My magic pet

One day, I went to the pet store. Its name is called "The Magic Shop". I walked in and checked how was it inside.

When I walked in, a cat looked at me. I thought it wanted me to buy it! It seemed it was casting a spell to tell me to buy it through its eyes. I couldn't stand its cuteness! I decided to ask my mum to buy it.

We went back home right after. When we arrived home, I put it down and then I went to take a shower. Suddenly, she sneezed and then she turned into a rabbit!

At last, we knew it was a magic cat! It could turn into a rabbit anytime.

I want to be a YouTuber when I grow up because it is fun and it can make me get a lot of subscribers and likes. It will also help my fingers becoming more flexible because I need to do a lot of typing and editing. It is not just about fun and letting my fingers have more workouts, it will also make me understand about computers more.

I enjoying being a youtuber because it is a fun job. I will love my job. I am just curious, what will you guys want to be when you grow up?

I want to be a gamer when I grow up. Because I want to show to others on how to play Roblox, and make some friends and let everyone feel happy like MM2 Brookhaven, Boy Side High school and a lot. And I am so happy that Roblox was made. I like play MM2 because it is fun.

Being a gamer is not easy as one needs to be adventurous and smart enough to play a variety of games and sometimes you still need to solve the challenges in the games. But if I had to choose a career that I like, I would definitely go for being a gamer.

My vacation

My parents and I had a short trip to China during Easter holidays. On the first day, we took a coach to Shenzhen and met our uncle. He drove us to a lovely farm! The farm was so big and we picked some strawberries there. The strawberries were so fresh and juicy.

There were also many signature food stalls nearby. I tried the barbecued pork and rice puddings. They were so delicious. Alongside, there were lots of cats staring at us. They were so cute. My mum was afraid of cats and seemed she couldn't eat at all.

It was my first time going to Shenzhen. I enjoyed visiting Shenzhen because It was a place with many tall buildings as well as glamorous night view.

I hope I can visit it again.

I want to be a doctor when I grow up because it is interesting and fun, but I'm afraid of blood but I still want to help people.

Being a doctor is not easy as one needs to study a lot and needs to pass through lots of tests and exams. One needs to be brave enough when doing surgeries.

Yet, it is a meaningful job. I will try hard to become a doctor in the future. I can do it.
