How to kill someone

I have a lot of different, extraordinary ways to, well, kill someone.

Number 1, Neck snap.

It's easy to do, you just need to go behind someone.

Number 2, Firearms.

The simplest to pull off. Just acquire a gun or two and pull the trigger.

Number 3, Explosives.

Basically, the larger the explosion the better, watch out for radioactive fallout though.

Number 4, Neurotoxins.

The evilest of the bunch, it slowly kills your braincells, then kills you. It's harder to control though.

Number 5, Time.

It's inevitable to all of us.

However, the most painful death of all...

is a **broken heart.**

A terrible Chinese New Year

I had a terrible start of the 2022 Chinese New Year.

On the first day of Chinese New Year, my family went to Grandma's home. I randomly picked something from the candy box and just put it into my mouth and ate. Suddenly, I realized that it was a peanut. I had forgotten that I couldn't eat peanut because of the allergy. After a few minutes, I felt itchy. Then my mother brought me to the hospital and I had to take the medicine.

On the next day, we went to my Grandpa's home. My grandpa bought some flowers. I put my head near them. Suddenly, a bee stung me! My mother used some water to help me clean the wound.

Hope all my bad luck had gone.

2022 Winter Olympic

The 2022 Winter Olympic started during our Zoom lesson period. It was held in China, Beijing.

There are seven sports, fifteen disciplines and a hundred and nine events. The seven sports included skating, ice hockey, curling, luge, bobsleigh, skiing and biathlon. Curling is my favourite.

Besides, the mascot of the Beijing Winter Olympics was interesting. It was called Bing Duen Duen. It was a panda wearing an ice helmet. There was a heart in its hand which symbolized welcome. Additionally, the emblem of this Olympics was very creative too. It was inspired by the Chinese character called Winter and was presented in calligraphy. The colour of the emblem is blue which represented the winter sports.

All the performances were amazing and fantastic because the athletes had always practiced hard in order to make a breakthrough. Although the journey was hard and exhausting, they had never given up their dreams. This is the spirit of Olympics.

Pre S1 Practice

After our final examination. We were preparing the long-awaited Pre S1.

Suddenly someone threw a paper airplane and mayhem ensued.

I played Rubik cubes as usual, but I didn't recognize what happened. As the Pre S1 listening practice was about ice-cream, I felt hungry suddenly. I thought about ice-cream and couldn't concentrate on the listening task.

I decided to go outside and buy an ice cream. Just as I went back someone screamed and ran across the classroom. He screamed, "I Love Ice cream, especially milk flavour and tea flavor!"

I decided to end things and punched the guy that was running around the classroom.

He punched me back but I made him fall asleep. At that time, The vice captain of prefects said to me, "NO hurting people!"

So I made him run away by peeing on him. Mr WWWWWUUUUU said things happened and he stopped it from getting worse.

Just when things couldn't get worse, that guy woke up and shot at us, we ran away and they guy. Suddenly, I've realized that the Army arrived.

The Pre-S1 practice is just as horrible as this nightmare.

The Last Lesson

This is my last year in the primary school and today I had my last English lesson in the primary school. And I am writing the last piece of journal at school now. Looking around the classroom, although all of us look excited to go to college, to write a new chapter of our life. We are very sad for being separated from others. At this moment, Jayden and Man Yin are playing with the Rubik cube. They have been playing it since P.1. I really wanted to try it but I don't have time. Macy and Kiki are chatting about daily life and studying. All of them are my classmates and friends.

These things will not happen again. We will be attending different colleges at the same moment next year. I am going to attend a boys' college. And I won't see this moment again.

We are living in an ever-changing world.
