## My favourite birthday present

My birthday is on 3<sup>rd</sup> November. I am six years old now. I have gotten birthday presents, but my favourite one is a toy makeup kit.

My mother gave me this present on my birthday this year. It is a big pink box. There is a window in the front. I can see the makeup kit through the window. There is a key, a bag, a lip balm, earrings and makeup inside the box. I have so much fun.

## My favourite birthday present

My favourite birthday present is my teddy bear. Its name is Bibi. It is cute and cuddly. It is light beige in colour. It was given by my parents when I was just born.

However, when I was small, I bit on Bibi's eyes and hands. So there were many holes on it. Then my mommy helps to sew it with colourful cloth.

Now, it has yellow eyes, purple and brown hands. I think it is my favourite birthday present ever since.

## My favourite birthday present

My birthday is on 6<sup>th</sup> May. I am six years old now. I have got many birthday presents, but my favourite one is a robot.

It is a nice little toy robot. I got it from my father for my birthday. It has many colours - red, blue, yellow and grey. It has flashing lights. It works on batteries. It can talk and walk.

I always play with it in evenings. My friends also love to play with it. I love my robot very much.
