Chinese New Year

It was Chinese New Year, my favourite day in the year. I got up early in the morning. I was looking forward what my family was going to do. I dressed up in new bright clothes. I greeted my Mum and Dad "Happy New Year" with my little brother. Mum took out longevity noodles and rice cake as breakfast from the kitchen.

After breakfast, we visited my grandparents. My uncles and aunts were there too. Grandma prepared some traditional food for us such as fried white patty and crispy triangles. I received red packets from married grown up. Oh! I became a rich person. How glad I was! We greeted them cheerfully and wished them good luck. While they were busy in chatting happily, my cousin and I were busy in playing board games and video games joyfully.

It was time for dinner. We had a feast together in grandparents' house. There were many mouth-watering food. I gobbled up a lot. My mother warned me not to overeat. After dinner, we watched Chinese New Year TV show. It was fantastic. We had sticky rice ball before going home.

At the end of the day, I was exhausted but happy as a clam. Chinese New Year is a good time for us to have you and fun together. I like it very much.

Chinese New Year Holiday

In this Chinese New Year, the Omicron virus become serious. But still, I want to share two special things to you. First, I paid my relatives a visit in a special way. Second, we did something that bring us fun in this period.

In the first day of Chinese New Year, we planned to go to my grandparent's house. Unfortunately, the epidemic is getting serious, so we decided to pay my relative a visit by Whatapp's video meeting. We got a call from my grandparents and my two aunts. My brother and talked a lot of New Year greetings to each of meeting. Although it was not a face to face gather, I also felt very lively.

My family and I stayed at home all day long. We played boardgames together, such as Risk, Rummikub...etc... My father even taught us how to play Mahjong which is a national quintessence of China. They are all fun. My favourite game is Rummikub because I can train up my brain. But I felt so disappointed because I cannot play the games with my friends.

To sum up, I felt happy during my Chinese New Year holiday. I hope the virus will go soon, so I can have gathering with my friends and other family members. I wish you have good health, good luck and much happiness throughout the year of tiger.

CNY Holiday

I'm sure many people went out to visit friends and relatives during the Chinese New Year. This is what I did during Chinese New Year with my family.

On January thirtieth we had a simple lunch to gather outside. Then the next day we went to my grandma's house for dinner. The next day was the first of February, we went to my grandma's house a gain and ate the same food because there was too much. After that my dad drove us and my uncle to Yau Tong to get dessert, then my dad drove us to Clear Water Bay Country park just to eat them. It was around twelve degrees celcius but the sky was very beautiful. The next day we ate dim sum with my grandmother in the afternoon. After that, we went to my grandma's house for the third and last time in arrow.

The next day we finally didn't have to go out that our friends came over and one of my friend came for a sleepover. The on the fifth and sixth we went to our friends houses for dinner. But on the sixth we also went to one of my relative's house for lunch. After that of our friends house we ate Cheese cake Factory for dinner, it was so tasty. Did you go visit friends and family during the Chinese New Year? Will for me that was an exhausting week.

Chinese New Year

On the Chinese New Year's Day, my family and I went to my grandparent's home. My uncle was arrived earlier than us. I received lots of red packets and ate turnip cake, taro cake. They were yummy. At that night, we went to visit my cousin, Phyllis too. We played together and ate a great dinner's meal there. I was very fun.

On the second day, we went to my grandparent's home again. My parents just played Mah Jong on their own. So my sister and I played iPad alone. It was dinner time, but they went still playing Mah Jong. I was hungry and asked "who will you all finish playing?" "Last round" they replied. We waited and waited. Finally, we just had a quick dinner.

On the third day, it was the same as yesterday, but this time it was at mu home. My sister played iPad with me. We down loaded and played lots of new games. It was funny and we played longer time. My mum ordered many foods for dinner. But none of them was my favor.

I thought this Chinese New Year was boring because if covid virus. Everyone stayed home this year to stay safe. I hope the virus will be gone soon and we can visit our friends and relatives again next year.
