My Summer Holiday

Where did you go during the summer holiday? I went to Ocean Park with my parents last Sunday.

When we reached Ocean Park, we went to the big aquarium. The jellyfish looked like gorgeous jewels. Next, we went to watch the dolphin show. The dolphins were amazing. They jumped high and out of the water and then jumped back in and they even said 'hello' with their tails, they were so funny! Then, we rode on the cable car. The view of the sea was breathtaking!

After that, our stomachs were rumbling! We bought hot dogs and drinks at a food store. Suddenly, some drops of water fell on my shoulder. It started to rain! Immediately, we took out our umbrellas and went under the shelter. Soon, the rain stopped. The sun came back with a bright shine. Finally, we took the MTR home.

It was an enjoyable and meaningful day because I learnt more about animals.

A decorative border of green leaves surrounds the text. The leaves are in various shades of green, from light lime to dark forest green, and are arranged in a dense, overlapping pattern along the top, bottom, and sides of the page.

My Summer Holiday

During the summer holiday, I played soccer, badminton and swimming, even though there is COVID-19. I played soccer once a week, badminton twice a week, and swimming three times a week, and I just started learning backstroke. I also watched the Olympics on TV, and I played a game about the Olympics with my friends.

My family and I also went to Legoland Discovery Centre. We watched a 4D film and learned how to make an ice-lolly with Lego. We also went to Discovery Bay. There was a place called Epicland where we could play for 4 hours. There was an airtrek station where we needed to walk on ropes. There was also a mini golf station. I was extremely excited because this was my first time playing golf!

After that, we went to the Discovery Bay Beach. There was a park on the beach. I think it's fun to have a park on a beach. We are planning to go to Discovery Bay again with my friends.

My mom, brother and I also went to Vermcity, which is a place where you can learn rock-climbing, or just for fun. It has loads of climbing walls where we could climb on. We were amazed when we saw the climbing walls because there were so many different types of rock-climbing walls. My family are planning to go there again because Mom and Dad want to climb again.

I think this summer holiday is unique because in my earlier summer holidays, we always went on vacation. However, this year, there is COVID-19, and we can't go on vacation, so we stayed in Hong Kong, but we still had lots of fun. I hope COVID-19 will go away soon, so if we want to go on a vacation, we need to prevent ourselves from getting COVID-19 and maintain good hygiene.

My Summer Holiday

During the summer holiday, I did one amazing thing. That is I went on a staycation in a 5-stars hotel with my aunt and her friends.

On that day, we first went to our hotel room and settled down all the things. Then we went swimming in a nice pool. My aunt and her friends didn't know how to swim properly. Therefore, I became their coach and taught them how to improve their swimming skills.

After that, we went to have our dinner in a well-decorated restaurant. We had a lot of seafood which I like most. They were all delicious. Afterwards, we went to our room to chat and say funny jokes. There was a lot of laughter.

In the next morning, we had our buffet breakfast. There were different kinds of food, and I couldn't even count how many there were. At last, we went to check-out and left the beautiful hotel.

I am very happy this summer. I am thankful to all the uncles and aunties for looking after and playing with me. I hope I can go on a staycation again in the near future.

Fantastic Day in Summer Holiday

Yesterday was my birthday, I had two best friends to celebrate with me. We went to Ocean Park and played all day long.

We arrived at Ocean Park at half past nine, but we couldn't play yet, we joined a program called "Voyagers" in the morning. We learned about the sea. There are the Sunlight zone and the Abyssal zone etc. We also learned about dolphins. We fed them with fish and I could touch them. This was a fantastic experience!

We had our lunch in Ocean Park. We went to a restaurant that I like so much, because I could watch the penguins in the restaurant! I love penguins very much! We played some exciting games after lunch like roller coasters. I tried two roller coasters, they were not scary but fun. When I was playing on the roller coasters, I didn't scream. I was laughing but I didn't know why I was laughing.

I am so thankful to my best friends for celebrating this special day with me.

My expectation in P.5

In P.5, I hope I can learn a lot about Chinese history. That is because I love Chinese history and I am interested in how the ancient people rode horses to fight in a battle.

Next, I hope I can read more difficult books so that I can read more things and learn more Chinese and English vocabulary. I also want to learn better math skills.

After that, I hope I will be able to learn a new sport, to be specific, ice-hockey. I have watched this sport in a square before and on TV too. After having watched it, I thought this sport must be very interesting, the reason is that I love skating and I never try this sport before.

Furthermore, I hope Covid-19 will be over, then I do not need to wear a mask all the time and I and my family can travel again.

At last, I hope I can have an unforgettable memory and hope that everything I wish for will come true in P.5.

My Summer Holiday

Last Friday, my mum, dad and I went to Tai O. We went there because I hadn't gone there before and it was a famous place shown on a TV program.

In the morning, we got on bus no. E22A. It took us one hour to reach Tung Chung. When the bus arrived at Lam Tin, it rained heavily. After we had arrived at Tung Chung, we had to change to another bus, no. 11, to Tai O. It also took us one hour. It was a long journey for me! Finally, we arrived at Tai O. It was sunny. We were very lucky!

First, we went to a restaurant to have lunch. Then, we went hiking on a hill called Fu Shan. I saw a bridge that connects Hong Kong, Zhuhai and Macau together. Next, we went to watch dolphins on a boat but unluckily, we couldn't see any of them. After that, we visited the village built on the water surface of the sea and bought a pufferfish keychain and shrimp paste, which is a famous sauce sold at Tai O.

At last, we came back at 5:30pm. I felt tired but happy. I want to visit Tai O again because it is amazing to visit the traditional town on the water.
