### **A Visit to Velodrome Park**

Yesterday I went to Velodrome Park to play with friends. We celebrated Halloween and my friend's birthday. We had a great day!

When we went there, we set up our tent and we prepared food and games. After I ate some food, I went to play with my friends. First, we played hide-and-seek. In the first round, I didn't catch any seekers. But in the second round, I was the second hider who got caught. I played over 100 times and was not caught by seekers, but I lost. What a shame! Next, we played other games. At last, we ate a cake and celebrated my friend's birthday.

This is a wonderful memory. I'm looking forward to playing with my friends again.

### **My Father's birthday celebration**

This Sunday will be my father's birthday, so we decided to go to a place that we can have fun to celebrate his big day.

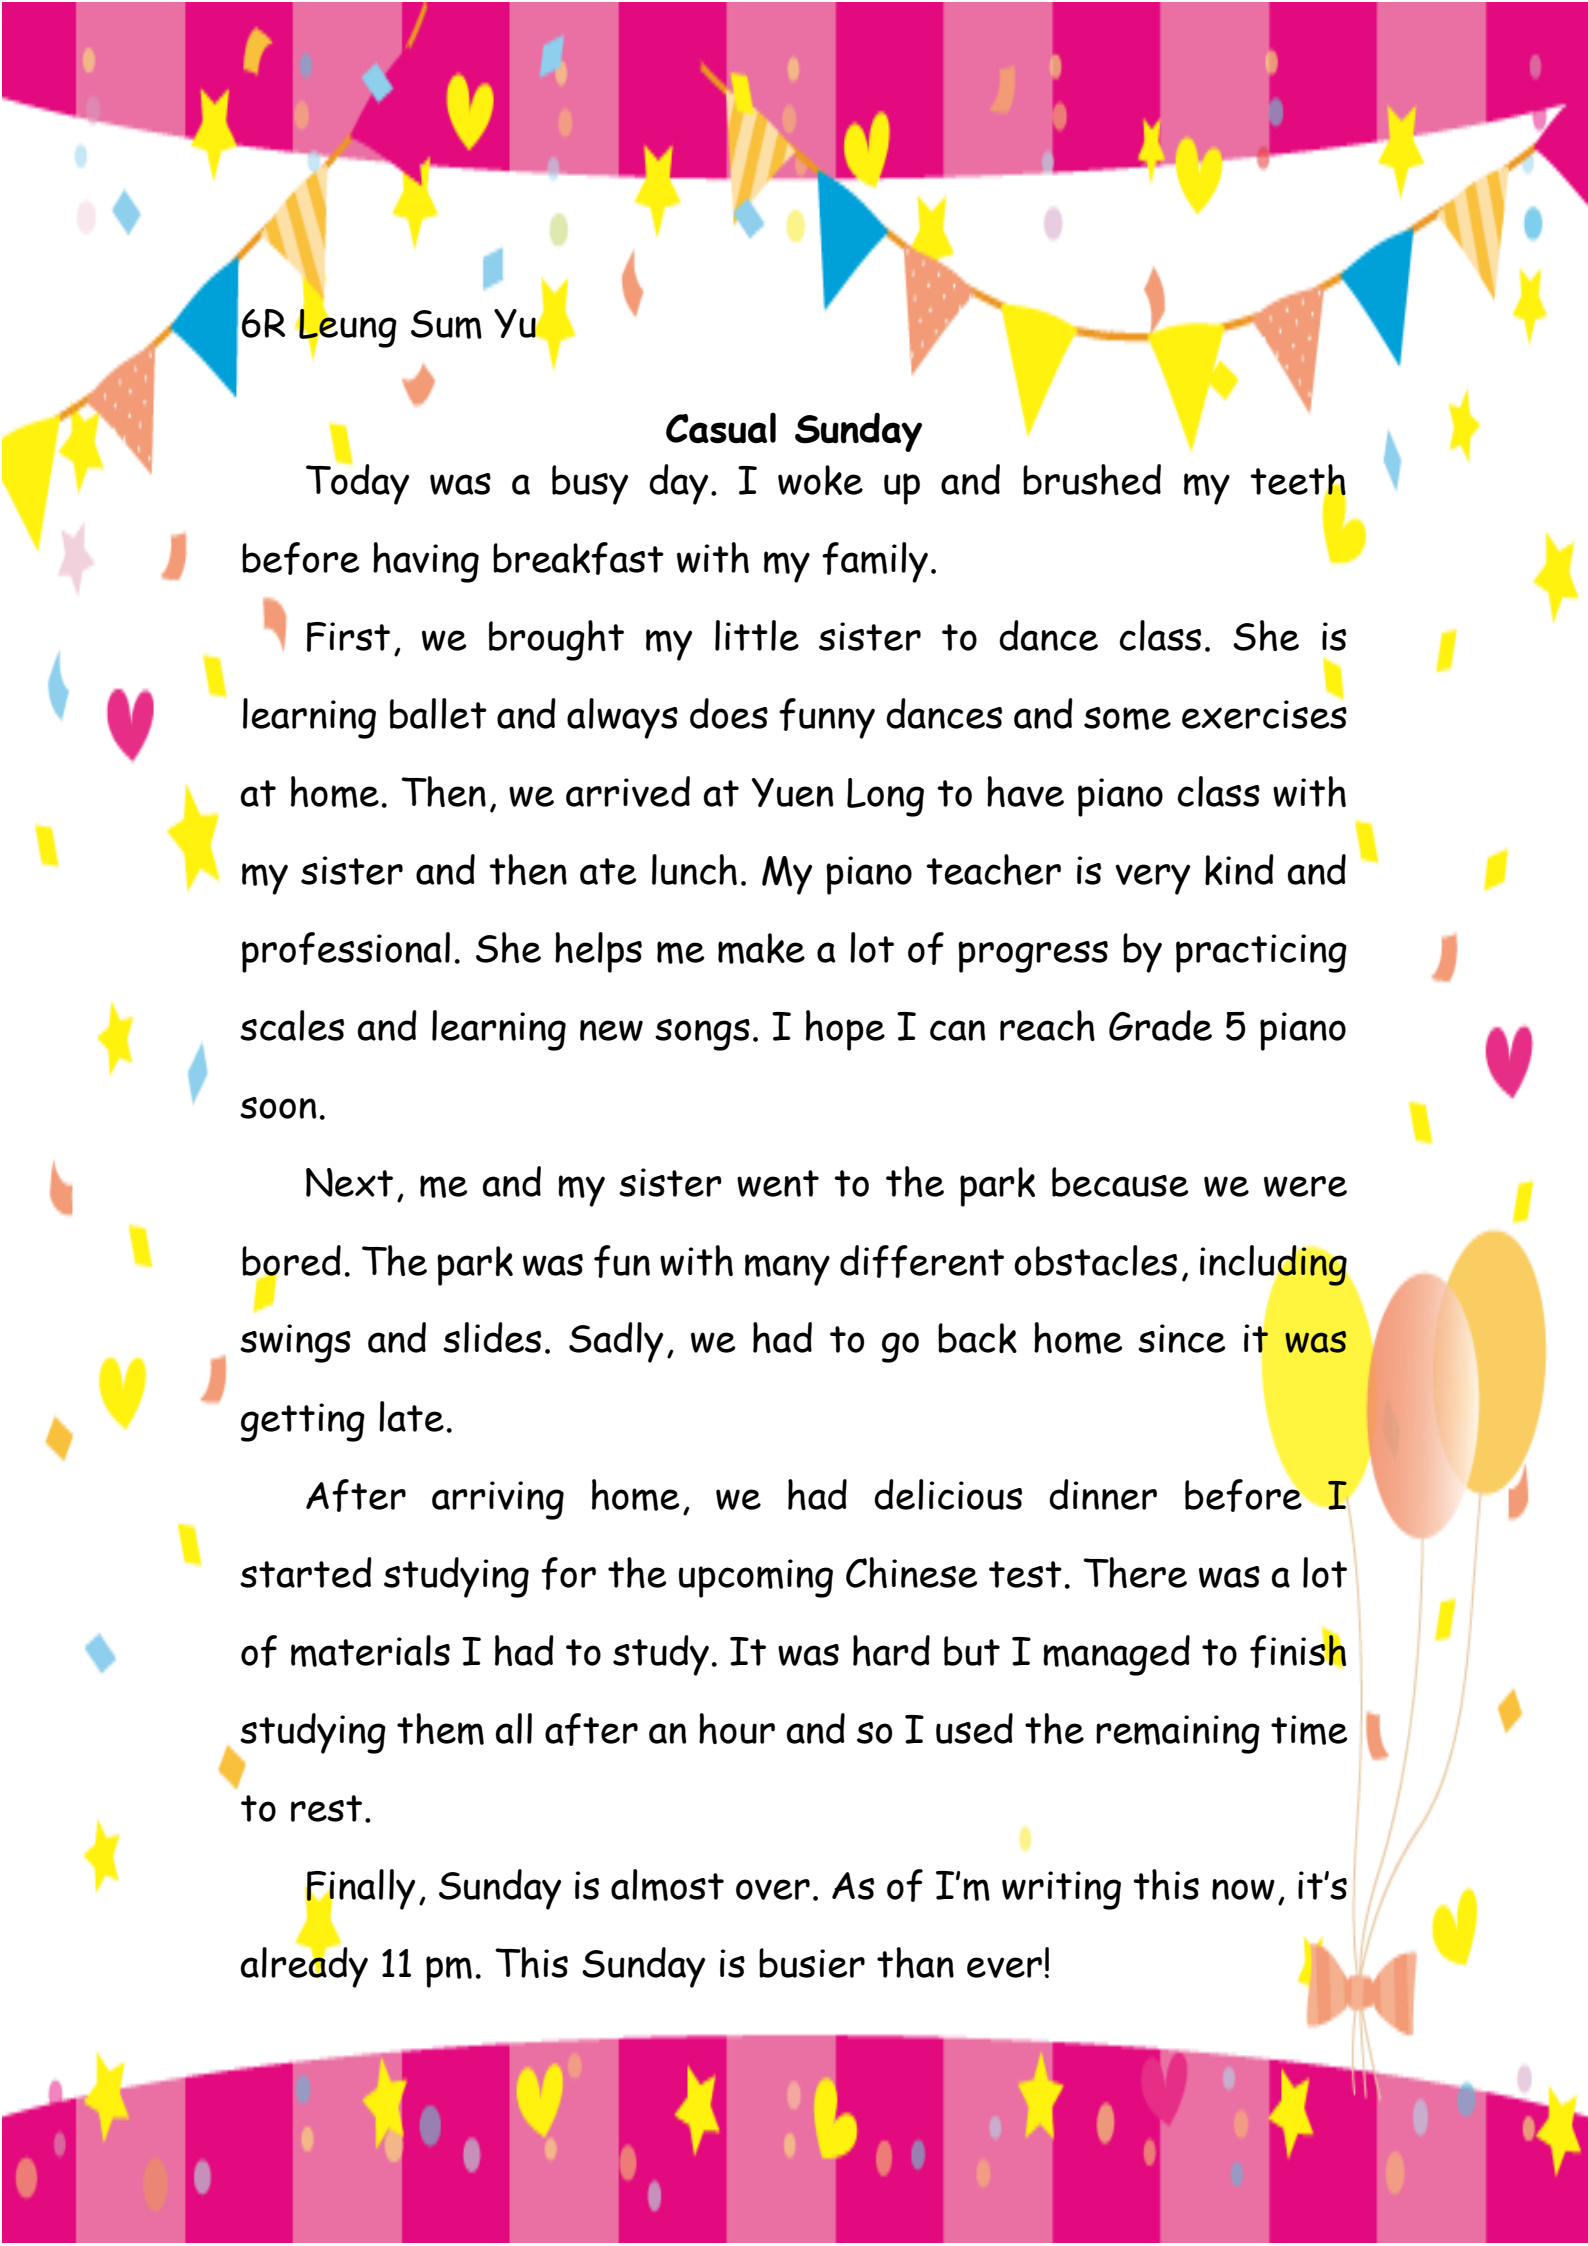

We went to Ocean Park because there were lots of games and animals that my father likes. Ocean Park is also a famous theme park in Hong Kong. We hope that our father will enjoy the activities.

When we told father that we would celebrate his birthday, he was glad about it. Soon, we arrived at Ocean Park. It was beautiful and colourful. My father loves this place and he couldn't wait for the celebration that comes later.

First, we went to different place about rare animals, like pandas and penguins. My father likes penguins because he thinks that they are cute and funny, so he likes this part of celebration very much. We were happy too. Then, we went to play a lot of games in Ocean Park. We liked the roller coaster and the bumper cars the most. They were joyful and excited.

After playing the games, we all felt hungry, so we decided to go to a restaurant and had a meal. We went to an interesting restaurant that we could eat with dolphins. There was a big glass to see through the fish tank. The seafood in there was also tasty. It is really a good restaurant for us!

When it was night time, we left the park. We wanted to buy a cake for dad. This was a joyful day for me and it also made me feel closer to my family.

### Casual Sunday

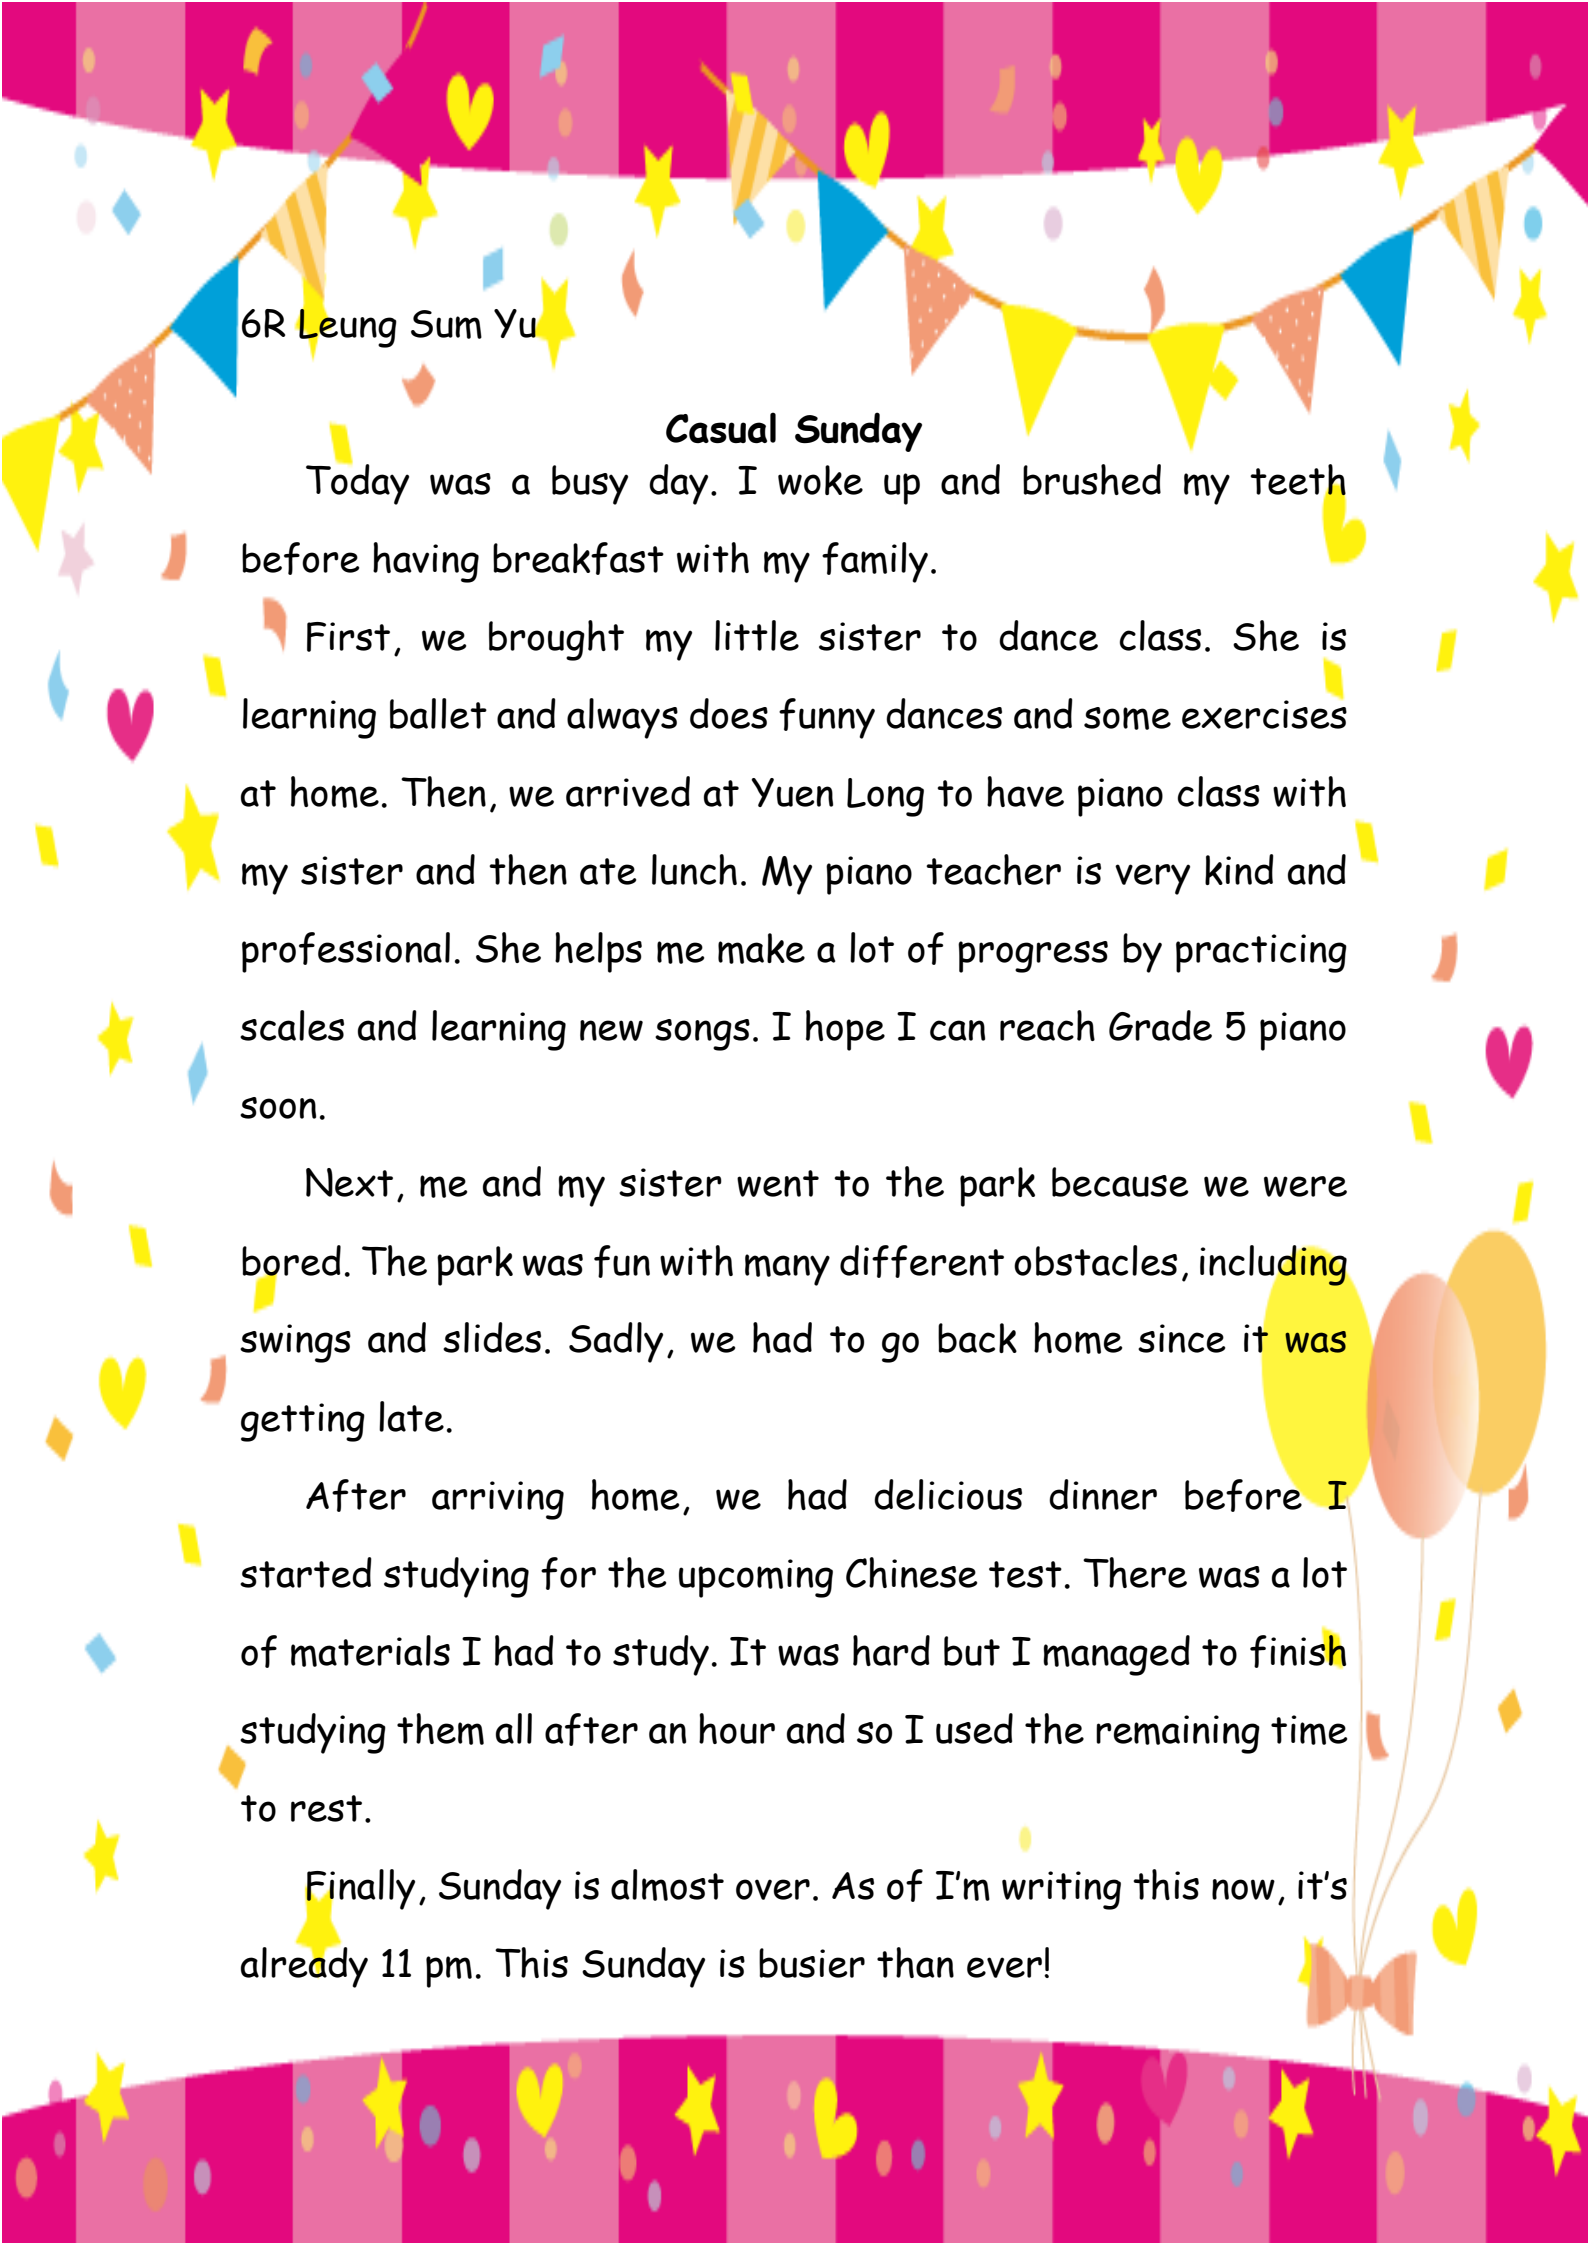

Today was a busy day. I woke up and brushed my teeth before having breakfast with my family.

First, we brought my little sister to dance class. She is learning ballet and always does funny dances and some exercises at home. Then, we arrived at Yuen Long to have piano class with my sister and then ate lunch. My piano teacher is very kind and professional. She helps me make a lot of progress by practicing scales and learning new songs. I hope I can reach Grade 5 piano soon.

Next, me and my sister went to the park because we were bored. The park was fun with many different obstacles, including swings and slides. Sadly, we had to go back home since it was getting late.

After arriving home, we had delicious dinner before I started studying for the upcoming Chinese test. There was a lot of materials I had to study. It was hard but I managed to finish studying them all after an hour and so I used the remaining time to rest.

Finally, Sunday is almost over. As of I'm writing this now, it's already 11 pm. This Sunday is busier than ever!

### **Mum's birthday present**

Tomorrow will be my mother's birthday, so I decided to make her some unforgettable birthday presents.

First, I found some photos of me and my mother in the photo album and then drew them on a paper. Then I wrote a big "Happy birthday" on it. After that, I used some pink paper to fold some hearts and stuck them on the paper.

Next, I bought some wool with different colours and stabbed them into a rabbit and a dog. I accidentally hurt my finger twice while stabbing. It was painful! At last, I bought some balloons as decorations to decorate our home. I hope she'll like my birthday presents.
