An unlucky day

It was a Friday morning. I woke up late. I rushed to the bathroom to brush my teeth but I ran out of toothpaste. Therefore, I just rinsed my mouth. I had to skip breakfast. I put on my uniform, grabbed my schoolbag and dashed to the MTR station.

Sadly, I missed the train and so I ran all the way back to school. By the time I arrived at school, the flag raising ceremony was over. I ran up to my class and 27 pairs of eyes stared at me. I went back to my seat. Crash! Wham! I fell down with a loud thud. One of the legs of my chair had come off. The whole class laughed at me.

On my way home after school, I was managed to escape from it. When I got home I was hungry, but there was no food left in the fridge. 'What an unlucky day, isn't it?' I grumbled to myself.

English Day Camp

Today I felt thrilled today. I learnt how to stay positive. I also learnt lots of words like determination and optimism. The game I liked the most was "B4 A Flight Over Obstacles".

To play this game, we were divided into two teams. The group leaders picked one of our teammates to fly the drone. We had to make sure the drone to fly over the obstacles to answer the question right so that a point could be added to our team. However, when the player answered the question wrongly, the team will lose a point. The team with the highest marks won.

At last, our team won. I hope I can join another English Day Camp next year.

My Favourite Hobby

My favourite hobby is playing "Doors". It is created by Lightning Splash. In the game, you have to go through a hundred doors and then escape from the building. However, the game is a horror game, filled with lots of monsters, the most important ones are called Figure, Seek, Rush, Eyes, Ambush.

This creepy horror game always makes me jump. When I play the very exciting part of the game, called the Seek Chase, I always can't get past the obstacles and get jump scared and lose. However, I always practise playing the game, I got better and better. Maybe I will win the game soon!

I have learned that if you never give up, you will succeed. So, if you have some goals, keep on trying. Nothing is impossible!

A wonderful Holiday

Yesterday was my birthday, so I had a birthday party on the sixth of May.

I invited lots of friends to my party. My parents decorated my home with some balloons and tinsel. I was excited because I would play video games and football cards with my friends.

After a while, they rang the doorbell and went in! I was joyful and ran towards them. First, we took photos and cut the tasty mango-crunchy cake. My friends were hungry so they ate the cake quickly.

Then, we played video games called "Roblox Bedwars" and "Roblox Restaurant Tycoon 2". We were all very involved in the games!

Last, it was time to say goodbye to my friends reluctantly and went to bed. My party was finished satisfactorily. What a wonderful day!

A wonderful Holiday

On Christmas Eve, I woke up early to decorate the living room to surprise my family.

First, I took the Christmas tree from my closet. Then I decorated it with colourful ornaments.

After that, my family woke up and they were in shock. Then, my dad said, "Do you want to decorate the Christmas tree and buy your Christmas gifts?" Then all of us jumped high in the air and said, "Yes!"

We went to Walmart. When we were there, I ran fast to the Kids Section. I picked up some beautiful gifts for my brother and friends. We also went to the supermarket to buy food for dinner like turkey, cucumber and tomatoes. When dinner was ready, we enjoyed the delicious food. My dad surprised us with a Christmas cake. We took some pictures of it. It was also so yummy. We had a great time!

English Day Camp

On 7th July, I felt extremely happy after that day. I learnt so many new words and phrases like "but also", "as a result" and "thus". These activities make me get over sadness. For the game "Get Over It", we had to work together, to gain more trust with each other, in a way to learn leadership.

My favorite game was "Escape To Happiness" because I could solve some riddles with clues. The video was funny. The hardest game was "A Flight Over Obstacles" because the questions were challenging and I barely knew how to answer them.

Joining these activities with my classmates and teachers at the secondary school was really a brand-new experience for me. I hope I can join another English Day Camp next year.
