Prefect

In primary 3, I applied to be a prefect because this was my dream. I went to the seventh floor to have an interview by the teachers, finally I knew that I was selected to be a prefect on the 1st September this year, that was the first day I am turning to be a Primary 4 student, my dream came true. At the same time, I am a class monitor in class 4D too. I was so happy and I told my mother about the good news, she was joyful too!

I have duties on every Tuesday's recess from 10:00 a.m. to 10:20 a.m. with my partner. I will stand guard on the second floor when I am on duty. Sometimes, I saw some funny things when I am on duty, like someone threw rubbish on the floor.

In order to be a good prefect, I have to be punctual and show up for the duty every Tuesday. I will help someone who need my help and assist teachers too.

I feel joyful that I am a prefect and a monitor, how do you feel if you are a prefect and a monitor? I hope I can be a prefect and a monitor again!

A Day to Disneyland

I went to Disneyland yesterday! We only went for fun like we do every month, we have an annual pass so that we can go as many times as we want. Mom, my sister Olivia and I went on Dad's car and he drove us to Disneyland.

Riding on Space Mountain is my favourite thing to do. It is now called Hyperspace Mountain! The Hyperspace Mountain is an indoor roller coaster, there are some narrations and special effects during the ride. The ride is very fast, it only takes a minute for us to climb up the mountain and drop in a very high speed.

For the 3D show. It is very funny. It is in the theatre near the castle. The effect is very real, almost like I can touched Donald Duck.

My sister, Olivia and I got on my dad's car. I was very tired and I was fast asleep. It was an unforgettable day.

My Summer Holiday

Last summer holiday, I went on a staycation with my parents. On that day, I woke up at nine in the morning. We packed all luggage together.

We arrived at the hotel in Shatin at noon. Then, we went to a restaurant to have hotpot. There was a lot of food, such as beef, fish, bowls, and sausages. It was yummy. I ate a cup of ice cream. It was delicious!

After that, we went to the Ocean Park by MTR. We took photos with the sharks at the aquarium. They were so big and cute! Next, we went to the Ocean Park Theatre to watch the dolphin show. It was amazing! Then we took the cable car. We played the roller coaster. It was exciting. In the end, we were very tired. Therefore, we went back to the hotel by a taxi.

At night, I played ball games with my dad in the hotel room. We watched TV together too. We felt happy and relaxed. The next morning, we had breakfast at the restaurant. The food tasted good. Finally, we went home by bus.

It was an unforgettable trip! Although it was short, I enjoyed the time with my parents a lot. I love my family!

A Visit to the Special Exhibition

Today, I went to the Hong Kong science museum with my family to watch "The Big Eight Dinosaur Revelation". When I entered the exhibition area, I saw a giant Diplodocus. It was big and long with long tail.

There are all kinds of dinosaurs, including Tyrannosaurus, Rex, Spinosaurus, Triceratops, Hatzegopteryx, Diplodocus, Sauropod, Hesperisaurus and Allosaurus. They have different shapes and sizes. I saw the Spinosaurus, he was big. And his name was Mister Big. He was 15 metres long and it was 14 tons. His tail was similar to the newts and crocodiles, which didn't look like any other dinosaurs' tails. It looked more like an eel. But I didn't know why. I learnt that Triceratops is one of the species that witnessed the end of the dinosaurs.
