### **My Easter Holiday**

In this Easter Holiday, I came back to Beijing with my parents. We were excited about the trip because we would like to visit our family members and friends. Mum bought three tickets. I shouted in my mind, "Beijing, we are coming".

When we arrived at the capital of China, it was early spring. Flowers started to blossom. It was quite colourful everywhere. My mum sent me to my grandparents' apartment. I went to the Olympic Park with them, and we ran into my cousin's place surprisingly.

My cousin and I played hide-and-seek, told jokes and rode bikes together. We also had dinner with some relatives. We had a great day! Unfortunately, my parents didn't make it to the dinner because of their work. I wish they could spend more time with me.

I had a great Easter Holiday. I really hope we could stay longer in Beijing, but I have to go back to Hong Kong for school. I think I'll go back to Beijing some other time in the future.

**A place that I want to visit is Ocean Park**

Where do you want to visit? The place that I want to visit is Ocean Park. I can play there and have fun.

First, there are lots of attractions, such as the cable car and the Ferris wheel. I think the roller coaster "Arctic Blast" is motive. It is snow themed. I can have a thrilling coaster experience and take photos against the breathtaking Polar backdrop.

Next, I love cute animals. There are wildlife animals. I want to take photos with them. I can join seminars about different aquatic animals too and at the same time, learn more about them.

I really can't wait for the visit. I think it must be a joyful memory.

### **Guangzhou Study Tour**

Last month, all primary five students went to Guangzhou for a study tour.

First we went to visit Guangzhou Subway Museum. We learnt how to build train tunnels. The museum guide introduced the history and development of trains to us.

Then we went to a hotel. It was the first time I left my parents and lived in a hotel with my friend. Soon the teacher called us downstairs for the fire drill. After that, my friend and I shared the snacks with each other.

Next morning, we left the hotel and visited an organic farm. We saw many melons and pumpkins.

It was an interesting trip. I appreciate the technology development of our motherland.

### **Guangzhou Study Tour**

It was the first time I went to Guangzhou for a study tour. I was very excited for this tour.

When we arrived at Guangzhou, the place I visited was a water purification plant. We learned how to purify the water. We drank the water there, it tasted sweet. We fed fish in the river.

Then, the next spot was Guangzhou Metro Museum. We saw station models, where Guangzhou metro train models Lines 1 to 7 were displayed. I played mini games in the museum. I think I will try a ride with Guangzhou Metro in the near future.

The next morning, we went to Guangzhou Science Centre. The place I liked most was Technology Exhibition Hall. I played a game. I tried the Simulate 360-degree Rollover. I felt very frightened. Later on, I tried to simulate driving a car. I think I will buy a car when I grow up.

Then, we were at the last station - an organic farm. We had lunch and learnt about the farming techniques.

After visiting the farm, we came back to Hong Kong. I think this study tour is very fruitful, like I tried to simulate driving. I want to go to Guangzhou one more time.

### **A place that I want to visit**

When I grow up, I want to visit Australia because this country is a diverse, with abounding modern cities of a lot of popular landmarks and buildings. For example, Sydney Opera House, Great Barrier Reef.

First, I want to go Princess Hill Primary School in Melbourne because this school is our exchange school, so I want to seize this opportunity to visit their school and exchange with our buddies some daily lives and special festivals.

Then, I want to visit the Great Barrier Reef in Queensland because it is a fascinating landmark that I want to visit a long time. It is a stunning place to go snorkeling. I can watch a lot of different species of fish, corals and sea creatures.

Finally, I want to visit the zoos in Queensland because there are a lot of kangaroos and koalas, they are both symbolic icons of Australia. When I go there, I want to buy lots of lovely souvenirs about these animals!

Australia is a place of treasure for us to explore. Hopefully I can travel there one day!

### **My New Year Plan**

What is your New Year Plan? I plan on doing a lot of things.

First, I plan on having a pet bird- a cockatiel. I think this will be a good way for me to get more exercise because I am going to take my cockatiel outside to get some fresh air. Therefore, it is beneficial for both of us.

Then, I am planning a holiday to Japan during the Easter holidays. Going on a holiday is relaxing and good for our mental health. I can also see many attractions. It is a good experience.

I hope this plan can work well!

### **My Easter Holiday**

This year, my Easter holiday is going to be the best one in my life.

This year, I am going to London, London has a lot of attractions such as, London Eye, Buckingham Palace... In the morning, we can go to the Buckingham Palace, it is grand. In the afternoon, we may go to British Museum to learn a lot of knowledge. At night, we can go to the London Eye, there is a millennium wheel. We can enjoy some night view on top of the wheel.

This Easter holiday is going to be awesome, because I can travel to London and learn a lot of information. If I can spend more days there, I will go around as many scenic spots as possible in London.

**A place that I want to visit is...**

At Christmas, I want to visit Japan so I am planning what to do.

First, when we go out to the airport, we are going to eat ramen. Then, we are going to visit the Tokyo Tower, it is huge. After that, we are going to visit the Tokyo Gundam base, there are a lot of people. Luckily, I can buy my favourite Gundam models.

At last, my mum wants to go shopping at outlets. There are a lot of shops. She thinks she are going to buy some shoes.

Finally, we are going to eat sushi at the airport before departure. I probably enjoy this trip. I am looking forward to it.
