

4L Choi Lai Yuk Gordon

A reflection after two months in Primary 4

I have studied in PLKLHT Primary School for 4 years. I have made a lot of friends and a lot of teachers teach me lots of knowledge. They help me get higher marks.

In Primary 4, my class teachers are Miss Sing and Mr Yau. Miss Sing taught me in P.1. Her lessons are interesting and filled with laughter. We like her lessons and enjoy the time. Mr Yau is an art teacher. He tells us how to do the artwork and let us do by ourselves.

After two months, I also join some activities. They make my school life more joyful.

"Your attitude determines your direction." I always remind myself to have good attitude towards my academic work.

4L Fok Tin Ching

A reflection after two months in Primary 4

I have studied in P.4 for two months. Comparing to P.1 to P.3, I do better in English exam. My Chinese exam result is similar to P.3 but I am careless in the Maths exam. I decide to do well in Maths exam next time. I behave well and I usually answer questions in lessons.

My goals in P.4 are to get more than 91 marks in Eng, Chi and Maths. I want to get 10th ranking or higher in the grade. I will join more different competitions. I want to know more about Gordon and some more friends in 4L class.

"It's not what happens to you, but how you react to it that matters." This quote is useful to me because it reminds me to face success and failure with the right attitude.

4L Lee Cheuk Lam Serene

A reflection after two months in Primary 4

I am a new student in this school. I felt so scared and shy during the first month. My parents and I always worry about my schoolwork especially English. I need to be more hard-working and have more confidence than before. My learning attitude in P.4 is quite good so far. Comparing to P.1 to P.3, I think I don't give up easily and become more eager to learn.

My goals in P.4 are getting 90 marks in all exams and getting academic awards. I am learning the ukulele, piano and swimming now. The new thing I want to learn is dancing, but I am afraid that I have no more time to learn dancing. In my class, I want to know more about all my classmates because I don't know all of them before.

"Education is the passport to the future, for tomorrow belongs to those who prepare for it today." This inspiring quote is useful to me because knowledge is very important and it encourages me to be more hard-working.

4L Ma Yui Yin Dion

A reflection after two months in Primary 4

Today, I am going to talk about my first two months in primary 4.

I think my performance was not bad, but I can do better. I think I arrange my schedule better because I don't have a lot of classes after school now, but there is still some.

I sometimes make some careless mistakes. I have to remind myself not to be so careless. My goal in primary 4 is actually quite easy. I want to keep up my good work like primary three, or even better.

I want to learn least common factor because my cousin said that it is interesting. I also want to learn some new sports like golf, shooting...

I want to be friend with Gordan because he knows more knowledge than me and he is very creative. Remember last time he thought of something silly, but useful?

I will have fun in primary 4 and I will be nice at school!

4L Wu Tsz Long

A reflection after two months in Primary 4

School started two months ago. I think I have improved in different ways in Primary 4. When I was in Primary 1, I always wrote messily, but now my hand writing is tidy and neat. I also go to the school library more often because I am more eager to study.

I have some goals that I want to achieve in P.4. I hope to get higher marks in exams than before. I am a shy and quiet person, so I want to join some more activities to make new friends.

I love the quote 'self-belief and hard work will always earn you success.' It reminds me to work hard in order to achieve my goals.
