### **Chinese New Year**

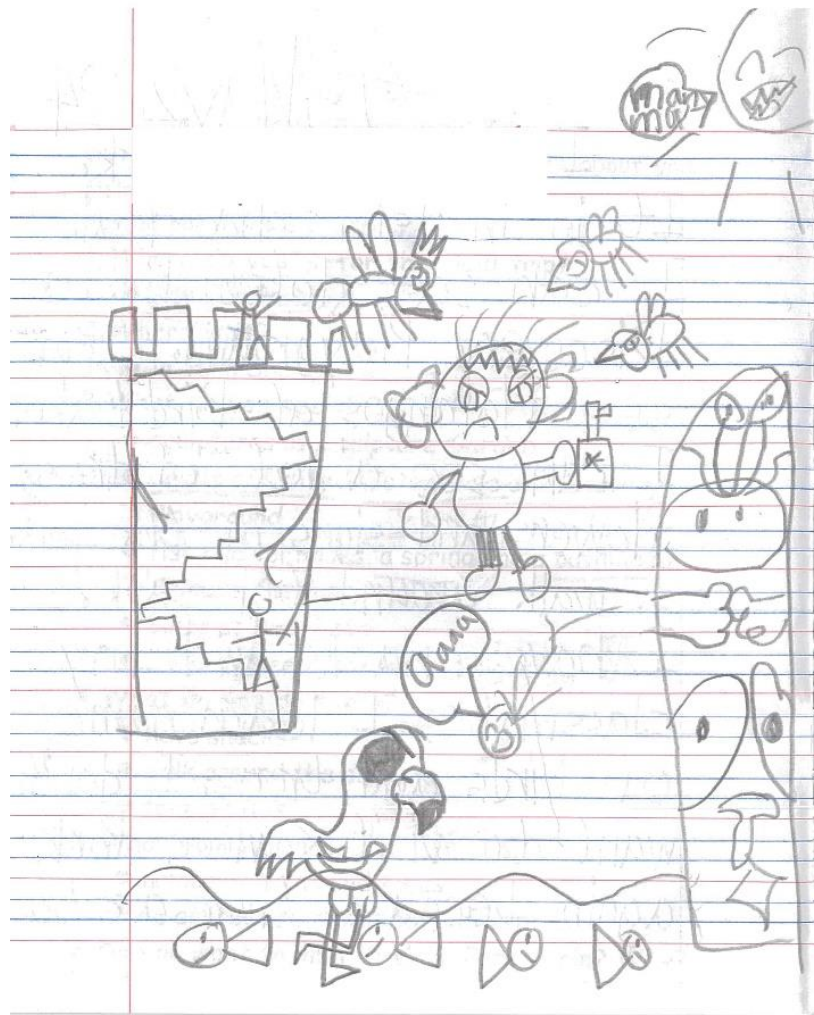

2024 is the Year of the "Loong". I am Chung Lung. Surely, this is my year. Ha! Ha! I want to play all the exciting television games. This is my wish this year. At Chinese New Year, I visited my relatives, played video games and watched my favourite movie of Minions. Surely, I got my red packets but why I received fewer red packets this year? Suddenly my father roared, "Ignatius! You play all day. Do you remember your coming English quiz and Show and Tell?"

### **Chinese New Year**

The Chinese New Year Holiday is from the 7<sup>th</sup> to the 18<sup>th</sup> of February. During the holiday, I went to Shanghai with my family. We visited relatives and had family reunion dinners together.

On the first night of staying in Shanghai, we went to the Bund and looked at the amazing view. The old buildings and ferries on Huangpu River were awesome. We took some photos with the Shanghai Oriental Pearl TV Tower.

On the 11<sup>th</sup> of February, I visited Shanghai Natural and Wildlife Insect Museum with my cousins. We saw many different kinds of insects like butterflies, spiders, grasshoppers as well as snakes and frogs. What's more, I fed alpacas with carrots and grass, which made me excited and delighted. I also played with many cats there.

On the 13<sup>th</sup> of February, I went to the Shanghai Disneyland Resort with my family. We played some games like Buzz Lightyear, Slinky Dog. However, it was very crowded and queues were very long! What a pity for me because I couldn't play all of the games. I watched parades and fireworks. They were incredible and beautiful! I won't go to Disneyland again because I don't like waiting for a long time which makes me bored and exhausted.

I think my Shanghai journey was cool and joyful. I visited my Shanghai relatives and some tourist attractions. I hope I will go there again in the near future.

### **My first field trip**

Today is the 3<sup>rd</sup> of May. I went to Kowloon Park with my teachers and classmates by coach in the morning. It is in Tsim Sha Tsui. I took a small backpack with me and I was very excited and curious.

We arrived there in around forty minutes. After we got off the coach, the teachers took us to look around the park. I saw sculptures at Sculpture Garden, Castle of Unity and Totem Pole at Discovery Playground, fish and tortoises in the pond, a spring and a pavilion at Chinese Garden, birds at Bird Lake, etc. Among all, my favorite was the Maze. I think this place is cool and terrific!

What's more, we had some snacks and walked around the park. Miss Yellow helped take photos for us.

I learned a lot from today's field trip. I learned the names of plants, birds and sculptures as well as the importance of protecting the environment and appreciating the beauty of nature.

I think we are very lucky because when we went out, the weather was good and cloudy. It didn't rain at that time, as it kept raining for almost two weeks. Thanks God! I hope I will have opportunities to visit Kowloon Park again. I enjoy the fresh air and natural surroundings there!
