### **A wonderful summer holiday**

Yesterday, my dad and I went to a fishing raft with my friends Venus, Sam, Chloe and their parents. It was the first time I went fishing so I felt excited. I woke up in the early morning. We met my friends at the pier and took a boat to the fishing raft.

When we arrived, we started to fish and Uncle Donald taught me to put some flour on the hooks to be the bait for fish. I continued fishing. Suddenly, I got a fish. "Well done! You hooked!" Uncle Donald said. So I felt extremely happy. After I got the fish, he taught me to use the clip to hold this fish and remove the hook. Then, we ate lunch on the fishing raft, eating in the sea is fun. After lunch, I put down the fishing rod and we all took a small boat and went to a nearby beach but Uncle Donald stayed behind to take care of our belongings.

When we arrived at the beach, we played in the sea. I felt unhappy because there was a lot of rubbish in the sea and we found a stick. We played digital ball games there. After playing awhile at the beach, we went back to the raft to fish. We still got small fishes but I wanted to get big ones, so Uncle Donald taught me to use small shrimps instead of flour for bait and we fished again. Unluckily, I did not get any big fish.

Then we all went back to Sai Kung and chatted. At last, we ate dinner together. I felt happy but exhausted. I wish I can go one more time and catch more fish next time.

### **Taishi's birthday party**

Taishi was a small teddy bear. On the twenty-third of July, it was its birthday. Its birthday party was held at night. My elder sister, my mother, my father and I joined the party. And the party needed to be held at night because all of us were busy in the morning and afternoon.

On the day before the party, I made some party hats and I even made a tiny party hat for Taishi. Also, I made some party flags. I wrote "HAPPY BIRTHDAY TO TAISHI". Then, I made some birthday cards. It stated:

Taishi's Birthday Party  
Date: 23<sup>rd</sup> July (Friday)  
Time: 9:00 p.m.  
Place: our home

I also made Taishi a birthday present. It was a jacket. The main colours were gold, brown, pink, white and black. And I wrote 'Taishi' at the back of the jacket. Finally, I prepared everything. I hanged the party flags on the window, put the party hats on the table and hid my birthday present for Taishi.

At night, the party started. My mother bought a cake. It looked delicious. It's time to cut the cake. But before that, we needed to make Taishi make a wish and we put one candle because Taishi was turning one.

After Taishi made a wish, he blew out the candle. We ate the cake. Because it was already late, so we needed to brush our teeth and go to bed. I felt so happy about this day.

### **My plan for Christmas**

On 25<sup>th</sup> December, people love to celebrate Christmas.

Last Christmas, all primary schoolmates were not allowed to go to school because of the outbreak of Covid-19 in Hong Kong. Our school arranged a "ZOOM" Christmas party for us. We sang songs and played games together. It was interesting and enjoyable.

This year, I wish to have a Christmas buffet with my parents. I tried to invite my grandparents to join us. However, my grandparents do not want to go outside. They always stay at home to avoid being infected. But they are bored.

I have planned to visit them and held a Christmas party at their home. We are going to bring yummy food and a Christmas cake. I am going to draw a Christmas card to them. I see smiles on everyone's face when they heard this great idea. My parents and grandparents are as happy as a clam.

I learned that Christmas is the best holiday of the year to share the happiness with family. I can't wait for this party and I do not know if I can sleep the night before.

**An unforgettable musical**

During the summer holiday, my family and I watched a musical at Hong Kong Cultural Centre. It was the opening programme of International Arts Carnival.

The name of the musical is *Cinematic Memories on Train No.5*. It talks about Robbie's grandmother has been suffering from dementia and is now about to enter heaven. Before finally departing, she asks her cherished grandson to join her on an imaginary rail trip into the past to find out the problems resulting from her illness.

It was unforgettable because the story was touching and the backdrop on the stage with the lighting was amazing. Moreover, the actors and the actresses sang beautifully. The show was wonderful. I enjoyed it very much.

From the story, I have learnt that life is precious because it is short. We have to cherish the ones around us.

### **My Plan for Christmas**

Christmas is in December. It is my favourite festival. Last year I spent the holidays at home. Why? Because the Covid-19 was spreading at that moment, so it was safer for me to stay at home. To be honest, I think it was pretty boring.

But luckily, I am going to have a barbecue with some friends from my church at Christmas this year. We have this plan because it has been a long time since we had an outing. In addition, the virus is now under control in Hong Kong.

My friends and I will go to a camp site in the morning. We will play ball games, do archery and play on the Bouncy Castle. I look forward to playing with my friends. I think all of us will be happy.
