My Summer Holiday

During my summer holiday, I go on a trip to Shenzhen with my family. This is my first time to visit this city and I felt very excited about it. One of the places we visit is Shenzhen Missions Hills Resort. There is a very beautiful lake near the resort.

At Shenzhen Missions Hill Resort, we have a lot of fun playing different games and activities. First, we play the trampoline, it makes me bouncing and jumping very high. Then, we also play some carnival games. They have so much fun.

After that, we go to Kanzo Ice Snow. Though it is summer, inside the park just like a winter wonderland land. We play a snowball fight, a very long slide and sledding down the snowy slopes. It is so cool and excited. It is a perfect day at Shenzhen Missions Hill Resort.

As a whole, it is an unforgettable trip to Shenzhen. I feel stunned and joyful to play on the trampoline, carnival games and the snow. It is my first time playing snow. It is memorable. I hope I can go there again and again.

My Christmas Holiday

In my Christmas holiday, me and my family go to Japan. We have a lovely holiday.

My most impressive day is when we go to Mountain Fuji. On that day, I see a lot of snow. My family and I borrow three sleds: one for me, one for mum and one for dad. We play crazily.

Later on, my family and I go up to the hill. First, I am so scared, so dad comes with me. Though it is so much fun. After comforting me, I try it on my own. At last, I did it. I felt great.

I love this Japan trip. I must study hard. Therefore, my parents will take me to Japan soon.

Visiting Hong Kong Park

Today is Sunday. The weather is great. My family and I go to visit Hong Kong Park. We all feel excited and happy.

When we arrive there, we see many colourful flowers and tall trees. We also see different kinds of animals and creatures.

All of a sudden, I fell over because of my carelessness. It is very painful. I cry. Luckily, my wound is small and I use a plaster to cover it. After this accident, I have learnt I must look after myself well. Thus, my parents don't have to worry about me.

My Christmas Holiday

In the Christmas holiday, I go to Zhu Hai Ocean Kingdom with my friends. First, we go to the Dolphin Exhibit, the dolphins are very cute. I see some Indo-pacific Humpback Dolphin. It is my first time seeing them. Then we go to the 5D cinema. It is very stimulating. After that, we visit the forest. At that time, I feel some wind blowing through my hair and fingers.

In the afternoon, we go to Whale Shark Aquarium. It wins five Guinness World Records. One of the records is the world's largest aquarium. It is my first time watching the whole shark. What a precious experience to me! When I see them, I feel very shocked. Whale shark is the biggest fish in the world. Adult whale sharks can grow to twenty meters long and thirty tons. Its back is grey and it looks very unique.

The last stop is going to the Polar Bear Exhibit. It is my first time to see polar bears. When I see them, I feel very amazed. It has white-furred with black skin and a thick layer of fat. Its swimming pose is so adorable.

This trip is really unforgettable. I hope I can visit there soon. Looking forward going there again.

Harbin

My mother is in Harbin now. She is having a trip with my aunts. Harbin is a city of China. It is extremely cold. It is snowy all the time in winter. The houses and trees are white because there is snow on them.

People have to wear very thick warm clothes. They can play snow fights. The place is beautiful. I hope my mum will come back. She will bring me something special. Maybe it is snow.

MTR station information leaflet

I have a habit since I was two. At that time, I had my first MTR station information leaflet. It was for Tiu Keng Leng Station. After that, I wanted to collect the leaflets for all MTR stations.

However, there are around one hundred MTR stations. So, it will take a long time to collect them all. Sometimes, I took an MTR ride to collect the leaflets. But some stations are so far away and hard to collect their leaflets. Due to COVID-19, some stations like Lok Ma Chau, Lo Wu and Hong Kong West Kowloon were even closed. So I wanted to wait for it to open to collect the leaflets. At last, in 2023, I collected every MTR Stations' Leaflets.

Now, there are no more leaflets provided. You need to scan the QR code to check the information from the MTR website.

The Ugly Princess

Long ago, there is an ugly castle in the island. The ugly princess loves there. She is very ugly, she has a big nose and a pair of big ears. She has long and curly hair. They are red in colour. She is thin.

This ugly princess is kind but she does not talk to anyone. It is because her big ears overheard that someone is making fun of her. Nobody talks to her. She only goes outside to swim every night by herself. She feels lonely.

One night, when the ugly princess is swimming in the sea, she hears a boy calling for help. Then the princess swims as fast as she can to save the boy. When the boy is saved, he thanks to the princess. Also, he apologizes to her because he judges her look. The princess accepts her apology.

When people know that the ugly princess saves the boy. They began to go to her castle. Finally, people love talking to her again and play with her. Gradually, she does not feel lonely anymore.
