My Reflection on English Day Camp

I felt happy today because I learnt a lot! I had so much fun, too. I even want to attend high school at an earlier age.

I liked doing experiments most because it was full of fun. I also acquired many new English words at the "Bucket Kahoot Station". We could also play on IPad.

More, I could improve my art skills at the "Craft Positive Station". I made a lovely tote bag.

I could play games at the "As Laughter in Board Games Booth". First, I needed to answer the questions and roll the dice. I got the answers correctly all the time!

The happiest moment in the camp is that I could sing the camp song "Lemon Tree"! The mentors were patient and excited to teach us sing.

I love this camp very much.

Things I will do in upcoming summer holidays

I will do many things in the upcoming summer holidays.

First, I will clean up my bookshelves and tidy my schoolbag.

Second, I will read the P.5 textbooks and have a preview of them.

Next, I will do the summer holiday homework first and I hope I can finish in a few days. Also, I will do some exercises and learn short track speed skating on ice.

The happiest thing is that I will visit the Universal Studio in Osaka too with my parents. We will plan to play the Mario Kart and I am sure it will be exciting. Then, we will ride on the roller-coaster in Jurassic Park. There maybe some enormous dinosaurs. We are going to spend two days in Universal Studio and we will also go shopping in other places before leaving Osaka.

I hope I will have nice and happy summer holidays.

My Reflection on English Day Camp

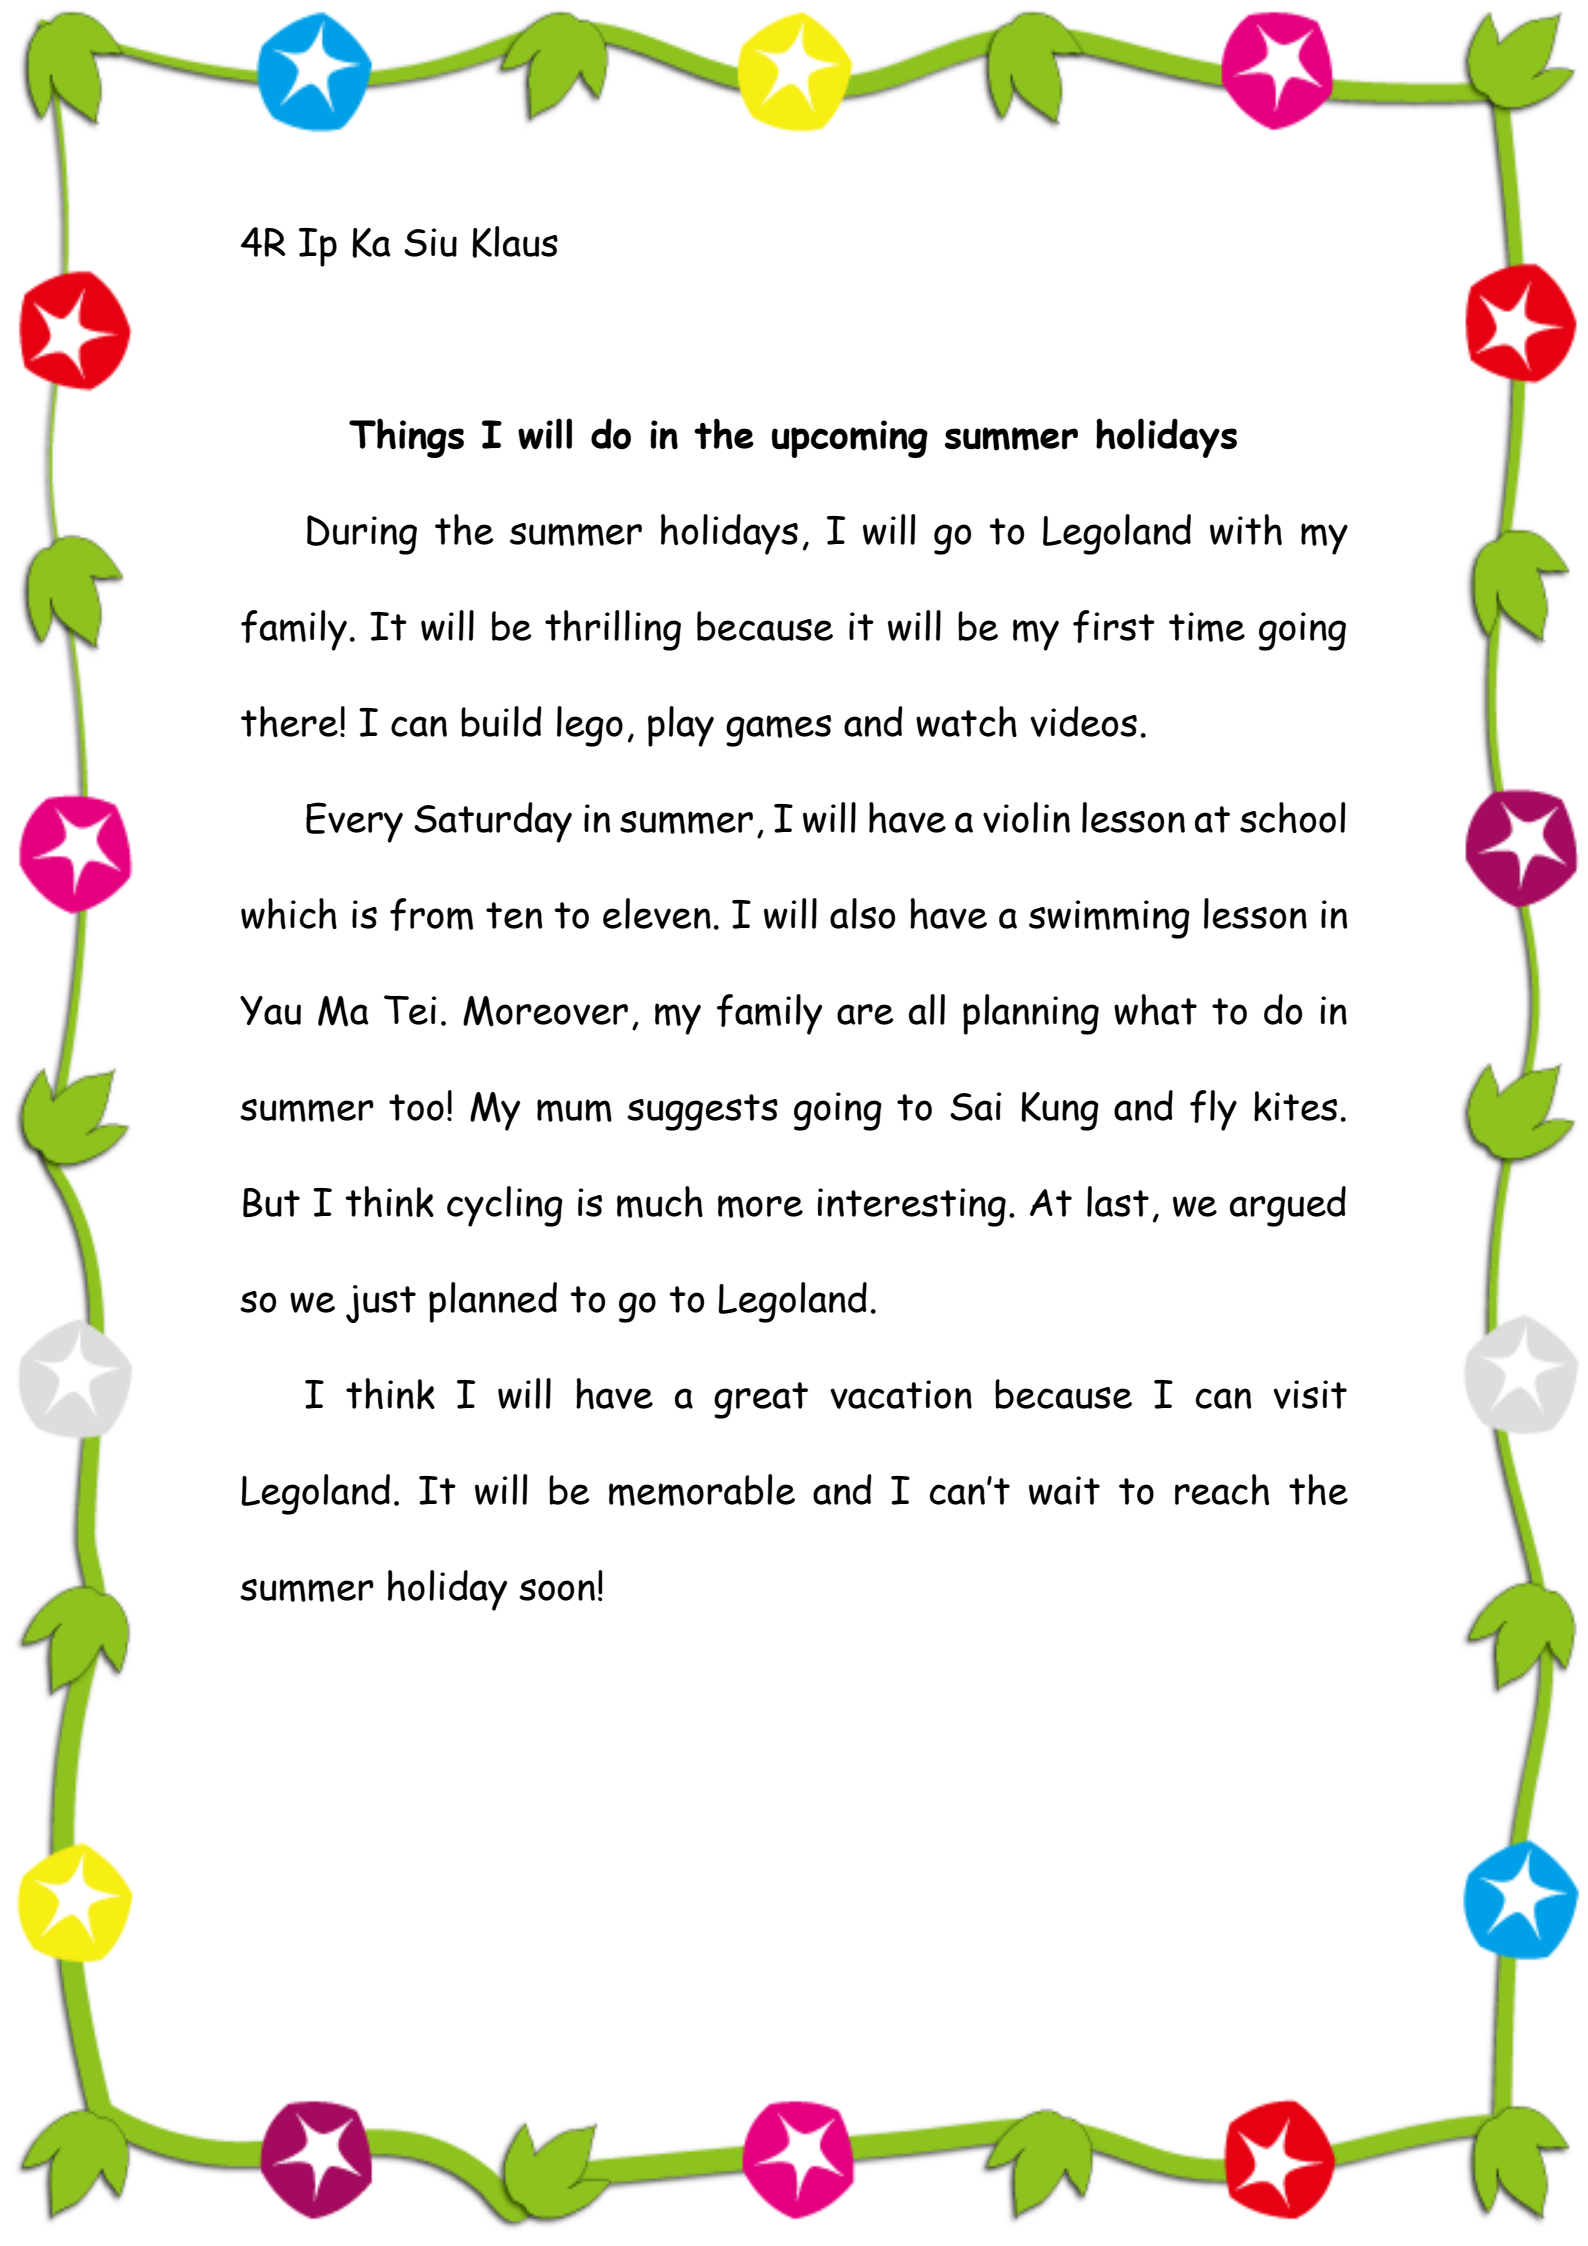

The English camp was very fun! We had fly paper planes with special skills. We also made different paper airplanes and let them fly high.

Second, we had so much fun when playing board games. There was a game that one student would need to answer level 1 question, if you got the answer, you could roll the dice. If not, your chance of rolling the dice would be missed.

Then, we went to the science room and learn how to use the micropipette and mix some solution. We could bring them home at last!

My favourite game was bucket kahoot! There were two people in one group. One of them needed to answer the question and threw the beanbag to the bucket that depicted the answer. You also needed to tell your teammates what the answer was. Despite these, I won! I got a notebook as a gift.

Lastly, we also made some pretty craft. We designed the bags ourselves and painted them with sponges and varied paint. It was indeed a very fun day!

Things I will do in the upcoming summer holidays

During the summer holidays, I will go to Legoland with my family. It will be thrilling because it will be my first time going there! I can build lego, play games and watch videos.

Every Saturday in summer, I will have a violin lesson at school which is from ten to eleven. I will also have a swimming lesson in Yau Ma Tei. Moreover, my family are all planning what to do in summer too! My mum suggests going to Sai Kung and fly kites. But I think cycling is much more interesting. At last, we argued so we just planned to go to Legoland.

I think I will have a great vacation because I can visit Legoland. It will be memorable and I can't wait to reach the summer holiday soon!

Things I will do in upcoming summer holidays

My summer holiday is coming. I am planning to visit some interesting places.

I am going to learn Kpop dance in Kwun Tong with my friend, Khloe. I want to learn dancing because this is my first time to dance so I want to challenge myself. I think the dancers' performance is quite inspiring and stunning. I hope I can perform as brightly as them in the future.

I am planning to go to the Gold Coast Beach with my family. I like sunbathing there. I can also build sandcastles there.

The last place I want to go is the Cats' Café in Lai Chi Kok. There are many abandoned cats and kittens there which need our care. I hope I can go there now.

Things I will do in upcoming summer holidays

Summer holiday is coming! I am so excited and I have a lists to do!

First, I will finish my homework first so that I can fully enjoy my summer holidays without worries. Then, I will read the Harry Potter series throughout the holidays. Also, I will play video games and legos. These are my favourite toys.

I want to do some outdoor activities too! I plan to visit the Peak, the beach and some parks with my family too.

I will also rest more so that I can have enough energy to learn new things when I am in Primary five.

Things to do in upcoming summer holidays

What will I do in summer holidays? First, I am going to study what I have learnt in primary four. Then, I will pre-study some textbooks of primary five. Also, I m going to join track and field training at school.

The most exciting thing is that I will pick the shell at the beach with my family. I hope I can pick some beautiful and special shells with my sister.

I'm looking forward to this summer holiday because I am going to be a primary five student and also a big sister as well. I hope I can have a happy school life in the future.
