### **My Favourite Store**

One day, I went to my favourite store, "Toys Rus" because I wanted to buy a tent for my camping the next week. I lay down in a tent to see if it was suitable for sleeping or not. While I was sleeping, a thoughtless staff was checking if any customers were still in the store, but the staff didn't notice my presence. So, when I woke up I discovered that the store had closed. I was overjoyed because I love playing with toys.

I played with lots of toys, such as robots, gyroscope, drivers, swords and more. Meanwhile, I was starving so I ate some snacks. After eating some snacks, I went on playing.

At last, I felt tired, so I went back to the tent and fell asleep. Suddenly, I heard someone call my name. When I woke up, I saw mom and dad and I realized that it was just a dream.

After this dream, I have learnt that we shouldn't be thoughtless or we can't do anything well.

### **I was locked inside my favourite store**

Yesterday, my family and I went to the bookstore to buy some books. An hour later when my family was ready to leave, I was still reading my book. I read and read until the light went out. I felt scared because it was pitch black, and I couldn't see anything. I tried to get my mobile phone. Fortunately, I found it and I turned on the flash light. I wanted to find the exit, but the door was locked.

Then, I tried to find some books to read, but here came another problem. There were too many books! Comics, novels, magazines, ... At last, I picked a detective novel to read.

While I was reading, I fell asleep without realizing.

In this experience, I learnt that I should follow our parents and listen to them.

The page is framed by a colorful, cartoonish border. It features rolling green hills, stylized trees with orange trunks and green foliage, and several houses with grey roofs and windows. The houses are in various colors, including yellow and green. The background of the border is a light green with small yellow dots scattered throughout.

**If I were locked inside my favourite store**

My favourite store is the pet reptile store. If I was locked in a pet reptile store, I would be frightened but excited.

I would not sleep all night. I would play with the reptiles, such as bearded dragons, chameleons, snakes and something else. I would feed them. I would feed the bearded dragons with worms. I would feed chameleons with crickets, and I would feed snakes with alive mice. It would be so amazing to feed them.

I would experience a wonderful night.

**If I were locked inside my favourite store**

If I were locked inside my favourite store, it had to be a video game store because video game store is my favourite place while going out with parents on holiday.

Firstly, I would enjoy playing different games by using some high-tech gaming gears such as VR headsets, gloves and newly-designed controllers. They enabled me to play with more fun and feel realistic while playing. Then, I would keep trying on playing new games without resting and sleeping until the store was open.

It would be a fascinating experience being locked inside the video game store for a night, but it might be a bit risky being alone without any food or supplies.

**If I were locked inside my favourite store**

If I was locked inside my favourite store, it had to be a boba tea shop, because I like to drink boba tea and eat tapioca pearls a lot. I would like to mix a special drink for myself. I will mix mango juice, grape juice and strawberry juice with tapioca pearls and tea together. It should be very tasty.

I would try to mix more special drinks and put them into the menu. When the shop opened the next day, people could choose the drinks developed by me. I hope all the customers would like these boba tea.

If people liked my products, I would open a boba tea shop in the future.

**If I were locked inside my favourite store**

If I was locked inside a store for a night, I would prefer to be locked inside Jumpin Gum U.S.A. because it is my favourite store and it is also a place full of fun.

Firstly, I would turn on the power of the lights, air conditioners and game facilities. Then, I would take some tokens from the cashier, play all the games and win a lot of tickets.

Secondly, if I got tired, I would take a rest at the ball pit. I believed this area should be the most comfortable spot to take a rest. I could also play in the ball pit zone after rest.

At last, I could take some snacks and drinks from the customer service counter if I got hungry or thirsty.

I think I wouldn't be scared or have a difficult moment there. On the contrary, I would feel very excited, and would love to spend a night there.
