### **Zoom Lessons**

Because at the Covid-19 in Hong Kong, it made many Hong Kong's people infected. Consequently, we needed to use Zoom at home.

I pretty like zoom lessons because I only had thirty-five minutes lessons. We had lessons at home, we couldn't have recess at school with my friends. However, we had mini-recess within fifteen minutes in zoom lessons. At home, during recess, I tried to write a diary. I had fun.

I didn't like zoom lessons because of the network. Sometimes it was not steady. Overall speaking, I was happy in zoom learning at home.

I hope I could be back to school as soon as quickly and I missed my classmates and teachers. Hope to see them soon!

### **Chinese New Year in COVID-19**

I was going to have a New Year Party at school as usual, but we didn't have it on zoom. There were so many things happening during zoom New Year Party. Frankly speaking, I didn't like it because it was different.

This year, we had Chinese New Year Party in a different way. We could not go to travel or a trip. I was gloomy and I missed travelling. We stayed at home or played with our family members. We didn't go out to have reunion dinner either. I even had zoom gatherings with my grandparents. How incredible!

Hope everyone stay healthy, make Covid-19 stay away from Hong Kong. Therefore, everyone can have a normal life.

### **Chinese New Year in 2021**

This year's Chinese New Year is extremely boring! Because of the fifth wave of COVID-19, my family and I stayed at home during the whole Chinese New Year holiday. We just had family gathering through Facetime. How miserable!

Before the coming of epidemic, family gathering was very common during Chinese New Year. We could go the flower market to buy gorgeous flowers. However, these are not common anymore. We got stuck at home.

Before epidemic, we always went travelling during long vacations. Unfortunately, we didn't know when we could take a flight again. I missed travelling and many places, like Europe, England, Australia and so on. It was very common to have meals at restaurants and enjoyed movies at cinemas. Regrettably, I did not go the restaurants and cinemas for few months already. How bored are our lives now!!

Still, we have health. My father can cook yummy food for us. My mother can read story books with us. And my brother can play LEGO with me. I can still enjoy the LOVE in my family.

My Chinese New Year wish: COVID-19 can be over and our life can become normal. But I still hope for half-day school forever. Ha Ha Ha!!

### **Chinese New Year in Year of Tiger**

At Chinese New Year, I visited my friend Kasey's home. She lives in Resort Island. We bought two boxes of strawberries and a packet of mandarins. They felt very joyful.

She had a cat. Her name was Snowey. So, I played a ball with her. She was cute and fluffy. I loved her very much. Then I played Monopoly with Kasey and her father. And she won the game. At last, I lost the game. I didn't feel doomed because I had pleasurable with my friends. Also, we played video games.

At last, we left at twelve o'clock at night.

During this Chinese New Year holiday, I could not to anywhere. Because of COVID-19, we stayed at home.

### **My Birthday**

On my last birthday, my father surprised me with a brand new I-phone. That I-phone was stunning and expensive. It has a pink case with different animals with it.

Then, my mother surprised me with homemade birthday cake. It had sprinkles, cream and strawberries. The most incredible thing was about the cake was that there was a snoopy chocolate model on it.

This birthday was crazy! I hope I can have one more crazier birthday. I am looking forward to it.
