A Special Day

My special day is my eight-years-old birthday. I went to Chimelong Ocean Kingdom with my father and mother.

The Ocean Kingdom is so big. There are many different kinds of sea creatures. I can see dolphins, white whales, whale sharks, polar bears, manatees and penguins in there.

The most impressive show is the killer whale show. The killer whale can jump out of the water. It is so amazing. Also, we watched the 5D movie. The movie takes us on an adventure in the sea with the captain. It is fun.

In the end, we watched the fireworks at the beautiful hotel. I have a wonderful special day!

A Special Day

Last Saturday was my mum's birthday. We went to One Avenue Mall in Shenzhen to celebrate. My dad, mom and I went there together.

First, we went to a famous restaurant called Pickled Fish. I had a yummy lunch from their special menu for kids. Then, we walked around the mall and found a craft shop inside. I like doing crafts, so we joined a class to make a Cinnamoroll music box. I chose my favorite baby blue color and decorated the music box with stickers and beads

Two hours later, the music box was finished. It looked so beautiful! When I listened to the music it played, I felt really relaxed.

I hope I can go to the mall again to make a box for my cousin's birthday present. It was a wonderful day!

My dream house

My dream house is near a park. It is white and tan. It has ten floors. I live with my family.

There is a gaming hub on the fifth floor. I can play video games with my friends and there is also a bowling alley on the fourth floor. I can go bowling there.

I love my dream house very much. I feel relaxed when I live there.

My favourite season

My favourite season is summer because I can eat a lot of ice-cream. It is usually sunny and hot in this season.

I usually go to the beach and swimming pool in summer. At the beach, I build sandcastles and collect shells. When I see a small hole in the sand, I dig it and catch the crab with my family. I can see some small fish too.

I feel excited in summer. I always eat two cones of ice-cream. I love summer!
