My Christmas Holiday

I went to Shaoguan in China with my family and my brother's friends at this Christmas. We went there by high speed rail. It is very fast.

On the first day, we went hiking at Yunmen Mountain. We walked on the glass bridge. I felt excited and joyful.

On the second day, we went hiking too. This time, we went hiking at Wuzhi Peak. The mountains are extremely high. They are about 1600m high. I stood on the top of the mountain to see a beautiful view of the mountains. I was on pins and needles.

On the last day, we went to a hot spring. The water was hot. I didn't like it.

In conclusion, this trip was my first time to stand on a very high mountain. It made me so unforgettable. However, I did not want to go again because I thought it was very terrible.

My Christmas Holiday

Last Christmas holiday was so exciting! Let me tell you about it.

Last Christmas holiday, me and my family went to a theme park and it was so much fun. The best part is the snow and skilling area! We built snowmen and had snowball fights. Do you believe? I first learnt to ski and soon I learnt how to ski down snowy slopes. My parents also praised me, which made me really happy. It was very cold, but I was wearing a comfortable and thick jacket with gloves, so it was not really cold to me.

After playing in the snow, we went to the trampoline area. Some trampolines were very bouncy, but on the other hand, some were hard to bounce on. Also, I even learnt how to do cool flips! It was marvelous. I could not help but laughed with joy.

I had the best time at the theme park over the Christmas holidays. I cannot wait to experience all the excitement and joy again!

A special day in my Easter holiday

On a bright Easter holiday, my family and I went to Tokyo. We saw the beautiful cherry blossoms blooming all over Japan. On Children's day, 4th April, 2024, we went to Tokyo Disney Sea. The park looked like a scene of a fairy tale, filled with Easter eggs, cardboard cut-outs of Mickey Mouse and bunnies everywhere! We first started to play the "20,000 Leagues Under the Sea". We took part in a mission to explore the fantastic undersea world.

Then, our biggest adventure was riding the "Tower of Terror". It is a simulated free fall drop tower thrill ride at Tokyo Disney Sea in the American Waterfront area. Before the ride, we were all giggling, excited and a bit scared. The ride went up, up, up, and then ... Woosh! Down we went, super fast, just like a jumping machine game, but so much fun.

Even though we were kind of frightened, we felt brave afterwards. That day was special because we had a great adventure and shared lots of smiles at Tokyo Disney Sea.

My Christmas Holiday

On my Christmas holiday, I had a very amazing trip in Mainland China. I went to Shen Zhen with my parents, my aunt, uncle and cousins. We were excited when we left Hong Kong.

We planned to go to a place that we could try different kinds of sports, such as climbing, ice-skating and snooker. We could also drive go-kart and bumper car! But when we arrived there, there were too many people that we couldn't get inside. So, we went to a small animal zoo that we could feed and touch the animals.

When we went inside the zoo, we were surprised by the special animals there. First, we touched the snakes and lizards. One of my cousins didn't like them and felt scared, but I thought they were cool. Then, we fed the horses, goats, pigs, cows and alpacas. I didn't like the goats and alpacas because one of them kicked people and one spat at you.

Next, we fed some little animals, such as squirrels and rabbits. They were so cute that I thought they were the cutest animals on Earth! We played with the ducks and chicks after feeding animals. This was the happiest moment in the whole trip. I fed the ducks and chicks if they were hungry. My cousins calmed them down and made them fall asleep!

After playing with animals, we went go-karting. At last we had dinner together.

I love this trip because I could touch and feed animals. Usually, we can't touch the animals and we can only look at them from away, but this time I could touch and take a closer look of them.

My Christmas Holiday

What did you do on the last day of 2023? On the last day of 2023, I went to a countryside park in China with my family.

My dad drove us to the countryside park in the morning on thirty-first of December. There were a lot of outdoor activities. Firstly, my sister and I spent a lot of time on playing at the stalls. We had so much fun. After that, I played some thrilling activities, like the zipline and the go-karts.

At night, we had a barbecue. We ate a lot of food, such as sausages, beef and fish balls. My favourite food was melted marshmallows. On the other hand, there was a singing performance. Meanwhile, my sister and I played the mini fireworks happily.

Until almost 12 o'clock, all the people in the park stood in front of the stage and started counting down together. At the moment of 12 o'clock, we saw a big firework shot up to sky. We all had an amazing ending of 2023.

On that day, I could get closer to the natural environment. I am looking forward to having a good start of 2024.

A special day in my Easter holiday

Do you know how old you can get a driving license? In the Easter holiday, I tried to drive my dad's motorbike without a driving license.

On 27th March, my mum brought me and my sister to China by High Speed Rail. My dad picked us up, and drove us to his office's carpark directly. It was so surprised that my dad bought a new motorbike which had a side-car so that he can drive me and my sister together. Moreover, my dad prepared a smart helmet for me and a cute helmet for my sister. I felt shocked when I saw all those things.

In that afternoon, my dad brought us to a shop to buy some lovely decorations, and we stuck the decorations on the motorbike together. After that, I took my first ride of the motorbike with my sister. On the way along the road, there were a lot of people taking photos of our motorbike because it was very special. When we arrived at the riverside, we watched the sunset. It was really fantastic.

After we had a big meal in my dad's restaurant, my dad took me to an empty area to teach me how to ride the motorbike. He kept sitting behind me all the time. I enjoyed riding the bike very much.

Driving is super exciting. I am looking forward to my 18-year-old birthday so that I can get my driving license to drive a real car.

My Christmas Holidays

In Christmas Holidays, I went to Tai Kwun and saw the "Circus Plays 2023" with my best friend Gianna and her sister Anna. We haven't seen each other for more than three months and we missed each other very much.

First, we watched the circus show "Funny Business" in the Parade Ground the silliest boxing match. This hilarious show features a stunt duck, a human fish and eccentric dancing. It was a spectacular belly-aching knockout performance.

After the show, we rested under the big tree and had some snacks together. And we shared with each other our happiness and recent difficulties. Gianna said, "I'm having trouble learning to play the drums." "Don't worry, I will always support you!" I said.

At last, we went to the restaurant to have Christmas dinner together. It was so unforgettable. I felt glum when it was over. I wish I could play with my friends Gianna every day.

A special day in my Easter

I had my Easter holiday from 23rd March to 7th April. It was good to enjoy a long holiday right after the Mid-term Examination.

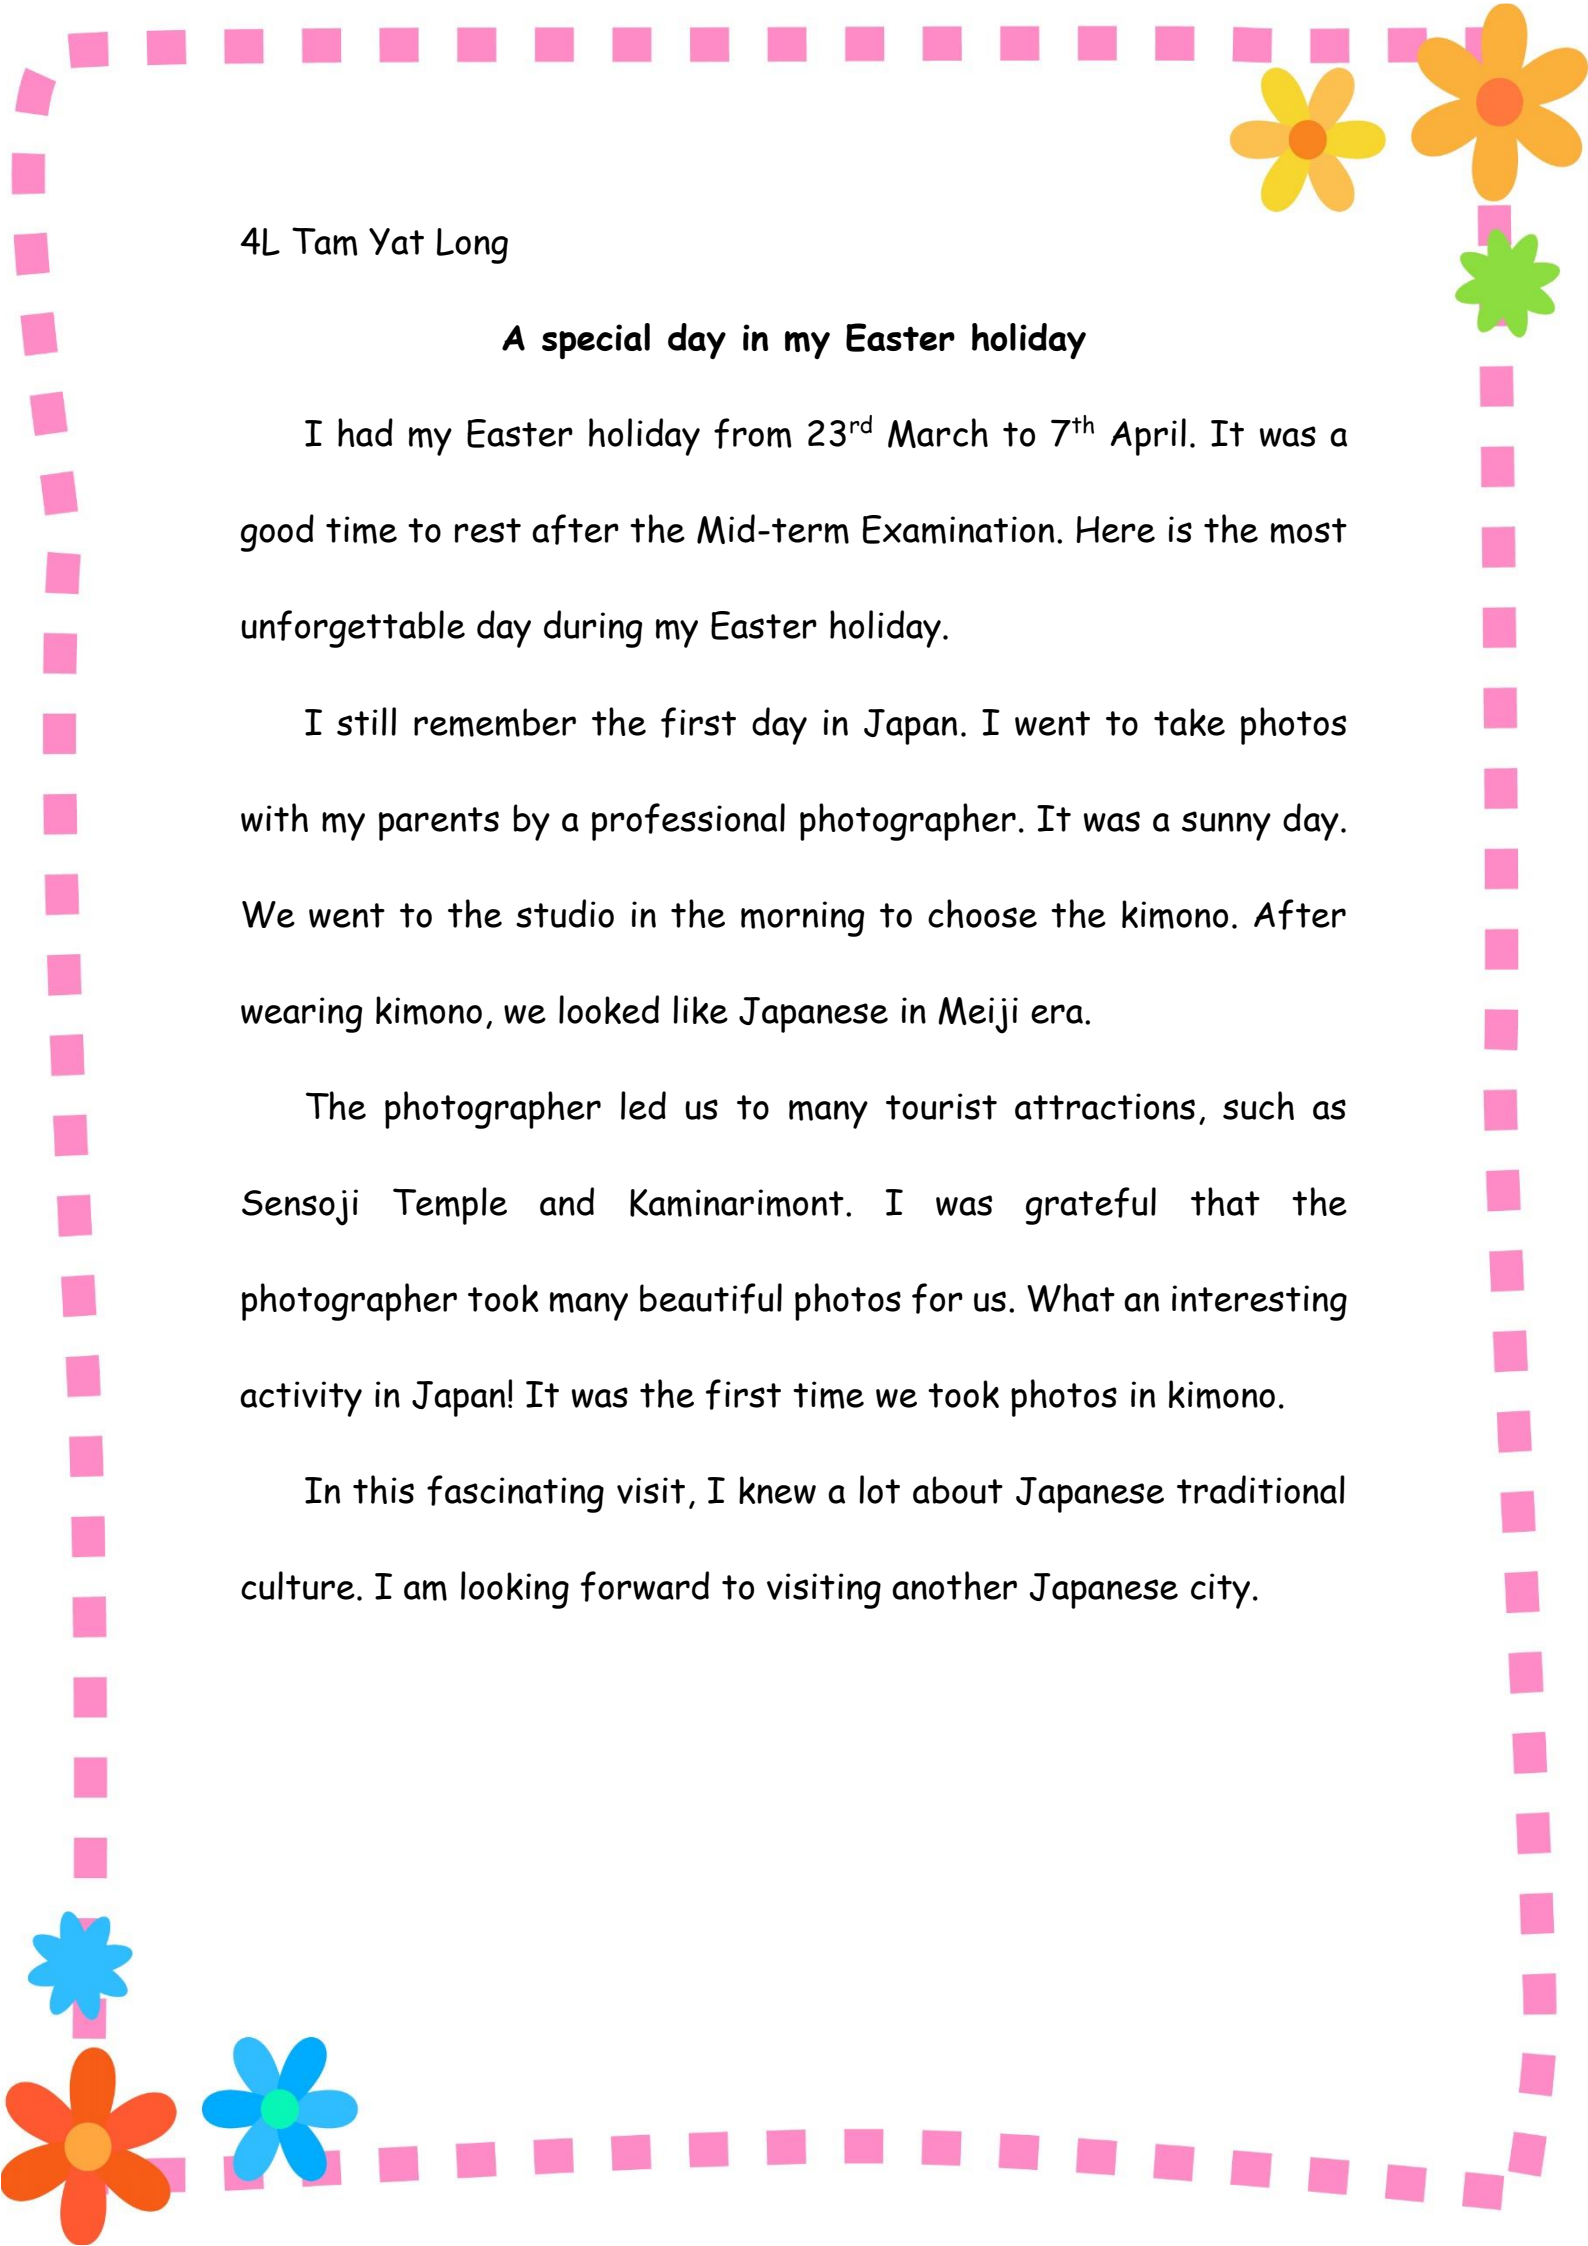

Today, my mum took me and my brother to visit the University of Hong Kong with Sean's family. I have never been to the University of Hong Kong. I was full of excitement.

First, Professor Chan explained the history of the university. She told me that Sun Yat-sen received modern education in Hong Kong. He was among the first graduates of the Hong Kong College of Medicine for Chinese.

Then we walked to the Lily Pond. There was a Sun Yat-sen Statue sat beside the Lily Pond. We took turns taking photos with this bronze statue and the fascinating Lily Pond.

After that, we went to the Main Building. It was the oldest structure in the HKU Main Campus. The building was a gift from Sir Hormusjee N. Mody, a distinguished Paris businessman and land developer in Hong Kong. Suddenly, a black shadow passed by me quickly. I was startled! When I calmed down and looked at it again, it turned out to be a squirrel. It was the most adorable animals!

At last, it was time to leave. We reluctantly bid farewell to the HKU and the squirrel! This visit gives me a better understanding of the history of the University of Hong Kong. I hope I can visit the HKU next time.

A special day in my Easter holiday

I had my Easter holiday from 23rd March to 7th April. It was a good time to rest after the Mid-term Examination. Here is the most unforgettable day during my Easter holiday.

I still remember the first day in Japan. I went to take photos with my parents by a professional photographer. It was a sunny day. We went to the studio in the morning to choose the kimono. After wearing kimono, we looked like Japanese in Meiji era.

The photographer led us to many tourist attractions, such as Sensoji Temple and Kaminarimont. I was grateful that the photographer took many beautiful photos for us. What an interesting activity in Japan! It was the first time we took photos in kimono.

In this fascinating visit, I knew a lot about Japanese traditional culture. I am looking forward to visiting another Japanese city.

My Christmas Holiday

The Christmas Holiday started on 22nd December. I was on cloud nine this year, because I had a lot of activities during Christmas.

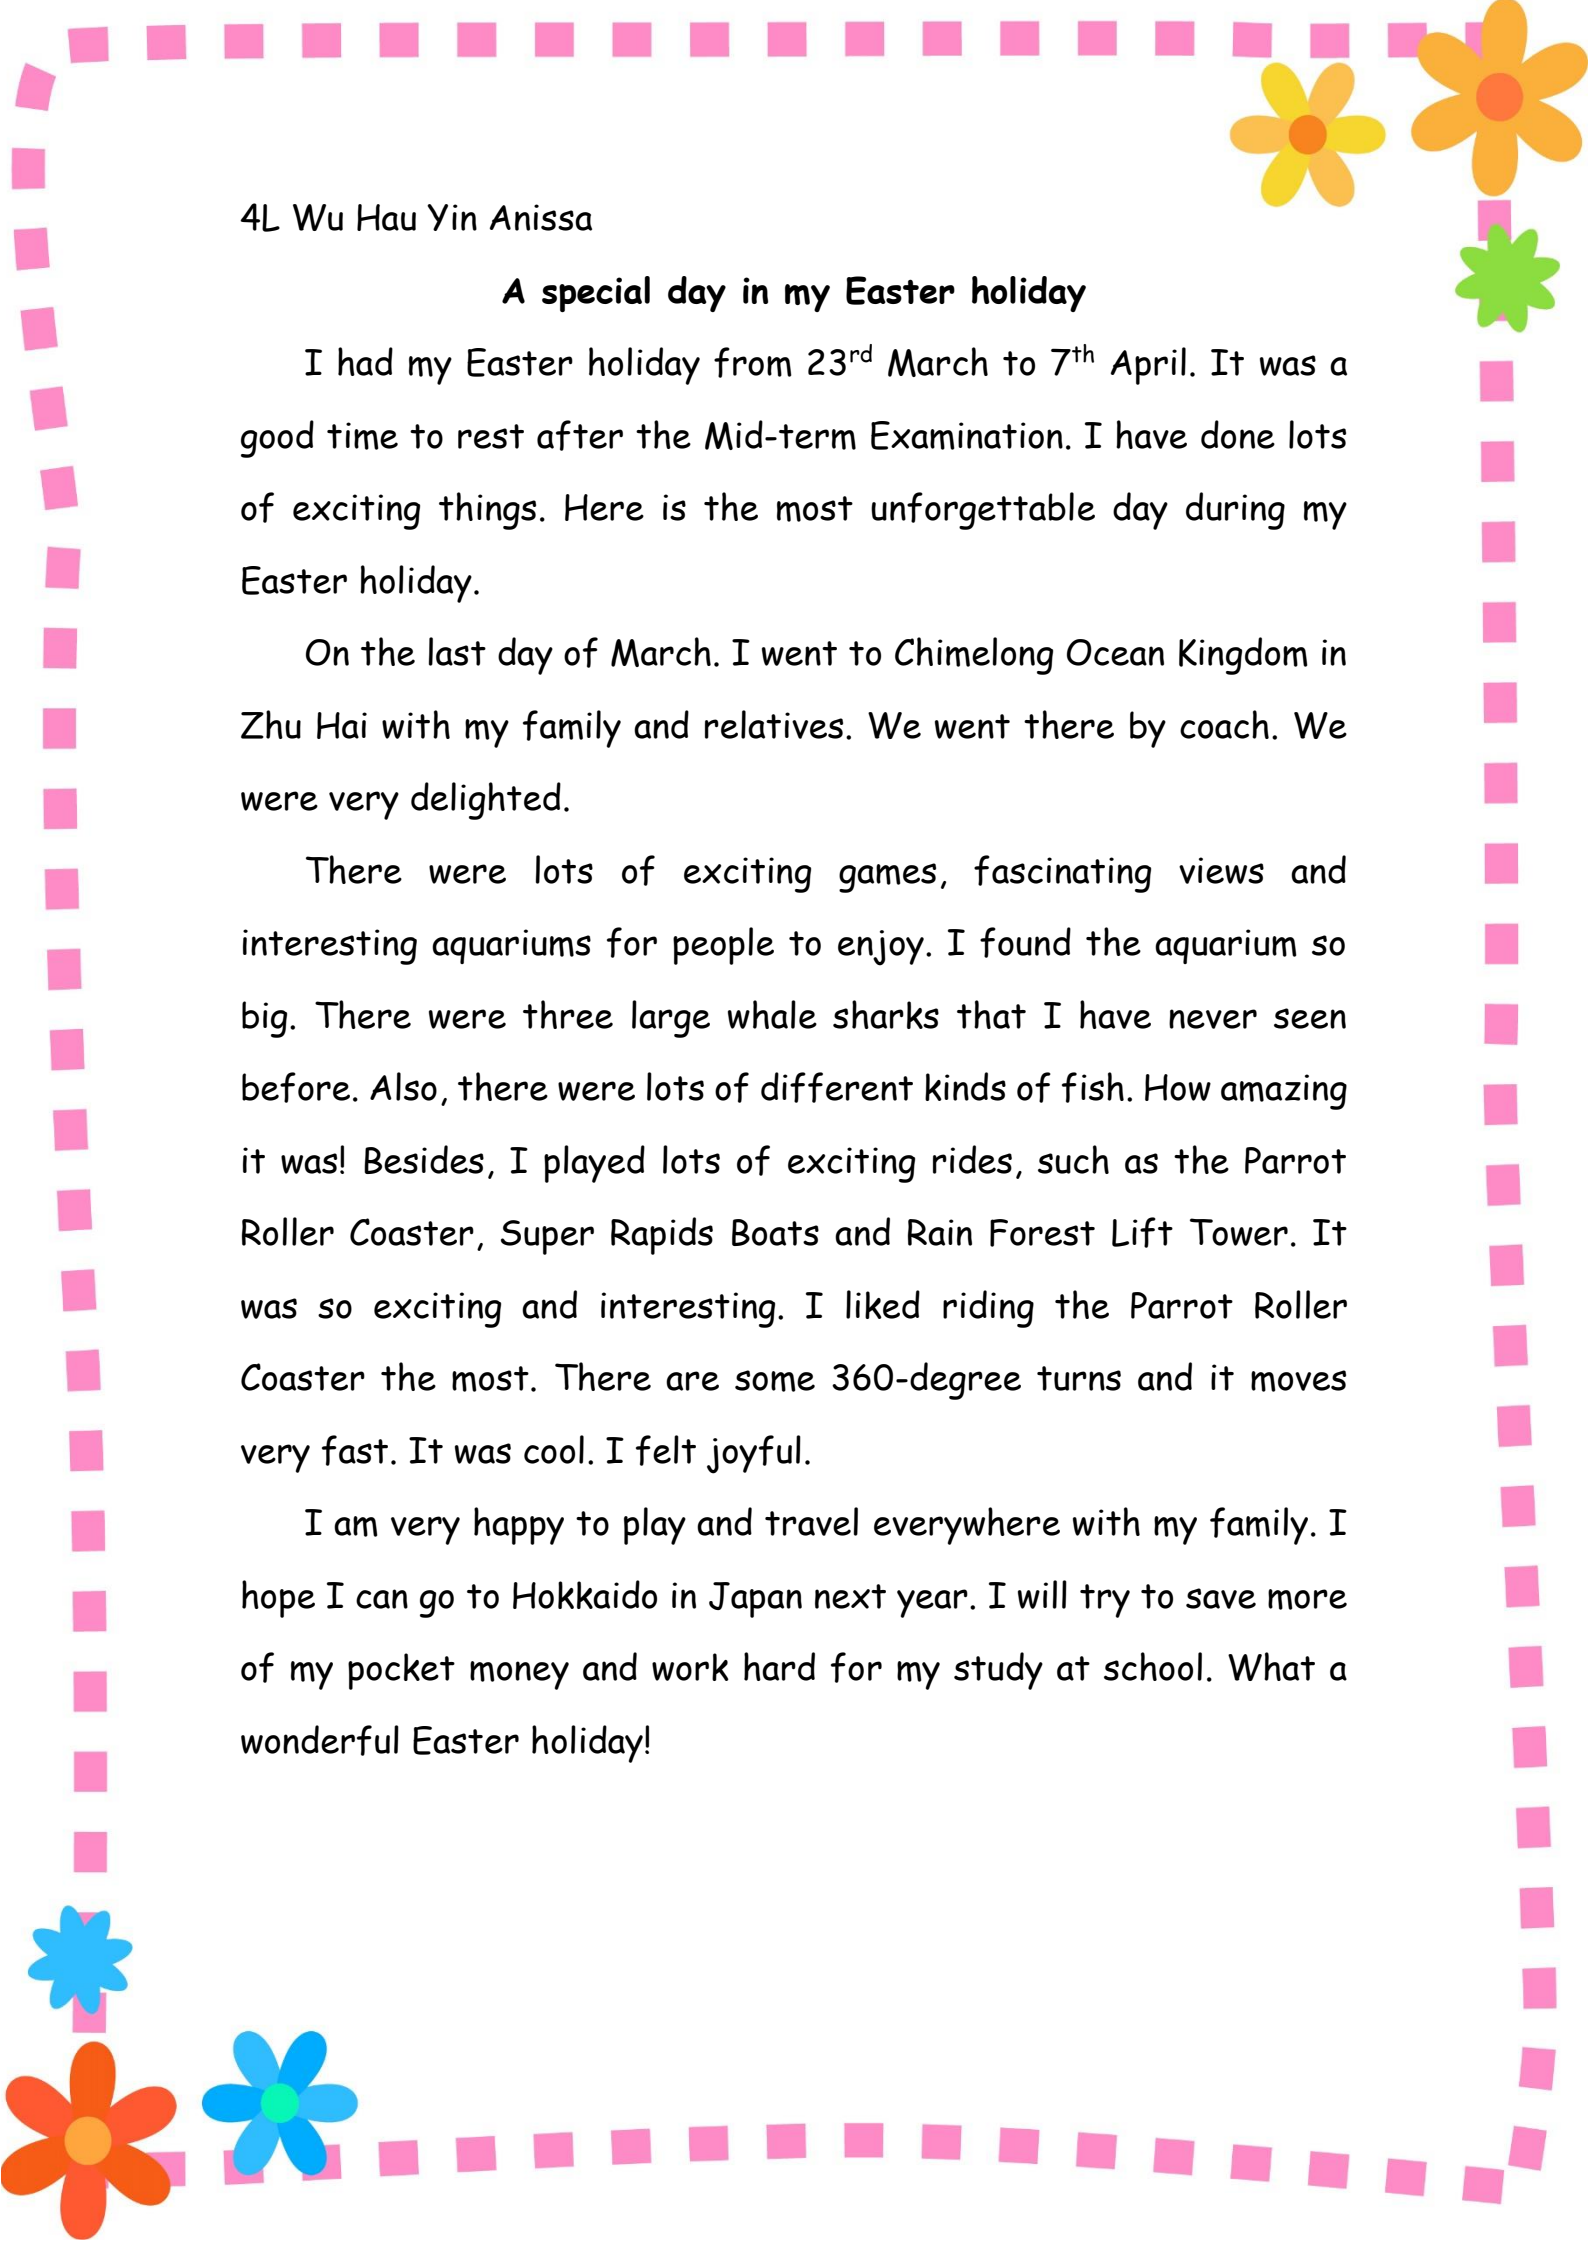

On Christmas Eve, I got a lot of presents in my stocking. I felt surprised. I loved the presents very much.

On 25th December, it was Christmas Day. I had a Christmas party with my cousins in their club house. I felt extremely excited and happy.

First, we played "music chairs". We all felt thrilled. I always won and sat on the final chair.

Then, we played slides and hide-and-seek. We felt tired but happy. After the game, we had our Christmas mini-buffet. There was a lot of delicious food, such as chicken wings, fried cheese balls, sushi and pizza.

What a wonderful Christmas! I hope I can also have a wonderful Christmas next year too.

A special day in my Easter holiday

I had my Easter holiday from 23rd March to 7th April. It was a good time to rest after the Mid-term Examination. I have done lots of exciting things. Here is the most unforgettable day during my Easter holiday.

On the last day of March. I went to Chimelong Ocean Kingdom in Zhu Hai with my family and relatives. We went there by coach. We were very delighted.

There were lots of exciting games, fascinating views and interesting aquariums for people to enjoy. I found the aquarium so big. There were three large whale sharks that I have never seen before. Also, there were lots of different kinds of fish. How amazing it was! Besides, I played lots of exciting rides, such as the Parrot Roller Coaster, Super Rapids Boats and Rain Forest Lift Tower. It was so exciting and interesting. I liked riding the Parrot Roller Coaster the most. There are some 360-degree turns and it moves very fast. It was cool. I felt joyful.

I am very happy to play and travel everywhere with my family. I hope I can go to Hokkaido in Japan next year. I will try to save more of my pocket money and work hard for my study at school. What a wonderful Easter holiday!
