An Unforgettable even in the summer holiday

In summer holiday, I went to visit Uncle Ben with parents. Uncle Ben has a farm in Yuen Long. It was far away from my home, so dad drove to there.

When we arrived, Uncle Ben took us to look around his farm. First, he showed us the animals feeding there, he also let me feed the rabbits. It was fun!

Next, he led us to the vegetable field and taught me how to plant seeds. It was my first time to learn how to grow vegetables. How interesting it was.

At last, we put a blanket on the grass near a mango tree and enjoyed our tasty snacks. Dad, mum and Uncle Ben were chatting. The views were good and the wind was blowing. I felt relaxed. It was such as unforgettable day! I had tried to be a 'one day' farmer.

Cycling

Last Sunday, my mother and father took me to cycle. This was the first time we wore a mask to ride a bike. I wore a pink T-shirt and a pair of shorts. We brought a bottle of water and helmets. First, we came to Hong Kong Velodrome and went to Tseung Kwan O Waterfront Park. We were very hot. The sun is very bright. Then, we came to Tseung Kwan O Waterfront Park Footbridge and rode to Lohas Park. It was fun.

In the afternoon, we had lunch at The Alchemist Café in Hong Kong Velodrome.

It was very unforgettable because this time we rode all over the Tseung Kwan O but Tseung Kwan O Waterfront Park was the best. I hope to come back here to ride our bike next time.

After that, we went back home. I was very tired so I felt asleep.

Christmas

In this Christmas, the world is covered by Covid-19. We cannot have parties with friends. We can only celebrate with family at home.

On that day morning, I have a plentiful breakfast like pork chop, eggs, bacon and tomato beans. After that, dad gave a small present to me. I did not open the present until Boxing Day. Due to we cannot have outdoor activities, we stay home watching a cartoon movie. The main character is a dog called "Scoob". It is an interesting movie. After that, we played video games. Some are sport games, some are wat games. My favourite game is "Mario & Sonic at the Olympic Games". Most of the time I won the game but I did lose.

At night, we ordered pizza as our Christmas Dinner. We had a big pizza, chicken wings, pasta and we drank soft drink.

In fact, even we stay a whole day at home but we still had many activities to celebrate.

On Boxing Day, I opened my present. It is a video game card called "Fitness Boxing 2". It is one of my favourite sport games.

Although we got impacts by Covid-19 this year and we had to stay at home on Christmas day. I felt novel because the first time celebrate Christmas covered by a virus. It was a Extraordinary Christmas.

At the beach

Yesterday, my mum, dad, little brother and I went to the Clear Water Bay for swimming. We brought a floating bed which was an eggplant figure. Dad had a sun bath when I and little brother build sandcastles on the beach.

Then, we found dad fell asleep. I had an idea, I put the sand on dad body. Besides head, his body was totally covered by sand. Suddenly, dad was awake and shouted, "Errrrr..." We were scared by him but it was so fun. We laughed happily.

We had a very delighted and unforgettable day at the beach. We hoped that we could go to the beach again in the near future.

Christmas

Yesterday is Christmas, Mum dad, my little brother and I went to my friend's home to celebrate Christmas.

When we arrived my friend's home, we ate a Christmas dinner, played Christmas games and exchanged Christmas gifts. We ate a turkey, pudding and cake. They were yummy!

Suddenly, I heard an old voice, "Ho! Ho! Ho!" I thought it was father Christmas! I shouted to everyone, "It was father Christmas!" So, we went out of the house. I said, "Hello, father Christmas." Then, father Christmas gave me a present.

I was very excited. Although we couldn't went outside to celebrate Christmas, we can celebrate Christmas at home happily. This was a wonderful Christmas.

Christmas

During Christmas, I had received a new present. I felt jumping up and down. Did you know what was it? It was a big box of Lego which was one of the Lego Mindstorms Series. The robot was about 40 centimeters tall and it could change to many forms, e.g. six legged creature, tractor, snake or scorpion.

When I opened the Lego box to build it, I found that there were lots of Lego parts. I spent for three hours to build it. But, I could not build it in one day. I also needed to build it with my dad, besides, we needed some batteries to make it move. There also had two remotes which were important. After we finished coding in the remotes, the robot could move in different ways. We needed to follow the instructions to build and program it. After I finished all my things, e.g. doing exercise books, playing the piano or finishing my homework, I could build it in my free time.

I had learnt a lesson. It was that we don't give up because when we give up, we couldn't build it and couldn't enjoy playing it.
