An unforgettable event in the summer

During the summer holiday, I started learning ice-skating. In the beginning, I felt worried because it was hard. But, when I saw that a child who was younger than me could skate fast. I thought it was easy.

Before starting, I had to wear a coat. A coach put us into groups. I met a friend called Dave. At first, I could only walk. If I walked fast, I would fall down. Therefore, I had to walk slowly. Gradually, I could skate and skate very fast.

I had to buy a new pair of skating shoes. It was because the old one always hurt my feet! I like skating. You are welcome to see my performance anytime.

The first two days at school

Yesterday, when I had my new class at school. I saw that all my friends were in my class! They are Jayden, Rio and Oliver. But at that time, I found that my enemy sat next to me! He always made me mad in the lessons. Sometimes, he would beat me! That was the reason I hated him. But I found I was in the wrong classroom!

At last, I went into the classroom. How about you?

The first two days at school

Yesterday I went into my school. I felt a lot of things changed and became more difficult. But I was not scared about them. I needed to do my best.

When I step into the classroom, it was new for me. All the things were new, like teachers, classmates, classrooms ...and the level was also higher. After recess, I went down to the Cal Lab because I was a prefect. Teachers gave me a chance to be a prefect because I wanted to help other students.

After all, I think it would be good way to finish my Primary 4 because I have to be a prefect and help other students and I like to help other people in this world.

The first two days at school

During the first few days at school, I met some friends and I was in group two. My class teachers were Mr Wu and Miss Lam. In my group, there were Kok Pak Him, Chan Karson, Jessie, Macy. My new friends were Kok Pak Him and Chan Karson.

My new class was 4L. Mr Wu taught us English and PE. Miss Lam taught us STEAM, Liberal Studies and Visual Art. Miss Lam was this year's new teacher and there were some other new teachers. Our class got a new NET teacher too.

I like this class because the friends I met are good to me and I wonder what happy things will happen in this class.

A day at Sai Kung

Last Sunday, my friends and I went to Sai Kung Outdoor Recreation Centre. It was a sunny day. My dad drove me there.

That day was unforgettable because I played a lot of sports games. We played Frisbee at the basketball court, archery at the archery range and table soccer and air hockey table at the recreation room.

I liked archery the most. We had to listen carefully to the introduction by the coach before we started. First, he put us into groups of four. Then, we needed to put on protective gear on our forearms. When we were ready, we needed to stand straight, pull the bow in a correct position and aim at the target. Then, we shot when we felt confident.

I missed all the targets but still I felt enjoyable. I understood I needed to practice more to perfect my skill. I felt happy and I had so much fun. I will definitely go there again.
