An unforgettable Trip to Thailand

I travelled to Thailand from 26th March to 30th March. I went to Thailand with my best friend, Griffin. The weather in Thailand was very hot.

In the first two days, we stayed in Pattaya. We bought a 2x2 rubix cube. We ate a lot of tiramisu favor ice-cream with toast. We went swimming in the sea by ship but my mum was vomiting in the sea.

In the last three days, we went to Bangkok. We went to the Big C supermarket for shopping. The most relaxing thing for me was foot massage.

In the end, I took the plane and got back home. I am willing to go to Thailand again.

An Unforgettable Trip to Xi'an

The last 8 days of my Easter Holiday is the best 8 days of my life.

During those 8 days, I stayed at a hotel in Xi'an with my parents, my friend Evan and his family. We visited a lot of famous tourist attractions. For example, we visited Famen Temple, Mount Hua and more.

The experience I remember the most is the day we visited the Terracotta Army. But there were too many people, so we couldn't hear anything. What I saw was pretty amazing, but I was a little disappointed when I saw that some of the figures were broken. But it was still insane. Therefore, we bought some souvenirs. We had a whale of time there and after an hour, we had to return to the hotel.

An Unforgettable Day in Easter Holiday

During the Easter holiday, my friends and I went to the cinema to watch a movie. We couldn't wait to watch the new exciting movie.

First, we met at Tseung Kwan O station at twelve O'clock in the afternoon to have lunch. Then, we played at the adventure park and went shopping. It was fun.

After that, we went to watch the movie called "Demon Slayer", which was about some well-trained people called "Demon Slayers" fighting with the Demon to save the villagers. I was on cloud nine when I was watching it.

After watching the movie, suddenly, one of my friends felt unwell. Maybe the air-conditioner in the cinema was too cold for her. But luckily, her mum brought some medicines for her. All in all, I felt happy to spend time together.

My Easter Holiday

On Easter holiday, I went to mainland China. It was fun! Let me tell you all about it!

On the first day, I was excited! When we were there, firstly we planned to drink and eat a bit before going to the hotel. After that, we spent two hours finding the hotel. I was so tired but still slept at 12:00 a.m.

On the next day, I was joyful but worried because at first it was all fine we went to play and had lots of fun until we got to Meland. While me and my sister were playing, we found a little boy following us. He wanted to find his grandma but couldn't. It was the time when I started to get worried. He was speaking Putonghua and I was bad at listening and speaking Putonghua. So it turned out he had his grandma's phone number. So I tried using my dad's phone to call her, but it didn't work. And my dad called one of the staffs. At last, we found her! I was relieved.

On the last day, we went indoor skateboarding. It was so fun, so I would like my parents to buy lessons for me and my sister. I was so happy! In July, we will come back again. I hope at time our fun doesn't go by so fast!

An Unforgettable Visit to Hong Kong Observatory

On the 23rd March, I went to the Hong Kong Observatory 2024 open day with my mum and cousin Micah. The theme of this year is "At the frontline of Climate action".

The open day was held at the headquarter of Hong Kong Observatory. It is located in Tsim Sha Tsui. The most impressive thing was the main building, because it is a "Declared Monuments" of Hong Kong. The western building style is very historical and beautiful.

When we were going up to the mountain, we found some booths. We finished five games and got some lovely gifts. We were on cloud nine. Moreover, there were exhibitions which showed us about climate change and global warming. We were on pins and needles hearing this. It also told us how to save our Earth by saving energy and recycling. The message made me sunny side up. In this tour, I had deeper understanding of observatory's work. I had a whale of time. In the end, we were full of the joys of spring on that day.
