**Summer, please stay!**

In the summer holiday, I can try a lot of activities which I could not do due to lack of time during school days. For example, I could attend some interest classes like robot assembly class which could train my creativity. I could also play with my friends in the interest classes too.

Most importantly, my family went travelling abroad in the summer holiday. This summer, we went to my dream country – Thailand. We visited a lot of land animals and sea animals in the zoo and aquarium. We also fed and rode on elephants. We like excitement so we played water games in a big waterpark.

With both learning classes and interesting activities in my busy schedule, summer is very meaningful to me. Summer, please stay with me!

### **Travel to Ocean Park**

I went to Ocean Park with Bosco and Carson last week. However, we were very disappointed.

There were only very few clouds in the sky. The weather was hot but we were still very excited. We went to play the rides. There were a lot of people lining up. We waited for a long time. We felt so thirsty so I went to buy some water.

Half an hour later, it was our turn to play the rides. When we reached at the entrance, a staff stopped us. He told us we were too short and we were not supposed to play on the rides. We felt so disappointed.

At last, we just played a few boring rides. I hope I could be a bit taller next time I go to Ocean Park.

## Halloween

On the thirty-first of October, it was Halloween and we had our Halloween party at school.

I dressed as Manchester City's football player Sergio Aguero, my favourite football player. In my school, many people know him. When I was going to school, I saw a few classmates. They dressed normally. After I arrived to school, I saw many people dressed up like witches, Harry Potter, football players, zombies and more. We went up to our classroom. My classmates dressed casually. Only few of them dressed up for the Halloween.

In the second lesson, the party began. We partied in the hall, but the Halloween games were bad, boring and old. There was a game called 'New Word', but the words were just some easy words. The teachers used the same words as their 'new' words every year. In the party, we spent most of the time to do trick or treat and talk, and we didn't play the games.

At recess, we ate sweets and chocolates. The Halloween party was fun but the games were not fun at all. We had more fun on the trick or treating and talking.
