I would like to recommend the book Danny's diary, which is written by John Escott. In this book, my favorite character is Great Aunt Daisy. I love this character so much because she did not get cross when Danny did something wrong. I also love Danny because he is funny. This book made me feel happy and surprised.

A decorative border of green leaves and branches runs vertically along both the left and right sides of the page. The leaves are in various shades of green, from light to dark, and are arranged in a natural, flowing pattern.

I would like to recommend the book *In the Garden*, which is written by Roderick Hunt. I love reading this story so much. I like this book because it is interesting and funny. It also has a happy ending. The most interesting part of the story is that the main character Kipper went into Chip's room. He picked up the magic key and the key began to glow. The children in the room got smaller and smaller. This book made me feel happy and surprised.

I would like to recommend the book *The Quest*, which is written by Roderick Hunt. I love reading this book because it has a happy ending. It is also very colourful and funny. The most interesting part in the story is that the main character Wilma put a mirror near a basilisk and the basilisk turned into a stone. On the other hand, when another main character Wilma put a peeled lemon near the dragon, the dragon ran away very quickly. It was so funny. This book really made me feel very happy and I give this book 5 stars.
