My Chinese New Year Holiday

Chinese New Year is coming, so my family planned to travel to mainland. Due to the Covid-19 pandemic, my family couldn't visit our relatives. This time, we chose to ride the highspeed railways to Nan Ning, then we took the coach to arrive our hometown.

When we arrived at our hometown, my dad and I followed mum to our home. At that time, it was nighttime. The sun was sleeping. My mum said, "Daddy! Daddy! Give me the key!" I copied what my mum said just like a parrot. Soon, my grandfather wrapped the key with a plastic bag and threw the key down the narrow path. My mother carefully picked it up carefully, then opened the door gently.

I got some red packets from my relatives. I tried some delicious food. It was mouth-watering. I also played firecrackers and fireworks with my cousin. They were fun! The thing I like most is the scenery. It is very beautiful!

When I'm in my hometown with my relatives, I felt happy. I enjoyed this great time with my relatives. I wish I can visit my hometown again.

A Good Place in my Neighbourhood

My favourite place in my neighbourhood is Jordon Valley Park. It is in Kwun Tong. I like it because there are a lot of facilities for us to play. I often go there with my family. It is spacious and fun. There is a big grassland. We can play frisbee and soccer there! There is a children's play area for kids. There are some slides, monkey bars, swings and spring riders. There is a large radio-controlled model car racing circuit, adults and kids can play the maze in the garden. There are four jogging tracks, with total 1,115 meters in length. There is also some cactus and plants in the green house.

I like going to Jordon Valley Park. I love nature. Also, I like playing with my friends there. It's fantastic. Let's keep it clean and save the environment together.

My special friends

My special friends are Lucas Lam and Lucas Li. They are friendly and kind. We play together every day. We all love drawing and playing video games.

We knew each other when we were primary one students. We play with each other happily, and this is the way how we become friends.

They are my best friends. Sometimes I go to Lucas Li's house and play Switch games. We draw and play Legos. I like them very much!

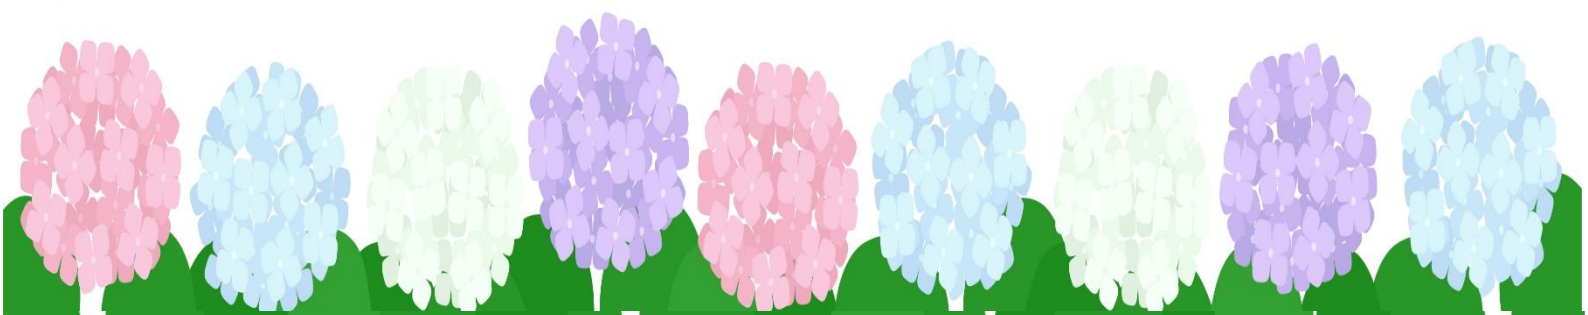

3R Lai Tsz Huen

My special friend

I have a special friend. Why is my friend so special? I am going to tell you why.

My special friend is Ceci. When I just turned to Primary 3, I had no friends and unhappy. But one day, I was so brave to ask Ceci if she could be my friend. She immediately said yes so that is how we become friends.

Ceci is gentle and humble. Also, when I am sad, Ceci will comfort me and give me a warm hug. Even though we have different hobbies, we can still chat together. Ceci is such a special friend!

My Chinese New Year Holiday

Last Friday, my parents, my friends and I went to mainland China. We first went to one of my friend's home to meet up. After we met up, we got into the car. One hour later, we were at the Shenzhen border for checkup. After the checkup, we were a bit hungry and heard there was a new shopping mall best. We found a restaurant that supposedly has good food but the food we wanted wasn't in stock. So, we just walked around the mall. After a while, we came across a small discount outlet so my friends and I had a look. There were a lot of toys including toy cars. There were also a lot of spring couplets too. After that, we called a taxi, but we didn't know which side accepts pickups, therefore we asked someone which side was it. Back to the point, he said it was the opposite side so me and my friends ran there and our parents walked.

After we got into the taxi. It was comfortable but it was a 4-seater so we called one more taxi for my friend and his family but we accidentally put Lo Wu as the destination. Luckily, we quickly changed it to the petting zoo where we were going. After we got off, the 2nd taxi wasn't here so we took some photos and there was a Lego store in the mall that has the petting zoo so we took a look 5 minutes later. My other friend arrived so we started going to the petting zoo, there were dogs, cats, lamas, hedgehogs, rabbits, ducks, capybaras and other animals. I actually got to stroke a snake too and welp, that's an experience.

We went to the Toys Rus next day. The first thing I saw were tanks and guns. There were some toy dinosaurs. We went to a place with a lot of claw machines. I wanted the duck plush so I basically spent 10 dollars or not because its quality is good and thankfully. Everyone got a plush. After that, we went to some kinds of department store. There were loads of guns and tanks so I bought a set of 14 toy tanks and my other friends brought some kind of jelly. After that, we gone out to eat lunch and it was pretty good. After that, we were at a mall but I am not going to talk about it because it only has furniture. After shopping in the mall, we went back home except for one of my friends that decided to stay for 1 more day. So, we called a taxi and got home.

A Good Place in my Neighbourhood

Cha Kwo Ling Promenade is a good place that I have visited with my family recently. It is in Kwun Tong near the harbour side. It is really an amazing playground for kids.

A long metal slide with 8 meters height is the landmark of Cha Kwo Ling Promenade. Kids have to climb up the rope net to the top of the slide and slide down through the metal tunnel. The slide is long and curly. So, it is very exciting! First, I dare not to slide down. However, when I see the happy faces of other children, I try my first ride and I cannot stop to play afterwards.

Moreover, there are many other facilities that are seldom found in other playgrounds. The most impressive one is a merry-go-round that can serve people with their wheel-chairs. It is also first time I play trampoline in the playground. I seem like flying when I am bouncing on it. What a wonderful experience! Besides, there are huge swings facing the Victoria Harbour. It is very relaxing that you can enjoy the nice harbour view when swinging on the swing.

Cha Kwo Ling Promenade is really worth to visit. No matter how old you are, you must be amazed by the unique design of the playground and facilities. Let's plan a visit this weekend!

A Good Place in my Neighbourhood

My good place in my neighbourhood is Cha Kwo Ling Promenade. It is in a park. Both adults and kids can play freely. It is near Kwun Tong Ferry Pier. You can go there by Bus 93A or Bus 23. After getting off the bus, we can walk to the park in five minutes.

I usually play on the slide. The slide is high and you can see the wonderful park view. There is a water gate. A frog figure sprays some water to the water gate. My dad, mum, my grandpa and my brother sometimes go there with me. All of us enjoy spending time in the park.
