

Graduation Camp

Last Wednesday, it was our first and only graduation camp in our school. It was the first graduation camp since 2017 because of the pandemic.

It has an hour-long drive from our school to the camp and the camp was disabled friendly which meant it was made for disabled people to stay there.

When we arrived there, we had to work two minutes uphill until we arrived to the disabled camp. The staff greeted our arrived and gave us our room key so that we could store our baggage in the rooms. Not long after, we had our dinner which was horrible since we found dead insects in the food! Yuck! But the teachers seemed to enjoy the food.

We went back to our room after dinner some of us stayed in the room and the other went out to play. I stayed in the room and waited for the others to arrive when suddenly one of my roommates had an idea to prank the other people. After forty-five minutes, they've finally run the bell. He opened the door slowly and then we all screamed to scare them and we even planned a surprise attack from the ceiling and it actually worked.

After that, we went to take a shower and then we played some card games but we got too addicted to play that we got a noise complaint and we went to sleep but later on I got woke up by one of my roommates because he couldn't sleep. At that time it was midnight and I was tired so I just ignored him and went back to sleep.

The next day, I woke up at six o'clock in the morning since I didn't sleep well last night. After that I went to the cafeteria and we ate breakfast which was surprisingly appetizing.

Next we went back to our rooms and tidied our room tidily, the teachers had to come check our rooms to see did we clean and tidy the room. Next we went to the hall to be assigned groups, we were assigned to group 3 and we went to rock climbing class. The teacher taught us how to wear rock climbing gear and taught us the basics of rock climbing, I was at the front of the me so I got to experience it first, at first I got a little bit nervous. But later I gathered enough courage to climb up to the top and surely enough after two minutes, I've climbed up to the top.

Later on, we had a much interesting game called wheelchair, basketball when we had to sit on wheelchairs and put balls to the opposing player's hoop and the purpose of the game is to let us experience on what it's like to be disabled.

The last game was called dodge ball which the opposing team would throw balls around in attempt to eliminate the other team, we all really enjoyed the activities.

Later on, we had our free time until dinner which all of us went to the hall which all of us played badminton and we were very happy playing it. And not long after it was dinner time. We enjoyed our meal and went back to our rooms.

Since this was the last day of our camp, the teachers let us go the other people's room to play. But I operate to stay in our room because I was scared that the teacher would come in to their room and yell at them and me.

After two hours the people went back to our room and we played until it was midnight, and after then we felt, so exhausted that we all went to sleep and was excited about term work.

This was the last day of our camp and we were all very sad. The teacher demanded that we should pack our bags immediately incase if their plans change. We went to the cafeteria and activities and both are about the same topic "Teamwork".

The first game was called number punch which meant that we needed to punch numbers on floor which wasn't that easy as you thought, there were 5 rules which were you had to punch the numbers correctly in order, you couldn't speak, you needed to do it within 30 seconds, you had 6 attempts and that you couldn't touch the button twice, we discussed our strategies quickly.

We went in the room which was scattered with numbers one to thirty. Not long after someone abruptly. You out where were two? And we got and after all day attempts we all furred. But we still kept a positive attitude.

And we finally went to the last event of this graduation camp. Eco System which hilariously wasn't about the eco system at all.

And after two long days we finally finished our graduation camps and we were all sad to leave and I hope we can go to another graduation camp when we graduate in secondary school.

Graduation Camp

26th April, 23 to 28th April, 23 was my graduation camp. During the three days and two nights of the camp, we all did a lot of things and played a lot of activities. And what impressed me the most was playing a game called rock climbing, because I personally have some fear of heights, but I also insisted on climbing to the highest, and finally I succeeded.

In addition, what also makes me unforgettable is the moment of getting along with everyone. A graduation camp is not much for without the company of teachers and friends. What I remember most was lying in bed at night, talking with my roommates all night.

Scenes and fragments of the graduation camp experience are still wrapped in my mind. The hearty laughter of the classmates is still echoing in my mind. I believe that I will never forget the only graduation camp primary school!

My Education Camp

On 26th April, 2023 to 28th April, 2023 I had a school education camp. It was an experience I had never had before.

Before the camp, my mother and I were preparing the things I was going to need for the camp. Things such as an alarm clock, changing clothes, showering items, and money. Then on the first day of the camp I went to school with packed things, waited for the camp bus and then got on it.

Shortly thereafter we arrived at the camp. It was exhilarating! There was a huge assembly hall for playing badminton in on the ground floor. Outside there also was a basketball court. We went to our rooms to tidy up our luggage. After that we assembled in the assembly hall to play fun activities. After playing the activities, we explored the camp. The first floor has rooms for playing sports. We then ate dinner in the cafeteria. The food was fine and we went back to our rooms to take a shower and sleep.

The next day was most exciting! We got to go rock climbing, play dodge ball but with a frisbee, and catch on wheelchairs. It made us realize just how people with disabilities felt. We also got to play pool, basketball and table tennis. And at night we sang and expressed our feeling for these unforgettable memories over the six years of school in the hall. In our rooms we had a lot of fun playing games, making jokes and mostly, just chatting with each other.

Finally, on the last day, we packed up our things and did a few more activities. Then it was time to leave. We said our farewells and left. This will be an intangible memory that is never going to be forgotten.

Graduation Camp

Last week, we had the Graduation Camp. It was an unforgettable memory, I had a lot of fun when I was in the Graduation Camp.

On the first day, we arrived the camp and put our luggage in our room. Then, we did some teamwork games. It was interesting and entertaining. We took a rest and went out to eat. The food was not bad but we ate a little only. At night we can't sleep. So we played poker.

On the next day, we brush our teeth and eat. The breakfast was very good! I think it was delicious! We then tidy up our bedroom and we went out to eat. The food was not bad but we ate a little only. At night we can't sleep. So, we played poker.

On the next day, we brush our teeth and eat. The breakfast was very good! I think it was delicious! We then tidy up our bedroom and we went to play some activities. We climbed the rocks. It was very exciting. It's scary to look down we were rock climbing. I managed to climb to the top. Then we played the dodge bee. It's like dodgeball but with a frisbee. Later, we ate lunch. It was tasty! After eating lunch, we had 4 hours of free time. First I went to play basketball, I played two hours. Me and my friends have a little match. My team won and all of us had fun! Then, I went to play table tennis. I practiced a while because I didn't play table tennis for a long time. After that, I played with my friends. We had a small competition and I came second. I was proud of myself. We ate dinner afterword and we had a farewell party. We sang our song that we practice before and the teachers gave us some encouraging words. They were touching! Then we went back to our own room, played poker and slept.

The third day, we ate breakfast and tidy our bed. We played a teamwork game called Number Punch. It's a game that we have six tries and think strategies to punch thirty numbers in order in thirty seconds. It was challenging but our team managed to complete this challenge. We ate lunch and it's time to leave the camp.

In conclusion, I love this Graduation Camp. When I grew up, I still won't forget this memory because I have a lot of fun in here with my friends.

Graduation Camp

I am P.6 and I had a graduation camp, it was long and amazing! And it was probably my best experience in P.6! Me and my friends had a very good time.

On my first day, I was amazed how nice and tidy the camp is. The teachers are nice, the decorations are beautiful and the facilities are awesome. The teachers said that each group has room which you will stay in there often. It's night time and my friends and I said "good night!" and slept.

On my next day, it was more fun and exciting. Especially the rock-climbing activity. In the morning, the alarm woke us up peacefully. Then, we had breakfast and we had enjoyed of food! Such as chicken nuggets, spaghetti and cabbage. After that, our group had the rock-climbing activity. At first, the coach told us to put on the seatbelt to prevent injuries. Then, it was playtime! I buckled up, and climbed up nervously. My goal was ringing the bell on top which is 7.2 meters tall to get there. When I was climbing, I saw a rock that is far from me. And that is the only rock that I could use to keep climbing. I didn't know what to do and I almost want to give up. But I didn't, I tried using all my force and try to touch it. And after 30 minutes of frustration, I grabbed it and completed the climb and hit the bell!

On the last day, we packed up our things and said goodbye to our camp. I think that was the most wonderful experience ever in this school.

Graduation Camp

Last week we had a fantastic graduation camp, lasting three days. It took place at the Hong Kong Jockey Club's camp for the disabled.

The first day we settled down. The hall ways have a hotel feel and the rooms had bunk beds. I shared a room with Oscar, Zachary and Harris. After that we went to the main hall where we did some games. We then had dinner but then proceed to get scold by Ms. Lo. After dinner is activity time. Mr. To played basketball with some students, Oscar went to play snooker. I played badminton for a while before observing the moon with Zachary. In the end we played some cards with Ms. Ying before finally going to bed.

The next day starts at 4:00 am when funny person named Harris decided to wake us up. And then we basically waited 1 hour after brushing our teeth we had breakfast. It was the only good meal we had there. We then went rock climbing under the supervision of the instruction the wall was 8 meters tall. Some people speed ray it while some took their time. A girl used a whopping 5 minutes just to climb it. I speed ran it, using 59 seconds. The fastest time belonged to Tim, using 39 seconds. We then had a taste of being a disabled person by playing wheelchair ball. Then we had lunch which could be described in one word. REVOLTING. There was way to stuff to eat, there was bitter melon, a backload of choi sum, I tried eating barbecue pork but somehow after taking a bite there were teeth marks. After lunch we played dodge frisbee!

Dodge frisbee is dodgeball but funny. Basically, one team stands in the zone and one throws the frisbee at them. We had Jay, Arnold, Devin, Marcus etc. on our team. So some evasive maneuvers and yeeting later we won. Then the coaches challenged us. They a lost chat even close. Then I played basketball the whole afternoon activity time. Finally, dinner then it was the farewell night. We sang and shared some encouraging speeches. After all these years of presenting the teachers presented speechless to us. Then we went sleeping.

Final day

I woke up the whole room 5 am. Ate breakfast played some team games team games. Failed miserably. Number punch we failed at time. The task mission we underestimated ourselves. Finally, me went home.

End

We shall not talk about the shower spider.

Number punch and Transmission were to boring. Also, we played cards with Joy's room and Ms. Ying on night two. Then me proceed to eat cup noddle at 10:30 FUN.
