The best things that happen this year

There are a lot of things that happen this year. Most of them are cheerful things. Below are my most unforgettable memories.

Due to the epidemic, I can have lunch with my classmates at school. Before, I eat very slowly. After I start to eat at school, I eat faster as I want to play with my classmates. Sometimes my mom cooks yummy food for me and my classmates say "wow" after looking at my food.

The Halloween party is in October. We can play trick or treat, and last of all, there is a costume competition too! We are all so excited!

There is also a Wow Science Party. We can invite our parents to join the party in May. There are six kinds of little experiments. There are also a lot of snacks and drinks. After the party, I learn more science knowledge.

After all these things happened, I feel happy and thankful for all the teachers and classmates who have helped me. I really enjoy my Primary 2 life!

The best things that happen this year

Primary 2 is almost over. I enjoy primary 2 very much.

The best thing that happens this year is Wow Science Party. I like it very much because my parents can come to my school to watch me and my classmates do some science tricks. I feel very excited.

Secondly, I am very happy because I become the first in class three times in the English quizzes. I will continue to work hard when I am in Primary 3.

When I am Primary 3, I want to be in the same class with Sean Chu because he likes English too. We can work hard learning English together.

I love my school very much.

The best things that happen this year

Some unforgettable things happened in this year. I improve a lot in Chinese and get 91.5 marks in last exam. I feel very surprised. I will continue to work hard.

I join Let's Jam, Music Class Performance and Wow Science Party this year. These activities let me get very good experiences.

I become the librarian of our class. I learn a lot about the operation of borrowing and returning books. I want Hailey Fong to be in the same class with me next year in Primary 3 because she helps me a lot.

Overall this year, I feel very thankful and joyful because I have two very good class teachers, Miss Sing and Mr. Kwong.

A decorative border of colorful candies surrounds the text. The candies are arranged in a circular pattern around the central text. The colors include orange, yellow, green, blue, purple, pink, and red. Each candy has a unique pattern, such as stripes, polka dots, or solid colors.

The best things that happen this year

Time flies. Primary 2 is almost over. It is an amazing year that I can be in Class 2D.

First, I am very proud of myself that I was assigned to be the monitor in the first term. I had to help teachers collect and distribute exercise books and maintain classroom order. I feel very happy that I can help my teachers. I also feel thankful to Miss Sing and Mr Kwong to give me the chance to be a monitor. I hope I can be the monitor again in Primary 3.

Second, I make many good friends this year. Priscilla, Shaun and Anson are my best friends. We always play games and chat during recess time. When we don't know how to do homework, we will teach each other. We hope we can be in the same class next year.

Primary 2 is a fruitful year to me. I hope I can do better in the coming year.
