### English Day Camp

Today, I went to the English Day Camp at Po Leung Kuk Laws Foundation College. I learnt lots of things. I was so happy to learn English in this school. Those big brothers and sisters are both kind and good at English, Physics and Arts. The student helpers were also interested in playing board games and they encouraged us to learn English through games and activities. On the other hand, the school is so big and new with a swimming pool. I was deeply impressed by the activities and the study environment.

### English Day Camp

I really enjoyed the English Day Camp at Po Leung Kuk Laws Foundation College. The students there are extremely nice to us. They are also very funny. At the same time, I can learn a lot of scientific knowledge and English words. The student helpers told us what they have learnt in the English and Science lessons, in which I was impressed.

### English Day Camp

I realized that learning English can also be fun! Doing worksheets or textbooks is not the only way to learn English. In fact, doing fun activities, such as playing English board games and joining an English Language Book Club, may also help!

At the English camp, I had lots of fun. My favorite game was the Bucket Kahoot. We get to learn new words and throw bean bags. I appreciate each and every big sister and brother. I hope I can come here again.

### English Day Camp

I really love and enjoy the English Day Camp at Po Leung Kuk Laws Foundation College because I did learn a lot of things.

I attended the "DNA Secrets with Positivity" and "Craft Positive" workshops. I understand how to use a micropipette in the science laboratory. I also tried to use a paint brush to make my own bag. I am going to share what I have learnt in this Camp with my friends and schoolmates.

### English Day Camp

Today, I went to have an English Day Camp at Po Leung Kuk Laws Foundation College. I was extremely glad. The games were very fun and I have learnt more English vocabulary. Also, I made a very beautiful bag and I love it so much.

At the end of the Camp, I really missed the student helpers and the games there when I was about to leave. I hope I can join the Camp again very soon so that I can learn more about English!
