

Glamping in the summer holiday

In this summer holiday, I went glamping with my mum, dad and my friends. The location of the glamping site is at Pui O on south Lantau. We went there on the twenty-eighth of July. It was a two-day one-night Trip. I had glamping in these two days because my parents wanted to celebrate my birthday with my friends!

On the first day, we went to an organic farm in the campsite. A farmer there taught us how to water vegetables such as cabbages, turnips, carrots and broccolis. We also learnt to plant apples, oranges and kiwis. Then, we visited the animals there. We fed the goats with grass in the goat's garden and we also played with tortoises in the small pond. It was fun!

At night, we had a barbecue. We grilled sausages, steaks and fish balls. We also ate marshmallows and bread. After that, my mum gave me a surprise. She took a birthday cake out. It was my favourite chocolate cake! They sang a birthday song to me and I feel so happy!

On the second day, we went to Pui O Beach. We built a big sandcastle and played with the waves. Besides, we used our squirt guns to squirt each other. In the evening, we packed up our backpacks and went back home.

I felt delighted because this was an amazing activity. I could play in the countryside and learnt about the nature. Besides, I felt so touched because my parents gave me a big surprise to celebrate my birthday. It was so unforgettable!

Volleyball

During the summer holiday, I have joined a summer volleyball course which was organised by South China Athletic Association in Causeway Bay. There are more than 40 young learners and 4 coaches.

There are six basics volleyball skills, these are passing, setting, spiking, blocking, digging and serving. I have learnt passing, spiking and serving during the course. At the start of the lesson, we have to run four laps around the volleyball court and do some stretching exercises.

After that, we have to practise the passing skills. We need to find a partner, one need to throw the volleyball and the other need to return the ball. Sometimes the coach will spike and serve the ball, and we have to pass back to coach.

My favourite part of the lesson is spiking. I learnt how to run and jump and spike the ball, but unluckily I cannot hit the ball to the other side of the court. Before the end of lesson, the coach will teach us how to serve the ball.

The volleyball lesson is hard and my hands feel very painful but it is very fun. I like volleyball very much. The summer holiday is unforgettable.

My expectation in P5

I will be a primary five student in coming September. I hope I will be in class 5L because it is on the fifth floor while the others are on the sixth floor.

I would like to improve my Math in P5, since I didn't get good result in P4. I want Miss Kwok to be my P5 Math teacher as she teaches me patiently.

I stop all the sport activity because of the pandemic. I hope I can resume the skipping class and the swimming class so I can be healthier. Also, I can get the sport merit that I missed in P4.

I want to have more visiting activities in P5 so I can acquire knowledge out of the school, such as visiting the Science Museum and Space Museum.

I want to be a prefect in P5. I hope to be a good student and have wonderful performance.

My Summer Holiday

This summer, I had an unforgettable holiday. After staying in Hong Kong for one and a half years without travelling, we left Hong Kong and visited Macau and my grandparents' house in Mainland China.

In Macau, we went to Macau Science Center. The VR experience was impressive. My mum and I sat on the seats and put on VR goggles. The seats moved and we saw that we went underwater. We saw many colourful fish. The seats moved again and we shot up into the sky. We saw beaches and the old town of Macau. The experience was amazing!

We also visited teamLab Macau in the Venetian Hotel. It's a 3D interactive art space centered around a group of art works. My favourite exhibit was a room full of many gigantic balls which kept changing colours. We could push away the balls and walk around. My mum and I played hide-and-seek there, as one could easily hide behind the balls. It was so much fun! Other

art exhibits were also fascinating and children could play on the trampoline and slides.

Then, we went to my grandparents' house. At their backyard, there were many flowers, two fig trees, and some loofahs. In the previous summers I always liked to pick figs. But last winter was bitter cold so many branches were dead. This year I picked loofahs instead. My grandpa grew many white and pink periwinkles and moss roses which were colourful. I like the flowers so he gave me moss rose and red periwinkle seeds on my last day there. I love staying at my grandparents' house.

What a memorable holiday!

My Summer Holiday

After the final examination, it was time for the summer holiday. I was very glad that the final examination was over, because a long vacation would start soon. Now that it was here, I could finally have some rest.

I rested for a few days, then did my homework. After finishing some homework, I watched a funny but a bit sad film which was called 'Peter Rabbit 2: The Runaway'. I liked it a lot because you never knew the ending until the end. Sometimes it looked like that it was going to be a bad ending but then something good happened which made it look like it was going to be a good ending. Next, I ate some yummy sushi for lunch. Then we went to Kwun Tong to go shopping. Mum bought a new phone case for her new phone. We bought some food too for dinner.

On my birthday, I was very excited that I could go outside and celebrate. First, we went out to buy a cake. I saw a 3D durian cake. It looked pretty tasty so mum bought it for me. Mum liked durians but dad didn't. Luckily my dad wasn't depressed, he couldn't eat the cake because he didn't like sweet foods anyway. After buying the cake, we put the candles onto the cake. Dad lit the candles and I blew them. I made a wish to study better, then we ate the cake. It was a very memorable moment.

That night, we went to a very special restaurant. That restaurant had BBQ buffet. I watched as the meat sizzled as my saliva dripped down my mouth. When I tasted the grilled meat, I nearly fainted. It was so tasty that I couldn't describe it. We also ate some other yummy foods. That was the best day of my summer holiday!

I felt very joyful after this summer holiday and I wish that this summer holiday could last longer.
