Preparing for the final exam

The final exam is coming. I want to get high marks in the exam. Therefore I plan to try hard and practise more during this holiday.

I'm good at Maths. I always get high marks in this subject. I still do the sums as practice every day. I'm weak in Science and English. It makes me feel a little bit worry, but mum said I will get good marks if I'm hard-working. I'll try my best! I hope I can get high marks.

Accident

This summer holiday, I always stay at home. I play with my brother. We play Lego and indoor football. Besides, I teach him to read. Sometimes dad and mum bring my brother and me to the park to ride the bicycle.

One day, I slid on the floor when I was taking a shower. I was badly hurt and my mum took me to the hospital. Luckily, I was fine. I was happy in this summer holiday.

Happy Christmas under Covid-19

There is Covid-19 in this Christmas holiday. My mother said we cannot have big Christmas party with our friends. I am so sad to hear that, but my father said we can still decorate our home. My younger brother and I are so exciting.

On Christmas Eve, we set up our tall Christmas tree. We hang some ribbons, pine cones, snowflakes and a big yellow star on the top. We also put some lights around the Christmas tree. We put some stickers about Christmas on the windows.

After that, I write some Christmas cards to Santa. I would like to have a princess nail box and my younger brother would like to have a big radio-controlled car.

When we wake up on Christmas Day, I find some presents under the Christmas tree. They are the gifts we want. Our dream comes true! They are the gifts from Santa Claus! I feel excited.

A day at the beach

I go to the beach with my family. My father swims in the sea. My brother wears his Baby Shark swimsuit. We build sandcastles. My mother takes photos for us. We have potato chips, chicken wings and peach tea for lunch. What a fun day!

Buy turtles

I rear turtles in the summer holiday. Mother, father, brother and I go to the Goldfish Market to buy two turtles on Sunday. We also buy a turtle box and some turtle food.

I give some food to the turtles and help them change water every day. I feel happy and excited to take of them.

My "special" Christmas holiday under Covid-19

During the 2020 Christmas holiday, there is Covid-19 pandemic in Hong Kong. We have to wear masks and wash our hands frequently.

This year, my family and I went to The Landmark in Central. We went to enjoy western cuisine and dessert. Then we went to enjoy the landscape and see the exhibits. We captured many pictures together.

At last, we went home and I found a Christmas present with a card. It is a gift from Santa Claus. I was extremely surprised and happy!

I wish 2021 will be a wonderful year without Covid-19.
