Chinese New Year

In the previous years, my parents usually bought some new clothes for me before Chinese New Year. I helped my parents clean and decorate the house. I also had family reunion dinner with my parents and relatives.

During Chinese New Year, I usually wear new clothes and visit my relatives with my parents. We usually buy a box of candies or chocolate for them. We will also eat sticky rice puddings. It is sweet and yummy! I can receive a lot of red packets from my parents and relatives. I feel very happy. I also like watching the lion dance performance and parade.

However, for this Chinese New Year, there is COVID-19. Therefore, I stayed at home with my parents. We didn't visit our relatives or have dinner gathering with them. My mother cooked dinner and we enjoyed some yummy food at home.

I wish there is no COVID-19 anymore. I also wish I have good marks in all the coming examinations. Finally, I wish everybody good health.

Hotel day in - K11

Have you ever heard of K11 Hotel? I went to the shopping mall at least 3 times and I really looked forward to staying in the hotel.

We went there by taxi. I felt a little dizzy after I got off the taxi. My mom started checking in. "Oh Miss, my computer says you booked the K11 Hotel, not out Rose Hotel." Oh my! We went to the wrong hotel!

Then, we found a glass door. It said "K11 Hotel". Therefore, we rushed in. "Hello? Is anyone here?" We asked. No one answered. I found a door and opened it. Someone was there. He guided us and finally we went in the hotel room. There were a lot of red packets.

Once my mom opened the door, a mini two-seated sofa and a mirror were waiting for us. I took off my shoes and explored the room. Next to the sofa was a mini cabin for shoes and a big cabin for... cooking supplies! Down to the hallway, there was a bathroom and a not very ordinary toilet. Why? Because it can wash your butt, spray your butt and dry it. (I don't want to write these.) When I turned left, I saw a living room with a rocking chair. There was a table, too. There was also a kitchen with free snacks. There was a TV in my room and a toilet with a large bath tub in my mom's room! Because of the Covid-19, I could not go to the swimming pool or the playground. We watched movies all day long.

I think this hotel experience was great, except we needed to find the lobby of the hotel.

Chinese New Year

At Chinese New Year in the past years, my family and I went to the shopping mall and bought a lot of new clothes. Then, we went to Sham Shui Po to buy some red couplets and candies.

During Chinese New Year holiday, I usually watched lion dance and had family reunion dinner.

Under the pandemic, my family and I decorated the house, ate sticky rice puddings and went hiking at the Peak and Aberdeen. I did not get a lot of red packets because I could not visit my relatives. I did not give the red packet money to my dad. I save the money in my piggy bank.

At last, my first wish is that Covid-19 can go away so that I can go back to school without wearing masks. My second wish is that I want to win the mark six. My last wish is that I hope everyone can stay healthy.

3R Ma Tsz Lam

Chinese New Year

What do I usually do before Chinese New Year? I clean my home, decorate my home with red couplets and have family reunion dinner before Chinese New Year.

During Chinese New Year holiday, I usually visit my relatives and eat lucky snacks and meal. We eat water chestnut cakes, which means getting taller every year.

The year of the Tiger is coming! Unfortunately, under the pandemic, my family and I could only go to my relatives' home for simple celebrations this year.

Do I get any red packets? Yes, I do. I hope this pandemic can be over very soon. I wish everyone good luck, great fortune and may everything goes as you wish in the Year of Tiger!

Chinese New Year

Chinese New Year is coming! I usually have family reunion dinner, buy new cloths and decorate the house before Chinese New Year. During Chinese New Year holiday, I usually watch a lion dance on TV and visit my relatives and friends.

But under the pandemic, I did not have family reunion dinner this year. I only visited my grandparents. I still had a joyful Chinese New Year. I watched movies and played video games with my parents. I also ate taro cakes and candies. I got a lot of red packets. I keep them for myself and I will save the money in the bank.

I have three Chinese New Year wishes. I wish everyone has a healthy year in the Tiger. I wish the pandemic can go away very soon. I also wish I can get high marks in my exams.

Chinese New Year is my favourite festival!
