Starting my new school journey

After the summer holiday, I am going to go to a new school called Po Leung Kuk Luk Hing Too Primary School for promoting to P.5.

In my previous school, teachers taught us in Cantonese during Chinese lessons. However, the teachers in the new school speak Putonghua in Chinese lessons. But my Putonghua is poor so I learnt Putonghua in the holiday. I hope my Putonghua will improve.

When I was doing Summer Holiday Assignment, I found that I didn't learn past continuous tense before. Then, I asked Mum what it is and how to use it. I want to catch up with the English level of my classmates so I did some exercise about this topic.

Science Room is one of the rooms that I want to visit. It is because I like science and I want to do science experiments. Visual Art Room is another room that I am interested. I'm full of creativity so I want to draw a lot of attractive pictures there.

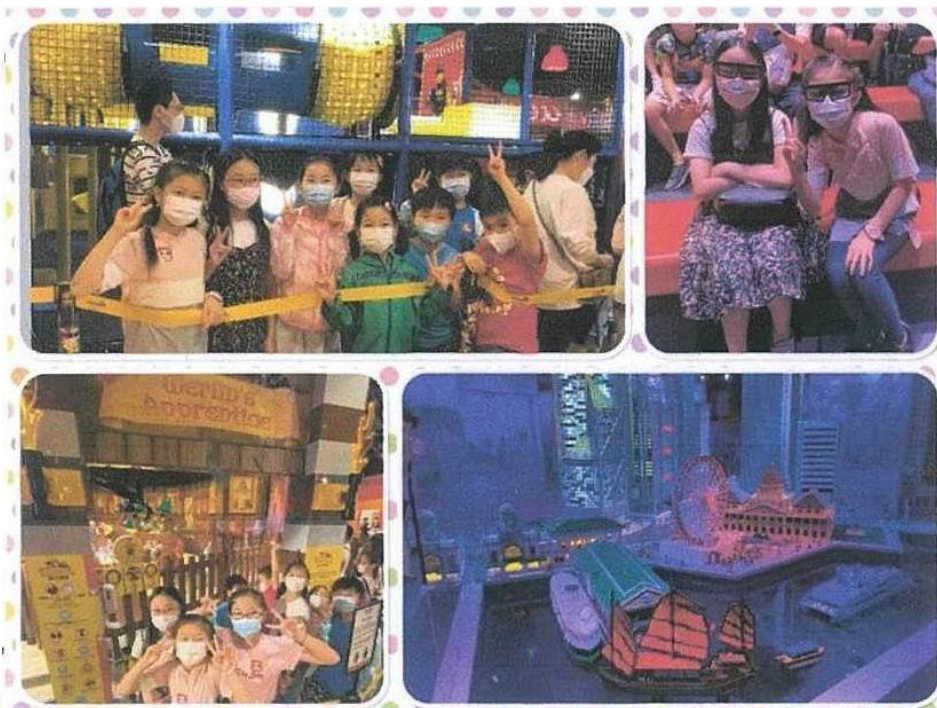

Amazing Summer

In my summer holiday, I joined some handcraft and Korean cooking summer courses, such as little toys that were made by paper cups, fried Korean beef noodles and Korean soap.

I also went to the LEGOLAND Discovery Centre at K11 MUSEA in Tsim Sha Tsui with my friends. We saw some famous attractions and landmark buildings that were made of Lego bricks, for example, HSBC building, The Big Buddha and Victoria Harbour. All of them were so amazing and beautiful. Besides, we took a lot of photos, watched some 4D movies in which the characters jumped off the screen with little rain, wind and even bubbles! The most exciting part was playing Kingdom Quest Ride Adventure to blast the skeletons and taking flight on Merlin's Apprentice Ride. We played for many times and it was awesome!

Furthermore, my family and I went to the hotel to have a buffet. The food there was delicious. I enjoyed it very much. There were a lot of tasty food, fruits, drinks and desserts, such as steaks, lobsters, watermelons and macarons.

In conclusion, I had a great time during this summer holiday. It was fun and I learnt and played a lot of things. I am looking forward to my next summer holiday!

A visit to the Hong Kong Zoological and Botanical Gardens

One sunny Sunday morning, my little brother and I felt bored. We preferred going out to staying at home. So Mum and Dad brought us to visit the Hong Kong Zoological and Botanical Gardens.

When we arrived at the Hong Kong Zoological and Botanical Gardens, the wind blew lightly. It made me feel relaxed.

First, we walked straight. Then we arrived at the greenhouse. I could not wait to go into the greenhouse to find Butterfly Orchid because it was my favorite flower.

Then, we went to visit the animals. The monkeys were funny. They climbed up and down. How active and likable they were! I love the baby pandas because they were so cute. Some of them were shy. They hid in their houses.

At last, we went home. Today, I saw a lot of things about animals and plants. This was my happiest and the most interesting day in my summer holiday.

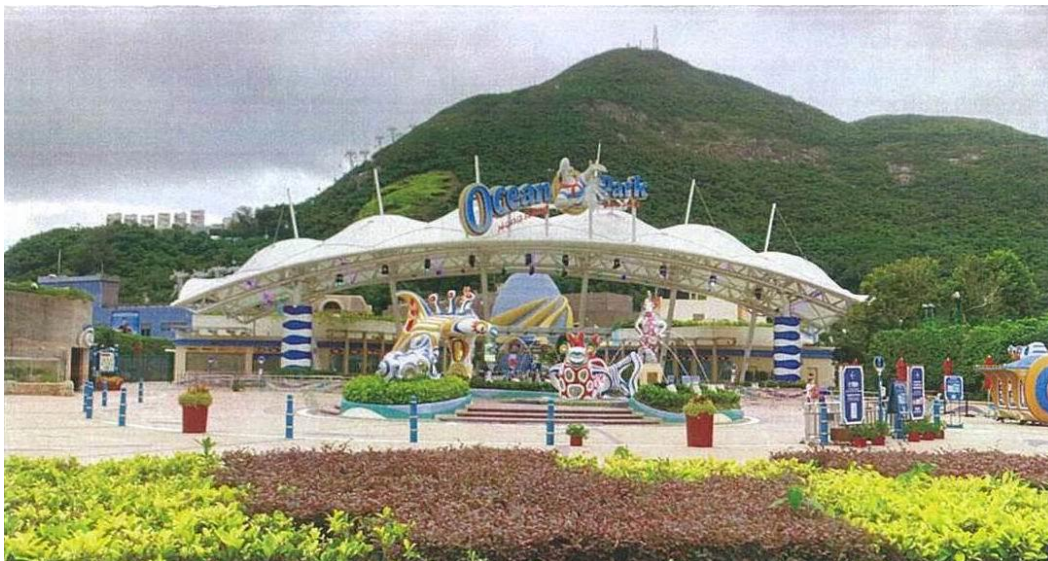

My unforgettable summer staycation

This summer, my family and I went for a staycation at Marriott Hotel Ocean Park for three days. My friends and their family members also joined together. I started feeling excited since my parents told me about the staycation one week before.

On the first day, we quickly checked-in at the hotel and rushed into Ocean Park. There are many attractions of animals and rides inside the park. We were so excited to visit 'The HK Jockey Club Sichuan Treasure Zone and saw the giant panda, "An An". His body movement was very lovely while eating bamboo. I took video of it with my mobile phone. My favourite ride is Bumper Blaster. My friend and I bumped each other and had lots of fun. We even played games at the game booths. I won a dragon doll at the end and it surprised me most.

The next day, we went swimming after having breakfast. All hotel guests could only book one hour swimming session every day because of Covid-19. We played water games at the swimming pool. Our parents enjoyed sunbathing at the pool side. At noon, we had lunch buffet at Marina Café at the hotel. There are a lot of delicious dishes. It was wonderful that I found potato wedges and they were crispy. I ate as much as I could. On the last day, I invited my friend to the game booths outside the hotel garden. We spent the remaining tokens and won some prizes before check-out. This summer staycation was very unforgettable. I wish I can visit there once again next year!

My first skateboard lesson

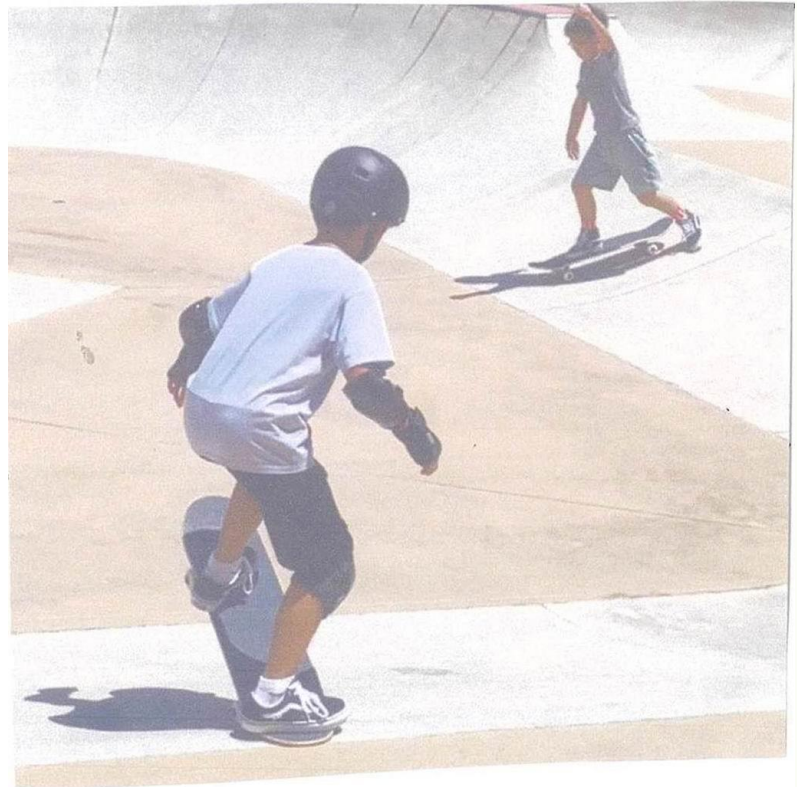

This morning was very special. Why? Because this morning I had my very first skateboard lesson at the skate park in Tseung Kwan O. I was extremely excited.

Six months ago, my parents bought a skateboard because I wanted one. I learnt how to control a skateboard with parent's help, but I never had a skateboard lesson before, so I hoped for one.

When I and my family arrived at the skate park, we met the coach and my classmates. Some of them didn't even know how to control a skateboard, so the first thing the coach taught us was how to control a skateboard.

Next, the coach showed us how to make a turn and told us to give it a try. "Just simply use your foot to lift up your skateboard. Meanwhile, move your direction." said the coach. Most people failed in their first try, and succeeded on the second or third try. The last thing the coach taught us was how to make our skateboard jump, or usually called "olley". This trick was harder than I thought, but with a lot of practices, I finally succeeded! I felt very proud of myself.

I like skateboarding very much because I can make new friends and when you succeed on a trick, you feel very gratified.

My summer holiday

My summer holiday was fantastic! I did a lot of things. My favourite activities were wakesurfing and pedal sea kayaking.

Mom, Dad, my sister and I went wakesurfing on a Friday. We went to the middle of the sea on a small boat. The coach taught us how to wakesurf. Dad tried it first, then my sister, finally my turn! I put my legs on the board, and the rope pulled me up. Immediately, I fell into the sea and I saw a dark shadow under the sea. I was afraid that it was a shark or a big group of fish. I swam to the board quickly and the boat picked me up. I tried seven times. It was a little bit difficult but fun.

On a Monday, I went pedal sea kayaking with my family. Dad and I shared a boat, Mom and my sister shared another. The boat was two meters long. Dad sat behind me. We pedaled to a beach. The guide helped us take photos, cooked us food and told us horror stories, but I wasn't scared. We also went scuba-diving at the beach and we saw some small fish. It was cool and exciting. I would love to go there again!
