My favourite gift is a board game called Reversi. My mum gives it to me as my birthday gift.

It has a square board with black and white pieces. I play it with my dad on Sunday. I feel happy when I get the gift. I feel excited because every step must be careful and we never know who will be the winner until the end of the game.

My favourite gift is an Octopus watch. My mum and dad reward me for getting good results in the exam.

My watch is dark blue and round. I use it to pay for multiple modes of transport, such as bus, MTR and minibus. I feel excited because I can travel anywhere with it.

Thank my mum and dad for their encouragement. I love my parents and my watch so much.
