

Halloween

Today was the day of the Halloween party. I happily dressed up and went to school.

When I arrived at school, the school was filled with a lot of beautiful and spooky decorations. It felt like as if I was in a haunted castle.

Then I saw a lot of people wearing creative costumes and cosplays. For example, some were dressed as Squid Game guards, Tanjiro Kamado Demon Slayer and Harry Potter characters etc.

When it was finally recess, the Halloween party would start in next lesson, so we all got excited. Suddenly, a classmate decided to wear a gigantic dinosaur costume. The teacher thought it would be fun if we brought him to the corridor and so we all slowly moved him to the doorway.

After moving him to the corridor, a lot of students walked to him and started coming close to him and play with his costume. Then a janitor grabbed a camera and took a few pictures with everyone.

When recess ended, the Halloween party finally started, our English teacher told us that we could play a fun game. We were divided into three teams. The first team had to choose a representative and describe a word that was about Halloween. Luckily, our team got the answers correct and scored some points. Later, our team won the game! We felt happy as the teacher congratulated us.

When school ended, my classmate, James and I got into our driver's car and she surprised us with a bag of candies for each. Both of us swapped some of the candies and had a fun taste test. Then we both happily talked about Halloween and went home.

Today was so much fun! My friends and I spent our time on Halloween activities happily. I hope I can wear a Shinobu costume to the Halloween party next year.

A Day at Ocean Park

Today, we were going to Ocean Park. I was very excited about it! After we went through the entrance, we saw four fish spraying water. It was very funny! We went to "Adventures at Australia". First, I saw all the koala and kangaroos. They were so cute! I even learned about their lifestyle and habitat.

After we left, we went to the tram that did not work. We took a lot of pictures there. We went on a cable car and went to the "Ocean World". When we were riding on the cable car, we saw the beautiful landscape and the roller coaster.

After that, we went to the Jelly Fish Spectacular. In there, I saw the glowing jelly fish. It was so cool! I have seen fish that were in silver. They were very shiny! I even went to see the sharks. In front of the fish tank, there were some shark models. It looked so real! I learned many things about sharks' habitat. Then I visited the penguins, the North Pole animals, the wild animals like pandas, parrots, monkeys, spiders etc.

Finally, I queued up for a lot time for riding on the roller coaster and the Ferris wheel. Today was a great day. I hope I can come here again here.

A Challenge in Summer Holiday

During the summer holiday, I went to the adventure park - Tai Po Tree Top Cottage. I went there with my parents and my friend, Chloe.

We saw lots of challenge areas and felt excited. First, Chloe and I went to Treetop Adventure. We put on a harness with a clop in front, so that we would be safe. When I went across the log bridge, we and Chloe felt scared, but the instructor encouraged us to try to finish the challenges. I started going across the bridge and I shouted, "This is exciting!" Then we went on the rope runway.

We went down quickly and it was amazing.

I discovered lots of insects and animals there, like butterflies, dragonflies, spiders, birds, lizards, goldfish and turtles etc. A lizard was climbing on the grass slowly.

At last, we went on a raft which was in the pond. We had lots of fun. We were all tired, so we went home at dusk. I had an unforgettable experience in Tai Po Tree Top cottage. I hope I can go there again because I want to challenge myself.

Snorkeling at Ocean Park

During the summer holiday, my relatives and I took part in a summer event hosted by Ocean Park. It is called "Fish Friends Face-off". The programme allowed participants to snorkel at the Grand Aquarium.

I felt a little bit nervous when I entered the waiting room. The staff then informed us of the preventive measures for the plan. She introduced some of the fish in the pool and taught us how to wear the necessary equipment, such as wetsuits, diving boots, gloves, snorkeling and buoyancy.

Before the programme began, the photographer took some photos of us. During snorkeling, the staff described the process of the programme. She gave me some lettuce, shrimps and scallops to feed the fish. I enjoyed floating on the water near a lot of coloured fish. They were so cute. Suddenly, I saw some baby sharks and shouted. However, the staff said, "Don't worry, the baby sharks will not bite you and attack you."

The snorkeling programme lasted about thirty minutes. I took an extraordinary snorkeling adventure at the Grand Aquarium. I learned a lot from the staff who talked about corals and marine life. The staff was very nice and gave me an unforgettable experience. I will recommend the programme to my friends. I look forward to joining more ocean-related programmes in the future.

The ocean is beautiful and amazing!
