Mother's Day

Mother's Day is on 9th May this year. I celebrate Mother's Day with my family and relatives. We have my mother's favorite dishes for dinner. Also, we have a tasty cake as dessert.

I make a card in heart shape for my mother. My mother feels very happy. I am glad that he likes my gift.

A bubble with a hamster in it

One day, I was blowing bubbles in the house. When a bubble flew near my hamster's cage, my hamster Bella came out and stepped into the bubble! I was really shocked because this had never happened before. I immediately ran over to see if she was okay. I tried to get her out, but I couldn't pop the bubble. I took some scissors and tried to cut the bubble in half but it just simply could not pop the bubble. I tried almost a hundred ways to get her out, but none of the ways worked. I was about to give up when I heard a tinkling voice above me that said: don't give up, I can help you! I looked up and saw that there was a fairy! I said: who are you and how can you help my hamster? The fairy said that her name was Daisy and she has a magical needle that could pop the bubble. She also told me that they were not ordinary bubbles, they were magical bubbles! I popped the bubble with the needle and Bella stepped out. From then on, I have never blown those bubbles again.

What will my face look like when I grow up?

My name is Summer, I am an eight years old girl and I have a baby face now. My eyes look like the sun. My ears look like question marks. My nose looks like a slide and my mouth looks like a baby banana.

Although my mom and dad always say that my face is cute and lovely, I still want to know how will my face look like when I grow up.

I wish I would have a beautiful face when I grow up. My eyes would be big and round. My nose would be high and straight. Also, I hope my mouth would look like a crescent moon. Anyway, I just want to become a beautiful woman.

The Alien Teacher

One day, three monkeys are having an English class at school. Their teacher went out to get some teaching materials. One naughty monkey followed her. The monkey went upstairs and saw something glowing. Then the monkey took a closer look. It was a pink magic stone.

The magic stone took him to the moon. He saw his English teacher on the moon. She was teaching aliens to dance. Suddenly he found that the other two monkeys are on the moon too. "Why are you on the moon?, they asked their teacher. "Because I am an alien. I like Earth very much, so I pretended to be a human and became a teacher," said the teacher happily.

The monkey felt very surprised." Can you take us back to Earth?" asked the monkeys." Of course!" said the teacher. They went back to Earth by the magic stone. Suddenly, they were all in the classroom again. The monkeys thought their alien teacher was wonderful.

My Favourite Hobbies

My name is Jaiden. I am seven years old. I am a primary two student.

My favourite hobbies are riding a bicycle and playing basketball. I ride a bicycle with my father every Saturday. It's good for our health. I also play basketball because it can make me taller. It is fun.
