My Long Easter Holiday

Last week, I went to Zhuhai, Chimelong with my classmate for three days. We lived in the Space Hotel. It was very huge and spacious. Also, there were a lot of facilities to play. I watched a 5D film. It was about the adventure in the ocean of me and the pirates. When I first watched it, I felt very frightened because the sound was very loud and the seat was very shaky. There was also a souvenir shop. I bought a penguin doll because it had a light button in its body, which I found it very interesting and funny.

The most interesting part is the "Circus Show." I saw the motorcycle jumped off from a platform which had a tum and landed to another. I appreciate the performers so much as they had to pay so much efforts in the show. I had a lot experience with my classmates. I hope I can go to the Space Hotel again.

My Long Easter Holiday

I went cycling un Shenzhen Wan Park. It is very enjoyable to go cycling there. The scenery is very good. The butterflies and bees were dancing, and the flowers were smelling good. I went to the sea side too, because Shenzhen Wan Park is near the sea, I collected some shells to made a necklace. It is very beautiful.

An Unforgettable Easter Holiday

On the first of April, I went to barbecue at Sai Kung with my family, my best friend Apple and her family. I felt very excited when I woke up in the morning, it was because it was my first time to go to the beach with my friend and our younger brothers. At eleven o'clock, we met together in the minibus terminal next to Hang Hau MTR station, then we went to Sai kung by minibus. After we arrived at Sai Kung Bus Terminal, we got off minibus and walked to barbecue site called BBQ King. Luckily, that day was a sunny day and the weather as nice for outdoor activities. We walked along the path me to the coast and finally we arrived at BBQ King at around fifteen minutes later.

Once we arrived at BBQ King, we could not wait for playing at the beach which next to the barbecue site, we brought out our beach toys immediately such as a beach ball, sand bucket and tools in our bags and then we went to the beach to play together. At the beach, Apple and I were collecting different type of shells. We worked hard to find out some beautiful shells inside the sand, finally we collected a bowl of shells and we felt very joyful. Our younger brothers were making a sand castle with my mom, they tried to build a big sand castle but they could not do it well, however, they still enjoyed to play it and felt very happy.
