me hard to stop. Next, I play a water slide. It is high. I really feel a bit scared at first, but I decide to try it. I even play it for many times finally. I think I am brave.

I hope I can go to Fukuoka with my cousin again next year.
