### **My trip to Shenzhen**

Last Sunday, my family and I went to Shenzhen by train. It was a sunny day. I was very excited!

First, we went to a café and bought three cat paw buns for breakfast. When we bit into them, we got a surprise. The inside was filled with boba pearls. They were delicious!

Then, we went to an arcade centre. There were lots of claw machines X! I got a watermelon keychain and a mango stuffed toy there. I felt so happy!

After that, we went to an indoor petting zoo. There were a lot of animals X such as rabbits and hamsters. You can pick all of them up because it's a petting zoo, which means it houses small animals that can be held or touched. There was even a llama there, which I took a picture with.

For dinner, we had grilled fish. We ordered the hot and spicy fish. The waiter said it was going to be medium spicy but it was super spicy! After taking one bite, we immediately ordered a 2.3L mega drink. We ordered the peach tea and drank all of it.

Finally, we took the train home. We all slept on the train because we were all so tired.

I had an unforgettable day in Shenzhen!

### **A family trip to Osaka**

During the summer holiday, I went to Osaka with my family. This is our first family trip to Japan after the recovery of Covid-19. My little brother was very excited that because it was the first time he was on an airplane.

After a great sleep in the guesthouse. We went to the famous landmark in Japan, Nara. It was famous because there were a lot of cute deer there. We bought two buckets of deer snacks in the nearby store and fed them gently. We had a wonderful experience there and I wanted to visited Nara again next time.

The most unforgettable trip was the day going to the Universal Studio. I was so excited because it was the first time I went there. First, I went to the Harry Potter Zone. I experienced a scary ride called Harry Potter and the Forbidden Journey. I was so frightened that I screamed when I was riding on it. After that, I went to the Minions Area. We took a ride called Despicable Me Minion. It was a stimulating ride and the picture was very lifelike. At last, we took photos with Minions and we had a wonderful day there.

This was an unforgettable family travelling time because we went to Japan with eight family members. We stayed in a guesthouse together instead of a hotel. Moreover, this was my first time to travel to another country. I experience the Japanese culture deeply and ate a lot of Japanese food. Hopefully we can visit Japan soon.

The page is decorated with a border of colorful flowers and green leaves. At the top, there are orange and pink flowers with green leaves. On the left and right sides, there are large balloons: a yellow one at the top left, a blue one below it, an orange one at the top right, and a green one below it. At the bottom, there are more orange and pink flowers with green leaves.

### **My Picnic Time**

Last week was our school's highly anticipating Picnic Day! I have been waiting for this day for a long time. I finally could have fun with my classmates.

When we arrived at Pak Tam Chung Holiday Camp, there was a lot of a lot of outdoor facilities. I can breathe the fresh air in the natural under the sun.

After that, we were divided into groups. We played tag, rode our bicycles, jumped on the trampoline. The most unforgettable things for me was playing tag with Mr. Chow because teachers seldom play with us like that. The highlight was the mouth-watering food shared among friends. I enjoyed this moment very much.

In the afternoon, we took the coach back to school. School Picnic Day is a cherished break from studies that fosters friendship. I love this school picnic very much. I hope I go camping with my classmates next time.

### **My Picnic Time**

Last Sunday was school picnic. We went to Pak Tam Chung. The weather was sunny and every classmate was excited.

There were many big trees in this park. There were a football court, a badminton court and a bike trail.

First, my classmates and I had a bike race. I lost at last but the race was competitive. Then we played badminton with Miss Chan but we couldn't win the game.

At noon, I ate my hamburger, chips and drinks. We shared sweets and snakes with each other.

I enjoy this picnic because exercise is good for our health.

### **My first summer holiday in UK**

I had an unforgettable experience in UK. I made many new friends. They came from different countries. They were nice and polite. I will keep in touch with them via WhatsApp group.

I went to UK on 22nd July, 2023. This was the first time I took the plane without my parents. I studied English and Mathematics on weekday morning. After lunch, I had the most boring lesson "Be a leader." It was a hard time for me.

My happiest time was about evening activities. We sang karaoke, danced together and swam in a pool.

I had £90 pocket money for these two weeks. I bought ice-cream three times. I bought a cup noodle, chocolate, cookies, a doll and souvenirs for my family.

At weekends, I had a trip to a London city, Bath, and famous tourist attractions. The scenic spots were very beautiful.

My most forgettable memory was to ride a horse, but the horse was very smelly. I wanted to ride the horse again.
