### My School Picnic

Today is 7th November. I have my school picnic with my classmates and teachers. We go to the PLK Jockey Club Pak Tam Chung Holiday Camp. The weather is cloudy and rainy.

My class gets to the picnic site by coach. We arrive there at about nine o'clock in the morning.

I bring a bottle of water, some candy, an octopus card, an umbrella and a jacket with me. I put them in my backpack.

After arriving at the picnic site, I see a big pond, a small playground, a basketball court and a football field. I spend a lot of time on playing indoor and outdoor park facilities with my classmates.

At about twelve o'clock, we start to get back to school. I feel very joyful and exciting. Hopefully, I will have the chance to join the school picnic and visit this picnic site again next year because I have not had enough time to enjoy the nature environment yet.

### My School Picnic

On 7th November, we go for a school picnic. We go to PLK Jokey Club Pak Tam Chung Holiday Camp. I feel excited. It is cloudy and it rains sometimes.

We get to the picnic site by coach. Before we get on the coach, we take a class photo. All classmates are happy! We arrive at the picnic site at about nine o'clock.

The picnic site is so big! Look! There is an indoor playground and an outdoor playground. After we take a group photo, we start eating. I bring candy, biscuits, marshmallows and water with me. Yuchi buys me a can of Fanta. I give him candy and marshmallows. Next, Yuchi, Arcus, Keaton Chan, Ian, Sam Sum and I go to the playground and play Tag. Keaton Chan wins! Then, we play PAC - MAN Air Hockey, badminton, table tennis and rock-climbing. We have a wonderful time!

We go back to school at about one o'clock. I feel thrilled! I want to join the school picnic next year again. School picnic is so fun!

### My School Picnic

I go to my school picnic on 7<sup>th</sup> November. Our class goes to PLK Jockey Club Pak Tam Chung Holiday Camp. The weather is cool and windy. I wear my sunglasses and bring an umbrella with me. My classmates and I are very excited

We get on the coach to the picnic site at eight o'clock in the morning. We arrive at the picnic site at about nine o'clock. I bring many delicious snacks like potato chips, candy, chocolates and biscuits. Also, I bring a bottle of water to drink. I enjoy eating my yummy food with my best friends, Ashley and Elsa. We feel happy. Then we play on the swings, slide and trampoline at the outdoor playground. We take some lovely photos there, too.

We get back to school at about one o'clock in the afternoon. I feel very happy because I can play with my best friends and I have some yummy food at the school picnic. I really want to join the school picnic next year because I want to play with my best friends at the picnic site again.

### My School Picnic

Our school picnic is on 7 November, 22. This is my first P.3 school picnic. The location is PLK Jockey Club Pak Chung Holiday Camp. The weather is cloudy and it sometimes rains.

We gather at the school playground at 8:00 in the morning. All the students are excited. Then, we get on the tour bus. It is very big and the seats are comfortable. We arrive at the camp site at around nine o'clock.

After we arrive there, first, we take a short break and have our snacks. After finishing our snacks, we go to the playground to play hide-and-seek. Later, I also go roller-skating. I have not roller-skated for quite a while. It is fun! When I return my roller-skates, I find that I have lost my student card. I search everywhere but I cannot find it. I feel disappointed.

We leave the camp at about one o'clock. We all feel tired but with lots of fun. I am looking forward to visiting the Science Museum on 15 November, 22. I wish I will not lose my things this time.

### My School Picnic

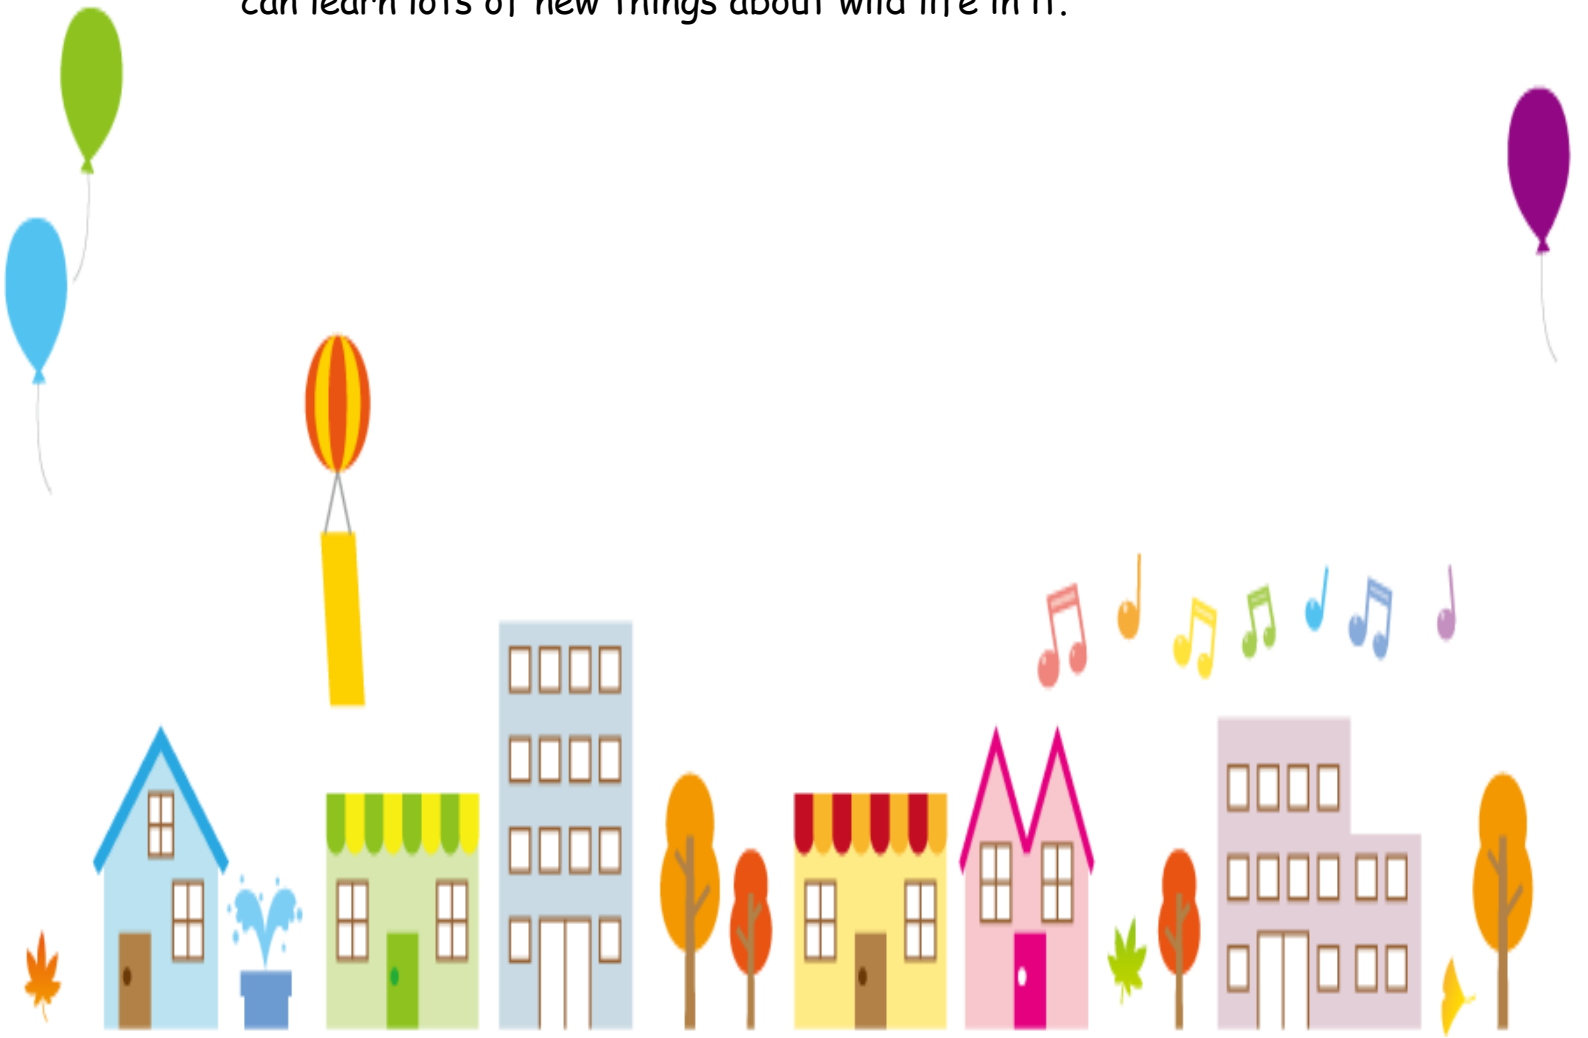

Today is 7<sup>th</sup> November. It is the school picnic day. It is cloudy. I go to school with my friends. We are going to PLK Jockey Club Pak Jam Chung Holiday Camp.

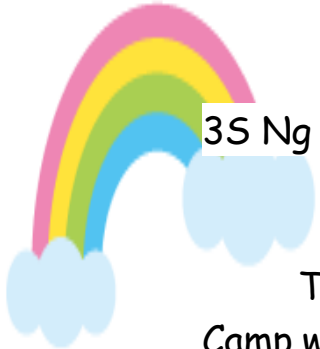

We arrive at the camp at about nine o'clock. We get there by coach. Everybody is feeling excited.

I bring some snacks, water, an umbrella and a jacket with me. My best friend, Charlotte, gives me some candy. We see a lot of trees, flowers, insects, and birds there. We also play in the playground, go roller-skating and play in the bouncy castle together. While we are playing happily, suddenly, it started to rain. We have to run for cover. After a short while, the rain stops. Soon, we have to leave the camp site and go back to school. I feel very tired and sleepy.

I have learnt that we must not throw rubbish on the grass, line up to play and play safely.

I want to join the school picnic again next year because we can learn lots of new things about wild life in it.

### My School Picnic

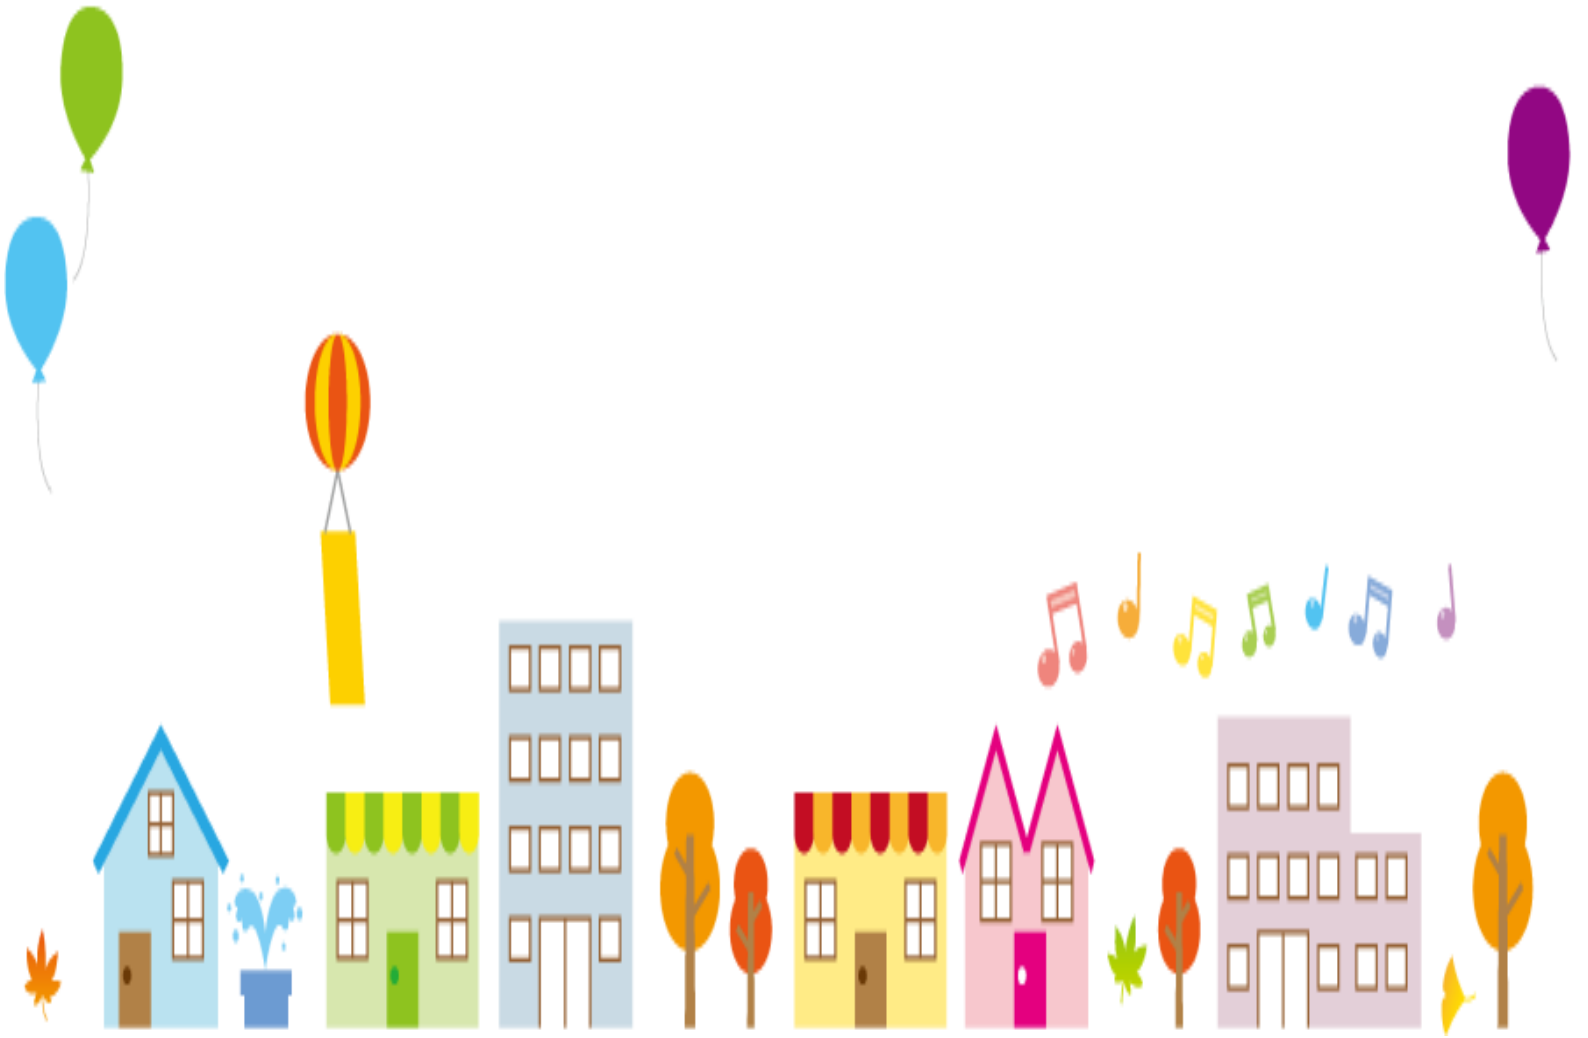

Today, I go to PLK Jockey Club Pak Tam Chung Holiday Camp with my class. We get there by coach. It is hot and sunny.

When we arrive at the camp site, first, we go to the small garden and take out our food to eat. I exchange some food with my classmates.

Next, we go to the playground nearby. We play tag there. We also play on the huge swing. It is fun!

After that, we go indoors. There is a giant room with lots of mini arcade games, a small treehouse and even a bouncy castle! The treehouse is bit mysterious so I go up the ladder and climb inside it. Then, I sit down in the small space and rest. After a while, I play an arcade game. It was fun blasting the pucks around.

I think the holiday camp is a wonderful place. I would like to visit it again!

### A Visit to the Inno Tech Expo

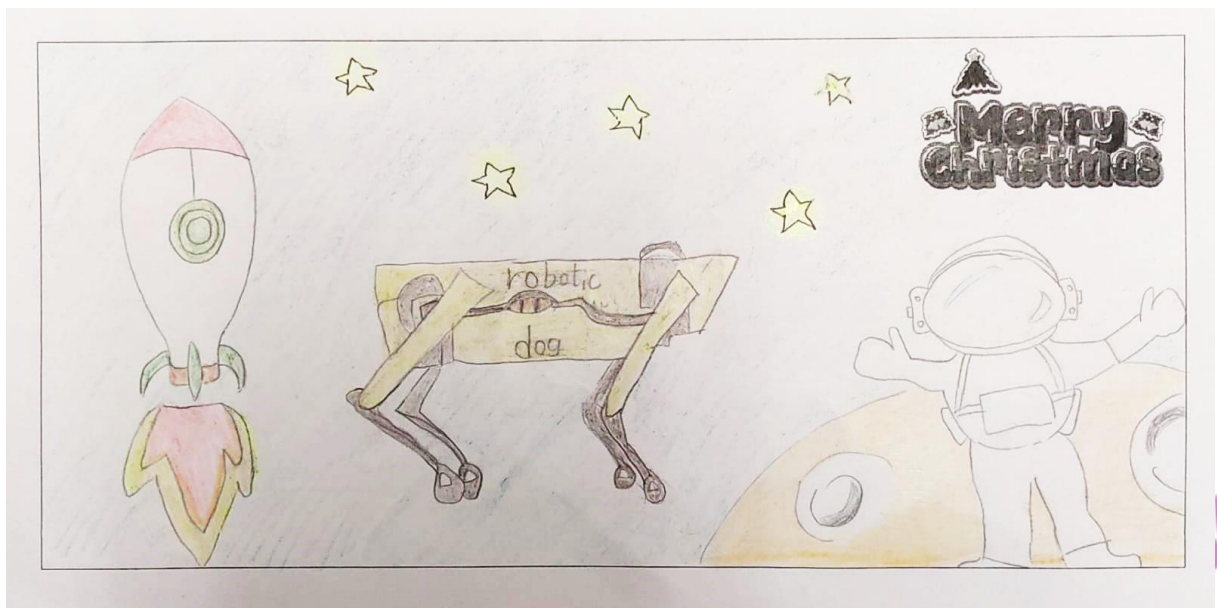

On 22<sup>nd</sup> December, my family and I went to 2022 Inno Tech Expo. We went there by MTR.

When we arrived there, first, we went through the tunnel with blinking light. Then, we saw the China Aerospace Science and Technology exhibition. A crowd of people gathered to see the valuable that sand from the moon named Chang'e stone. After that, we saw BeiDou Satellites system. It is so amazing! There was an Astronaut's spacesuit, too. It's so cool!

Do you want to know what I like the most in this expo? I like the robotic dog the most! It can wave its tail and walk smoothly. It is really adorable!

That day, we went home by taking a ferry and a bus. I feel tired but glad.

It is the second time I have visited the Expo. I have learnt that there are lots of scientists paying their hard efforts to improve human's life. I hope I can contribute mine in the future.

### **My Volunteering Experience- Selling flags**

On Boxing Day, which is the 26th of December, I decided to sell some flags with my mum. We were standing outside Tseung Kwan O MTR station with a huge bag and a book of stickers. I was quite pretty scared because it was the first time for me to sell flags instead of buying them. I approached every single person who walked by to ask them for donation and I gave them stickers in return.

I was busy selling flags when I realized the bag was getting heavy. Then, I saw that I had sold most of the flags in just an hour.

I want to sell flags again because it is meaningful to raise money for the non-governmental organizations to buy food or necessities for the people who need them. I also learn that most people in Hong Kong are friendly and helpful.

## My Christmas

On the Christmas Eve, my family and I take a walk in a beautiful park. When we are taking a stroll and enjoying the beautiful scenery, a woman walks to us. She looks very puzzled and lost. "Where is the library? I have been looking for it for an hour!" she asks. "I know where the library is!" I reply. We then show the woman the route to the library

At last, the woman finds the library with our help. She is so grateful that she offers me some Santa stickers.

I have learnt that we can help others in small ways. Helping others doesn't always mean giving money. There are simple things we can do to help others. I am glad that I have done something meaningful this Christmas!
