### **My School Days**

My behavior in P.6 so far has been pretty good. I have to admit that I'm still lazy but I can behave well as long as Sky and Ryan don't tease or annoy me too much. If they do so, I would go bananas. My grades have noticeably improved, but I still failed to get an award simply because I choked (couldn't get enough marks) in Chinese. Also, due to Miss Sing's star system, I am more eager to answer questions, in English lessons at least.

I really haven't joined many new activities, the only new one I join is Campus TV. So, recording and camera stuff are the new things I have learnt. But I have signed up for activities I joined and enjoyed before, like the flag-raising team, choir and the string orchestra. I don't have anything else that's new I want to try out this year, but my goal in P.6 is to get an award, since as I mentioned, I failed to do so in the Mid-Term exam. I think I've known enough about my classmates. In addition, I've got enough friends already.

"It is better to look ahead and prepare, than to look back and regret." It's a useful quote for me because sometimes when I fail doing something and feel bad for it, something bad else will happen consequently.

### **My School days**

I have already been a P.6 student for two months. Comparing to P.1 to P.5, I have learnt how to use my time properly, but not to do something in a rush nor wrong. I have also challenged myself to be a monitress. When I was in P.2, I thought that I didn't have the ability to undertake such important responsibility. But now, I always like to try something new.

I have learnt piano since K3. I hope that I can reach the level of grade eight. I want to play more melodious songs too because the songs make me happy and relaxed. Another goal I hope to reach is to improve my Chinese and English writing.

In additional, I was very scared of Mathematics because it was my weakest subject before. But I know that "practice makes perfect", so I practise a lot. I get full marks in the recent exam and I believe more in this quote. Therefore, I always remind myself about this quote. I hope that I can have a substantial and a happy life in the last year in primary school.

### **My School Days**

It has been two months since the new school year started. I am now in Primary Six, the last school year. Comparing to Primary one to five, I have to work harder because Primary six is the most difficult among all of the school years.

This year, I join the school table tennis team. It is super fun! We have to play table tennis every Saturday at eleven o'clock. Besides table tennis, I learn skateboarding, too! I built my skateboard a week ago and I tried it four days ago! Skateboarding is one of the best sports I have ever played! But unfortunately, I fell down and my leg was a bit hurt. Well, at least I enjoy it!

After talking about playing, I have to talk about my goals in Primary six! My first goal is that I can improve my Maths and get at least seventy marks in exams. Then, the second goal is that I can get higher than eighty marks in the Chinese exams. At last, the third goal is to get higher than ninety marks in the English exams. These are all my goals in Primary six!

I found a quote that is useful for me. It is 'Believing in yourself is the first secret to success.' I really like this quote because I think it is right. I have to believe in myself!

**A reflection after two months in Primary 6**

Comparing to P.1 - P.5, I have built up my confidence this year. In P.1, I was frightened to do Show and Tell. I felt like I was going to cry in front of the class. But now, I don't feel frightened about it.

I've learnt a lot of new vocab, knowledge and also how to do some difficult questions. I want to know more about Marine. We practise the flute together in the school Orchestra. One incident happened before when we were using a classroom to practice. I chose a seat and she wanted it too, but I refused. I went away from my seat and wanted to help her find a seat. She put my bag to another seat and she sat on the seat that I chose. I'm still confused why she took my seat?

I want to get ninety marks in English because it's challenging for me and I like to challenge myself. I am learning flute and piano. I want to try the violin because the sound is great.

"Live as if you were to die tomorrow. Learn as if you were to live forever." This quote is useful. It is because it always reminds me to work harder than ever.
