

Summer, please stay!

Summer, please stay! I don't want you to end so soon. During my summer holidays, I experienced so much joy and happiness. I went on a week-long trip to Zhu Hai with my family and we had a blast at the various playgrounds there. For example, we saw lots of ocean animals like dolphins, whales, and whale sharks swimming freely at the aquarium. At night, we would spend hours watching the colorful and beautiful fireworks light up the dark sky. It was truly an amazing and fantastic experience. The whole family spent quality time together and had a great vacation.

We also went swimming almost every day at our neighborhood club. My little sister and I would spend hours playing under the water with our swimming toys. It was so relaxing and sunny lounging by the pool, and I thought it was way better than being too hot shinning under the summer sun. I felt refreshed and energized after swimming.

Also, during summer holiday I don't have to wake up early to go to school, so I have plenty of free time to play chess with my family. I love chess so summer is by far my favourite time of the year! There are no worries or stress just fun and happiness.

Summer, please stay! I like you so much! I hope that you never end and I could experience your joy, happiness and freedom forever. The fleeting memories of summer will remain with me for a lifetime.

Our school picnic

I had an amazing school picnic on November 15th, 2023. Our whole class traveled by coach to the Chinese YMCA Wu Kwai Sha Youth Village, and it was an absolute blast. The place offered a wide range of games and activities including table tennis and two basketball courts. As soon as we arrived, we wasted no time and took a class photo to capture the joyful moment.

Afterwards, we gathered together to discuss which games to play first. A few of us couldn't contain our excitement and immediately headed to the recreation room, where we found table tennis and soccer table. My best friends and I teamed up against two other classmates, and the game was so thrilling! The soccer ball constantly moved around the "pitch", adding to the excitement. In the end, we emerged victorious!

Following the intense match, I decided to try my hand at table tennis. The ball flew back and forth across the table, and I was completely engrossed in the game. However, one of my classmates interrupted me, saying "Hey Gordon, we've been playing for so long. Let's go and play basketball. Hurry up!" I was quickly persuaded and found myself being dragged to the basketball court.

By noon, I was feeling exhausted, so I took a much-needed break in the cafeteria and enjoyed my lunch. Before I knew it, I finished eating and decided to join a group of classmates for a run on the 400m track encircling the soccer pitch. We pushed ourselves, but fatigue started to set in. Suddenly, my classmate Sam yelled, "Look at your watch! What time is it?" I glanced at my watch and realized it was time to head back. We had only ten minutes to make it back to the cafeteria to meet our teachers. We sprinted along the road, but to our dismay, we couldn't locate the cafeteria anywhere! It turned out we had unintentionally walked past it. We quickly retraced our steps and managed to arrive at the cafeteria, although we were five minutes late. It was a bit frustrating to have gotten lost, but we were relieved to be back on track.

All in all, the school picnic was an incredibly enjoyable experience! The Chinese YMCA Wu Kwai Sha Youth Village provided an array of engaging facilities and activities that made it the perfect destination for our outing. I'm looking forward to the opportunity to visit this site in the future!

Our School Picnic

We had our school picnic on 15th November, 2023 with our class teacher and classmates by school bus. This year we went to Chinese YMCA Wu Kwai Sha Youth Village.

It was a blazing hot day as the sun was high in the sky. On arrival, we took a class photo next to the hall. First, I went to play basketball on basketball courts with my group members. Then, we went to play table tennis in the recreation room. It was fun.

At twelve o'clock, we had lunch together in the canteen. I brought two rice balls. It was yummy.

After lunch, our teacher bought us some ice pineapples. We enjoyed it very much.

We returned to school at two o'clock. I felt very exhausted but happy because it was my school picnic in my last year of primary school.

Our School Picnic

We had our school picnic on 15th November, 2023 with our classmates by school bus. This year, we went to Chinese YMCA Wu Kwai Sha Youth Village. The first few things I did when I arrived at the campsite was to take a class photo. I was in a group with my friends Carlos, Lucas and Marcus. We went to play badminton at 10 a.m. It was very fun and interesting.

It was 12 p.m. when I had lunch. I had fried rice with beef and sausages that day, it was very delicious. I also had a tasty drink that I bought from a vending machine while playing badminton. It cost me 10 dollars. I also shared some candy to my friends and they thought it was very delicious.

After lunch, something funny happened. We couldn't find Lucas, and after a while of searching, we found out that he was at the canteen all along!

I enjoyed this picnic very much because I felt happy the whole time. I want to go to the Hong Kong Science Museum next year because I think it will be very fun.

An unforgettable trip

Have you been to Japan before? This summer, I went to Japan and I had a great time. I went to a lot of places in this trip and I want to introduce three days that were the most unforgettable.

The first day that was the most unforgettable is the day we went shopping and checked in. In the morning, we went shopping at Tokyo Hands and Sanrio. I played a lucky draw and won the first prize. It was a bed light with Cinnamoroll patterns. After we left the shopping mall, we took a train to Disneyland and checked in the Toy Story themed hotel. We decided to take a look at the hotel room and it was Andy's room! Then we were down to the restaurant to have a buffet dinner, but I was very disappointed because the food was very awful.

Another day that was memorable was when we went to Harry Potter Studio Tokyo. There were a lot of replicas of the movie scenes, such as the train, the $9\frac{3}{4}$ platform, etc. Except for the replicas, we could also be an actor in a movie scene of the Quidditch match and have the characters flying above our heads. The most special part of the studio is Harry Potter's house. It was very detailed, with a very small bed and a closet in Harry Potter's room, and it was exactly like how it was in the movies. Although all of them were interesting, I didn't know what was happening because I have just watched two movies of the whole series.

The best part of the trip was a surprise. On the eighth day, my dad planned for us to go to a museum, but I didn't want to. However, when I arrived at the train station, I saw my best friend Kobi! Later, we found out that our dad planned all this. We went to a museum together and watched a fireworks festival after that. The colours of the fireworks were dazzling, but it was so crowded there. Although it took us 20 minutes to leave, we had a great time together.

If I have a chance to travel again, I would like to go to another part of Japan to explore.

Our School Picnic

We had our school picnic on 15th November, 23 with our classmates and teachers by school bus. This year, we went to Chinese YMCA Wu Kai Sha Youth Village. We had enjoyed the trip a lot!

When we arrived there, Miss Tsoi and Miss Yip led us to the main entrance and we took a class photo together. After that we gathered with our group members. They are Anton, Gordon, Boris, Jayden, Aiden and me. We first went to the basketball court and played a long time. Then we spilt up and I played football with Anton and they played table tennis.

After a while, we were hungry, we got back to the cafeteria and we enjoyed lunch together. I ate sushi and dumpings and my friends ate fried rice. After eating, Miss Tsoi and Miss Yip bought our class some frozen peaches and they were delicious.

Later, we went playing football together again. But when I got there, I saw my football teammates and we chatted together for some time. After playing football, we went back to the cafeteria and gathered with my teammates and we left the Youth Village.

I enjoyed having the picnic, I felt as happy as a pig and I hope we can have a wonderful trip at Laws Foundation College again next year.
